

Chapter 1083 Self Destruction

Observing Liam's severe injuries, the Wolf King reveled in the thrill of revenge, unaware that Liam was about to switch strategies.

The Wolf King let out a fierce howl and lunged at Liam again.

Meanwhile, Liam got busy bringing his ideas to life. He focused hard, holding his breath, and concentrated on channeling the earth's gravitational magnetic field to gather beside the Wolf King.

The Wolf King, who used to zip around like lightning and was hard to spot, now stood out clearly in Liam's view.

A smile spread across Liam's face. His idea actually slowed down the Wolf King. He let out a sigh of relief.

This would make things much simpler!

Noticing its reduced speed, the Wolf King paused, looking around in panic.

Seizing the moment, Liam counterattacked decisively while the beast was distracted.

Holding Laura, Liam swiftly moved in front of the Wolf King and delivered a powerful slap, sending the beast tumbling away!

Seizing the moment, Liam counterattacked decisively while the beast was distracted.

Holding Laura, Liam swiftly moved in front of the Wolf King and delivered a powerful slap, sending the beast tumbling away!

The Wolf King, now visibly scared, looked back at Liam.

Despite its fear, it let out a howl.

At that moment, the Wolf King's green eyes widened suddenly.

It gathered its special power of wind element on its sharp claws.

Liam's brow furrowed as he noticed the Wolf King was sacrificing its own life force!

The sacrifice greatly amplified the beast's power. It adjusted its stance and attacked Liam once more.

As the Wolf King mounted a lethal assault, Liam stopped holding back. A mysterious red glow emanated from him, and his armor appeared instantly.

When the red armor showed up, Liam felt stronger and moved faster. Plus, Liam's gravitational magnetic field was still working. This all kept Liam at an advantage in the clash.

Liam charged straight away without dodging. The wolf's claws scratched his neck instantly, and he felt a sharp sting from the wind element's special power at the wound.

Yet Liam managed to grab the Wolf King's neck.

At that moment, the Heart of Life unleashed a powerful devouring force. Liam began to drain the life energy from the Wolf King.

Meanwhile, the huge beast also felt something wasn't right inside itself. In a panic, it used all its strength to struggle around wildly.

But Liam had a tight hold on the Wolf King, leaving it no opportunity to escape.

Liam's wounds from the Wolf King's resistance healed fast due to the life force he had absorbed.

Because of the life force he absorbed from the Wolf King, Liam managed to withstand its counterattack.

The other Ghost Wolves tried to rescue the Wolf King, but they were stuck in place because of the gravity and magnetic field holding them down.

A look of despair filled the Wolf King's eyes. It couldn't help but whimper as it was about to die.

Knowing its end was near, the huge beast decided to take Liam down with it!

Under the strain, the Wolf King's body started to swell dramatically.

The other wolves let out sorrowful howls upon witnessing their leader's impending death.

Even the wolves outside the influence of the
