

Chapter 1142 Klein

A special organization against Mobius?

Trevor was stunned.

Too many things had transpired today. After two waves of assault, he managed to stay alive and learn Mobius' name.

Just now, he just solved a bombing crisis.

Nicolas then told him that a secret organization was working against the mysterious Mobius.

Scratching his head, Trevor muttered, "I apologize, sir. I'm exhausted. Please give me some time to consider it."

None of the generals insisted anymore, and even offered Trevor a place to sleep on the base.

Since Trevor was exhausted, he quickly fell asleep in the dormitory.

It was already afternoon when he finally opened his eyes. There was less pain from the wounds on his legs and arms. Therefore, they had little to no effect on his everyday life.

"Levi, the generals invite you to the ceremony." An officer came to inform Trevor.

Accompanied by several officers, Trevor witnessed the awarding ceremony of the generals' lifetime honorary rank.

"What a spectacular scene!" A quiet sigh of relief left Trevor's lips.

There was also a small military parade in conjunction with the ceremony.

He saw fully armed troops marching, followed by infantry fighting vehicles and tanks. And even low-flying, heavily armed helicopters. Arms such as rifles, machine guns, cannons, and missiles.

This made Trevor thrilled.

He was enlightened.

"One's strength, no matter how great, is still limited. I am afraid that it will not be able to defeat a cruel organization like Mobius on my own."

After the ceremony, Trevor faced Nicolas.

"Mr. Bowman, I have given this a lot of thought, and I have decided to join your organization in the fight against Mobius," Trevor uttered in a serious tone.

His words brought Nicolas a great deal of joy. "All right, that's my man. Let me introduce our organization, Klein!"

Klein?

Hearing the name of the organization left Trevor awestruck.

With a smile, Nicolas explained, "The military may have founded this secret organization but bears no direct control over its operations. Members of this organization have extensive power, allowing us to gather intelligence, mobilize armies, provide financial backing, and more. And you don't have to worry about your fake identity anymore."

After saying this, Nicolas winked at him.

Feeling a little awkward, Trevor touched his nose. His fake identity was exposed.

But then, he sincerely expressed his gratitude.

"I appreciate it, sir."

Klein, with its military pedigree, would be a wonderful asset to his vengeance plan.

Then, they made an in-depth communication with the organization.

Just as the conversation was about to end, Trevor's phone rang.

The ceremony was finished, and the base's signal ban was lifted. His

phone could connect to the internet again.

His phone was flooded with messages right away, most of them were from Bess.

"Levi. Come back to the office right now. Xzavier has arrived"

"That despicable bastard wants to buy your company. And he has been giving hints that you're dead."

"Levi, where are you? This is an emergency."

Trevor's expression changed dramatically. He rose to his feet and told the generals, "I'm sorry but I have to leave. Something important came up. Xzavier is trying to buy my company while I'm away."

These generals knew about Trevor's real identity and the conflict within the Sanderson family. They were shocked for a moment but recovered soon.

Thinking that it was a good opportunity to show the influence of Klein to the new member, Nicolas grinned.

"Hold on. We will come with you."

Chapter 1143 Hostile Takeover

In Sky Film and Television Company

Xzavier was so excited that his face flushed. He looked at the lawyer in suit beside him and said excitedly, "I've been waiting for this day for too long!"

The lawyer didn't answer. He knew his boss was just overly excited.

In front of Xzavier and his lawyer were the managers of Sky Film and Television Company, Nelly, and Asho.

The representatives of both parties were just standing in the hall of the company. Nelly and Asho had no intention of sitting down and negotiating with Xzavier.

"You'd better give up. Even though Levi is not here today, we won't betray our company!" Nelly said to Xzavier coldly.

Ivanna also wanted to confront Xzavier, but Nelly held her back.

Xzavier ignored what Nelly just said and said with a complacent smile, "Nelly, I hear you are considered a top agent in the business, but you seem surprisingly dumb. You are even unable to decipher the current situation. Since I've brought a professional team here to discuss the acquisition of this company, you must understand I'm confident I can make it happen. You'd better cooperate with me. Otherwise, you will be banned from this industry!"

Most of the employees of Sky Film and Television Company were fresh graduates Trevor had hired himself. They were very attached to the company and they all stared at Xzavier without flinching.

Seeing the cold looks the employees were giving him, Xzavier waved his hand and said arrogantly, "There's no point in adopting a hostile attitude

with me. I advise you to cooperate so the acquisition can go smoothly. Levi hasn't contacted you since yesterday, right? Something might have happened to him."

Xzavier had a sinister, complacent smile.

His gloomy expression and words scared many employees.

Noticing the frightened expressions on the employees' faces, Xzavier continued to threaten them.

"Those who oppose me now will be fired once I acquire the company. They will not just be fired from the company, but from the industry in general."

Under the threats of Xzavier, the employees could not help but feel flustered.

Since they had just graduated, they had never been confronted with the viciousness of the industry. So, they could easily be intimidated.

Bess couldn't stand it anymore. She stood up and questioned Xzavier loudly, "Why you think that something must have happened to Levi? As long as he is alive, you will never acquire our company!"

Xzavier shook his head and forced a fake smile.

"I didn't explicitly say that something happened to him. I just guessed so. After all, arrogant youngsters would always get into trouble."

Although Xzavier said so, he seemed even more complacent now, and he seemed to be gloating.

His expression was really annoying!

Staring at Xzavier, Bess gritted her teeth and retorted loudly, "Levi just didn't go home for a night. It happens! Maybe he had something important to deal with. I think your urge to make money drives you crazy. You think you can take over our company so easily? No way! Besides, your comment about Levi not getting back home last night is out of place as there's no evidence at all!"

Xzavier scoffed and asked, "Really? Can you reach him now?"

He crossed his arms across his chest and looked at Bess with a sneer.

At this point, his lawyer took out the documents and began to read out the acquisition plan.

Xzavier's arrogant demeanor made the employees of Sky Film and Television Company feel a little uneasy.

The thing was, Trevor was never away from the company on workdays, especially now that there was a shooting going on. Even though he had no scenes, he would come to the company to ask about the progress of filming and any difficulties the crew was having.

But it was already afternoon, and he still didn't show up!

He didn't even answer his phone.

Was Xzavier right that something happened to Trevor?

Would they have to let Xzavier purchase the company they loved so much today?
