

After Prison 1071

[Chapter 1071](#)

“Rose-Petal Rain!”

Despite the awestruck expression on everyone’s face, the smile on Severin’s face was looking very bright. However, it did not look like a good smile in the Dark Night Gang’s member’s eyes. Instead, it felt so eerie and scary.

As Severin swung his sword, thousands of rose petals appeared out of nowhere and headed toward those people with high attainment. The Rose-Petal Rain was a technique that could attack multiple people at the same time.

“Oh, no! Be careful everyone. Those rose petals look unharmed but the power in them is extremely strong. Don’t underestimate them!”

Someone shrieked and alerted the others after sensing the power of the rose petals.

“Run! It’s an attack from a level nine warrior king. There’s no way we can survive it!”

“No! It’s too late. There’s not enough time!”

The members of the Dark Night Gang panicked. Those with higher attainment tried to fight and defend themselves while those with lower attainment ran for their lives. However, Severin did not target those people with lower attainment. His main target was the people with higher attainment. Thus, the rose petals flew passed those people with lower attainment and only attacked those people with higher attainment.

“Damn it! There’s no way to run!”

A level five warrior king old man was about to run but to his dismay, a few rose petals had encircled him. After the explosion, the old man blasted into a few pieces and dropped from the sky.

“No! No! No!”

Cade looked at those dead members with dismay that it did not take any effort for Severin to kill warrior kings. His fist was clenched tightly.

“That’s it! I have enough!”

He gritted his teeth and charged at Severin. Unfortunately, Severin did not give him any chance to get near. Dozens of rose petals flew toward Cade and surrounded him. After a few explosions, Cade was dead.

After a while, there were more than a hundred people died. Whereas the survival fled the scene with fear. Finally, Yidel and the others entered the headquarters and approached Severin.

“Supreme Leader, you’re so strong! You alone had defeated countless enemies!”

The Great Elder of Canis Hall exclaimed shockingly as he scanned through the dead bodies lying around the space.

“Gosh. They are nothing when their opponent is a level nine warrior king!” The Second Elder too was impressed.

“Where are the members of Canis Hall? Are they not here yet?” Severin asked as he looked at them.

[Chapter 1072](#)

The reaction on everyone’s faces was the same. They were speechless. Not long after they left for the Dark Night Gang’s headquarters, they had instructed the other members from the Canis Hall to come over to clear the battle scene. However, they did not expect the fight would end so quickly. The members were still on their way here as of now.

“So do you still think the other underground forces in Benfield City will come for us?”

Severin remembered the worried Yidel had previously and asked with a smile.

The Great Elder replied, “No. Those people that escaped already knew that you are a level nine warrior king. If those families or underground forces know that you are a level nine warrior king, they are going to find the best place to hide from you. They won’t dare to come for us at all.”

Severin took out a cigarette and smoked it. “Good. Save the trouble.”

After that, he chuckled. “I bet there’s going to be lots of spiritual herbs here. Once we gather all the loot, I’ll pick out all the spiritual herbs that are suitable to make into alchemist medicine. Then you guys can keep the others like attainment technique or weapon. That way, you guys can grow stronger faster too.”
“Thank you, Supreme Leader!”

Yidel and the others exchanged looks with each other and were happy to hear that. All the while, the hall had been desperate to get more training resources. This time their dream finally came true.

“Then when are we going back to Dracodom?” Alesha asked.

After thinking about it, Severin said, “Go ahead and sell all the properties and business at a lower price today. We can buy the air ticket tomorrow to fly back to Dracodom the day after tomorrow. Then we can

stay in Wymouth City for two days. The members could reunite with their families before we leave for South Link City.”

The moment Yidel heard Severin mention South Link City, he was awestruck. “South Link City is a big and busy city. If I’m correct, the South County Mansion is there in South Link City.”

Severin took a puff of the cigarette and said, “I’m currently the governor of South County. If you guys need to find me in the future, just head to the South County Mansion. When you guys are there, I’ll ask the other hall masters to come over too so all of you can get to know each other. The other members can also stay near to where they are staying so you guys can look after each other.”

“Haha! That’s a great idea!” The Great Elder was joyful to hear that.

“Well, well. I didn’t know you are also a governor. You’re definitely a very talented and strong leader.”

Alesha laughed out loud too. Shortly, the members of Canis Hall arrived. It took them a while to gather all the loot and cleared the scene.

After everyone was back in Canis Hall, Yidel took out all the spiritual herbs they gathered and let Severin pick out those he needed. Severin took a look at it. Although there were many spiritual herbs, only a hundred of them were suitable to make into alchemist medicine. He separated them from the others so the members of the Canis Hall could take the other spiritual herbs to use in their training.

For the rest of the day and the next morning, Severin made use of the time by making more alchemist medicines to put them aside. Yidel and the others made sure they bought the air ticket and went to sell off their properties and business in Benfield City.

The next morning, everyone got ready and departed from Benfield City to fly back to Dracodom. The other underground forces in Benfield City did not dare to make any opposing noises especially because

1

they knew the person who destroyed and killed most of the Dark Night Gang's members was a level nine warrior king. Neither did they dare to offend Severin even though they knew he was from Dracodom.

When they found out Severin had left Benfield City with every member of Canis Hall, they were relieved and happy that they were gone.

"Welcome back!"

Chelsea had been waiting in the airport for Severin to return from Benfield City. When she saw them walking out of the arrival hall, she approached them with a smile.

Severin replied with a smile, "There're more people flying in with the next flight and the flight after next. Chelsea, please bring us to the villa my dad had prepared for us. When we are there, we can share our location with the others."

Chelsea nodded. "No problem. I have prepared more than twenty cars with drivers just to send all of you guys to the villa."

[Chapter 1073](#)

After a while, Severin and the others arrived at a villa in Wymouth City. It used to belong to Mount Blade Gang but now it belonged to Severin after Severin destroyed the gang. Now Severin had allocated the villa to be the temporary residence for the members of Canis Hall.

When the car stopped at the door, Severin discovered Richard and Mayor Hamish were waiting for him.

"Severin, your efficiency level is so high. It only took you a couple of days to locate and bring these people back." Mayor Hamish complimented when he saw Severin bringing those people back.

Severin replied humbly, "It was pure luck. Otherwise, it won't go so well."

After that, he noticed there were more people standing not too far away from him. He frowned and asked, "Mayor Hamish, who are those people?"

Mayor Hamish chuckled, "Haha. They are families and friends of the members of Canis Hall. They know that the members are coming back today so I asked if they would like to come here to wait today. In that way, they could meet the members as soon as possible."

After that, Severin nodded with approval. "Mayor Hamish, you have a kind soul."

"Haha. You'll do the same if you are in my place." Mayor Hamish chuckled.

It took Trudy just a while to notice her parent was there. She saw them kept on looking over to find her. Her eyes went red and watery immediately,

"Dad, Mom, I'm back!" Trudy ran over and embraced her parent in her arms.

"Trudy! It's really you! You're finally back! Trudy's father exclaimed excitedly.

"Dad, Mom. I'm sorry for making you guys go through all the hardship all these years, Trudy said sadly, I'm going to spend more time with you guys this time."

"We're so thrilled to have the chance to see you again. Severin is such a nice guy. He gave us a lot of money that is more than enough to last us in this lifetime. Trudy, you need to remember you have to repay him in the future, okay?"

Trudy's mother made sure Trudy understood what Severin had done for them.

Trudy nodded. "Mom, I know. He's Supreme Leader. Our big boss!"

More and more people reunited with their families. The place became so heartwarming and loving. Severin looked at them and said, "If you guys are not in a hurry, you guys can stay here longer. I've been away for a long time so I'm going to go back to South Link City two days later."

Yidel nodded. "Don't worry. We'll go look for you very soon. After this, I will look for a time to discuss with the members if any of them would like to stay here in Wymouth City to be with their families. I won't force anyone to go to South Link City. But I welcome with open hands to those who wish to continue to be part of Canis Hall."

[Chapter 1074](#)

Severin nodded. "Yes. That's better. Let them choose. Canis Hall was the only choice they had when they were living in Cherridom because only Canis Hall can protect them. Now that they are back in Dracodom, the circumstance has changed. If they wish to leave Canis Hall, just give them some money so they can live without any problem back here in Wymouth City."

Mayor Hamish had arranged a feastful dinner at night to welcome Severin and the others back. After resting for a day, Severin went back to South Link City himself.

"I'm so bored. It has been nearly ten days since Severin left. Why do I have the feeling that these couple of days have been so hard?"

Meanwhile, Sheila was walking around in the garden. She stretched her back and felt sad. "I'm jealous of Diane. At least she has something to do after she is gifted with attainment. Her hard work pays off well now that she is a level one profound master. Unlike her, I have nothing to do."

As soon as she finished talking, she saw a familiar person walking in.

“Are my eyes fooling me? No! It’s really Severin!”

Sheila rubbed her eyes and realized Severin was back. She ran quickly to him.

“Severin! You’re back! You’re back!”

She ran so fast and threw herself at Severin. Severin opened his arms wide open and let Sheila hug him tightly.

It felt so heartwarming that someone was waiting for him to go back. Severin asked, “Sheila, I’m only away for a few days. Do you need to get so excited to see me back?”

Sheila looked up shyly. “But I’m really very happy to see you back. Don’t you know how much I miss you? Diane has been busy training the attainment technique you gave her. She’s now a profound master. I haven’t got the gift to train yet so I have been feeling very bored these days.”

Severin was surprised to hear that. “What? Are you saying Diane is a profound master now? That’s great!! guess the attainment technique suits her very well. She makes quite an improvement.”

Sheila nodded. “Yes. She becomes a level one profound master three days ago. I’m jealous of her.”

“My son-in-law! You’re back!”

Severin heard a familiar voice. He looked over and saw Zachariah walking over with a few other people. Shockingly, he asked, “Why-why are you here?”

Zachariah chuckled. “Why can’t I be here? My daughter has told me you’ve accepted her which makes you my son-in-law. She’s my one and only daughter so inevitably, I have to move here to come live with her.”

Severin did not know which reaction was the correct one to show. Nevertheless, he knew this was going to happen after he accepted Sheila. He chuckled, “Haha. That’s good too. At least Sheila won’t be bored anymore. You can ask her to take you around when she’s free.”

Zachariah laughed. “No matter what, she’s going to feel bored when you’re not around. She did bring me around these few days. But I think she must feel bored having to bring an old man around.”

Sheila felt shy and gave her father a fierce look. “Dad! What are you talking about? I don’t feel bored spending time with you!”

“Alright. You must be very happy to see Severin back, Zachariah chuckled.

From the smile on Sheila’s face, he could tell how happy Sheila’s life was.

Sheila bit her lips and nodded shyly. “Of course. But I’m not the only one happy to see him home. I mean everyone is going to be happy to see him.”

[Chapter 1075](#)

“Dad! Dad! Yeah! You’re back!”

Meanwhile, Selene saw Severin and came running from far away. Megan, Maurice, and Judith were following behind her.

“Selene. How have you been lately? Did you make any improvement in your attainment?”

Severin was happy to see his daughter running to him. He squatted down and waited to carry her.

Selene giggled. “Dad, I did. Lillie and the others said the level of my strength is equivalent to a level six grandmaster.”

She paused to think before continued talking. “And I have started learning alchemy techniques. Using spiritual energy to build and nourish my body so I can increase my attainment faster.”

Severin nodded satisfactorily. Yet, he did not forget to remind Selene. “That’s good. But you have to make sure you get enough rest. And you need to continue training in martial art every day so you can get used to the new strength in your body and use those spiritual energies that come in the strength to nourish every part of your body.”

Selene had a pair of round and beautiful eyes. She listened carefully to what Severin said and nodded seriously. “Don’t worry, Dad. I will do as you said. I know you are super powerful and one day, I’ll be like you too.”

Severin rubbed her head with love and said, “I believe you can do it.”

“How’s your trip, Severin? Have you found Canis Hall? I thought you were going to take just a few days. We didn’t expect you to leave home for so long,” Megan asked.

At that moment, Megan and the others reached where Severin was.

Severin answered with a faint smile. “It’s true that I will only need a couple of days if Canis Hall was still in Wymouth City. But something happened and they were being chased after by another underground force two years ago. They had no choice but to relocate to Cherridom. That’s why I went over to Cherridom to look for them.”

“What? You didn’t tell us that you went to Cherridom!” Megan looked sad. “If I know that you’re going there, I’ll ask you to bring me. I have been thinking about traveling. I’m sure it’ll be very fun.”

Severin smiled helplessly. “Do you think I was there for fun? I was there for business and I come back right away after my task is finished.”

Maurice asked, “Hey, Severin, where’s the people from Canis Hall? Did they come back with you?”

Severin gave his father a smile. “Dad, don’t worry. All of them come back. But I brought them back to Wymouth City to reunite with their families. They’ll probably arrive here two days later.”

Maurice nodded his head. “That’s great!”

“Master! You’re back!”

[Chapter 1076](#)

At that time, the six beautiful bodyguards arrived where Severin and the others were. All of them were very happy to see Severin back.

Severin inspected their attainments and nodded satisfactorily. As he expected, Lillie, Kiera, and the rest had a breakthrough to level seven warrior king after he gave them the alchemical medicine. Among the girls, Wendy was the strongest of them all being a level eight warrior king. Severin rested assured and felt safe having them protect the South County Mansion.

He spent time chatting with everyone. When the conversation ended, he put Selene back down and headed back to his villa. He went straight to the second floor when he was in his villa.

As he opened Diane's room, Diane had just finished her training.

She was surprised and thrilled to see Severin back. "Honey, when did you come back? Is everything settled?"

Severin smiled faintly and went over to pull Diane into his arms. "Of course. I have come back for a while now. I heard you were training so I didn't come to find you first."

"I'm a level one profound master now. It feels so good to have the ability to use spiritual energy!"

She clenched her fist. With a thought, a faint amount of spiritual energy appeared on her fist.

Severin nodded and smiled. "When I was downstairs, Sheila told me. Do you know she is so jealous of you?"

Diane knew exactly how Sheila felt. "Then the harder you should help her find a treasure that could give her the ability to train too. I can tell she's really eager to train and be strong too."

Severin hugged her and kissed her forehead while feeling loved. "I actually have the power to protect you and Sheila. There's no need for you girls to be in a hurry to work so hard to upgrade your attainment."

Diane replied, "But no matter how strong you are, that's you. Besides, as your women, we don't want to be your burden. Can you understand that? We want to train hard so we have the ability to protect ourselves." At this point, something popped into her mind. She looked up. "Oh, I just remember something. I heard from Lillie and the others that once you reach a certain level of attainment, you can live longer. Is that

true?"

Severin nodded. "Of course it is. Once you surpass the level nine warrior emperor, you become a saint. That means you can live up to two hundred years old.¹

"Wow! That's great. I need to train harder then!" Diane got so excited upon hearing that. "I didn't know there are so many benefits when you have attainment. I feel so lucky that I have attainment now."

After that, she thought of something else and sighed. But it's so hard to become a saint. I'm still a profound master now. Then there's the warrior king and warrior emperor after the profound master. Becoming a warrior emperor is harder than going to the moon. I don't even dare to think about being a saint."

[Chapter 1077](#)

When Diane was on and on about how impossible it was for her to become a saint, Severin stopped her from talking by kissing her red lip. "Honey, there's nothing you need to worry about. Maybe it's going to be impossible for the others to become a saint but you have me. Don't forget I'm now a second-grade high-rank alchemist. I believe I'm going to be a third-grade low-rank alchemist in no time. As long as I give you all the necessary alchemist pills you need during training, it will take you no time to become a saint. Or maybe a higher attainment breakthrough."

"Honey, do you know how fantastic you are? I'm so lucky to have you as my husband!"

Diane felt so happy and rested her head on Severin's chest.

"You silly girl. I'm the one feeling lucky to have you as my wife." Severin and Diane kissed and cuddled together.

By the time they showed up downstairs, it was already night time. Even so, they still brought Selene out to spend time together. When they returned, Severin went back to his room and took a quick shower so he could go to Diane's room quickly.

"Severin? Don't you have to make alchemical pills tonight?"

Diane knew what was Severin up to. Her heart was beating fast because she was feeling nervous and she did not dare to look straight at Severin.

Severin smiled faintly and pulled Diane closer to him. Both of his hands wandered around her back. "Honey. Absence makes the heart grow fonder. It's better that we make good use of tonight together rather than me spending the time making alchemical pills."

"Oh, my god!" Diane rolled her eyes while feeling very shy. "Do you know how strong you are every time? I'm really scared of you. I always feel so tired that I don't feel like getting up the next day."

Severin had a smirk on his face. "There's nothing I can do about that. You should know a man who has attainment are definitely good at that. Since you are a profound master now, you are stronger than before. too. So you won't feel so tired tomorrow. I believe in you!"

"Ahhh- this is so embarrassing!" Diane felt so shy that she wanted to find a place to hide.

Severin did not give her the chance to do that. Instead, he carried her, strode to the bed, and softly threw her to the bed. Both of them hugged and kissed each other. Soon, the love had filled up every corner of the room.

In the other room, Sheila had trouble sleeping. Previously, she felt so happy that Severin had finally accepted her and both of them kissed.

However, Severin had not slept with her after so many days. It started to make her worried that Severin did not really like her or that her body was not attractive enough for him.

"Ah! This is so frustrating! When can I sleep with him and truly be his woman?"

She sighed helplessly. From her perspective, Severin could regret his decision as long as both of them did. not sleep together. She could only rest assured that Severin really accept her when both of them slept together.

The next morning, Severin returned to his own room before Diane woke up.

[Chapter 1078](#)

Severin took out his cauldron and some third-grade low-rank ingredients to start trying to make the third- grade low-rank alchemical pill. The third-grade low-rank alchemical pill was extremely important. It would have tremendous improvement in increasing attainment for level one or two warrior emperors.

Although Severin had never tried making any third-grade low-rank alchemical pill before, he had been visualizing and doing simulations in his head over and over again before he slept at night.

Third-grade low-rank spiritual herbs were very rare. Thus, that was why Severin did not dare to attempt without a good plan. It would break his heart badly on every failed attempt.

In fact, he did not have a lot of ingredients in his hand. Only a little over a hundred sets of ingredients were available and those were given to him from Wuhlricht.

After he took out the ingredients, he went over the alchemical recipe twice again before he finally held his breath and made sure to use his full attention to attempt to make the third-grade low-rank alchemical pill for the first time.

As a matter of fact, not only was the ingredient more precious than the second-grade high-rank alchemical pill, the main ingredient was more powerful too. Thus, it required good control of the fire.

The alchemy process started just several minutes and it exploded. The ingredients for the first attempt were wasted.

“Take it slowly. I just need to do my best!”

Although he felt sad for wasting the ingredients, he gathered his mind and made sure he felt confident again. He took out another set of ingredients and started the second attempt.

By noon time, Severin had used seven sets of ingredients but none of them were successful. All those ingredients were wasted.

“At least I don’t have any trouble extracting the essence of the spiritual herb. There’s no trouble with the extraction process and all the essence are very pure. Let’s continue again in the evening.”

He stored the cauldron. Although he did not succeed, he was still happy that he made improvements. Mainly because he knew just how hard it was to become a third-grade low-rank alchemist. If it was easy, then the world would have more third-grade low-rank alchemists.

Since it was lunchtime, he went downstairs to have his lunch and rested for several hours. When it was late evening, he made sure he was in the right state before returning to the room to start making the alchemical pill again.

After several failed attempts, Severin really pity those ingredients. By the time it was night, he had wasted more than ten sets of ingredients. However, there was a smile on Severin's face. On the last attempt, he realized he was so close to success. After two more attempts, Severin suddenly raised his hand. A small alchemical pill flew up and hovered in front of his face.

"Haha! I did it! I did it!"

Severin's eyes turned red as he looked at the alchemical pill in front of it excitingly. He had finally successfully made a third-grade low-rank alchemical pill.

[Chapter 1079](#)

As Severin stared at the alchemical pill in front of him, he got excited that his eyes turned red. It was a third-grade low-rank alchemical pill. It was a very meaningful moment for him. As of this moment, he had become a third-grade low-rank alchemist..

Several minutes later, he inspected the alchemical pill. Obviously, the quality was not good but that did not affect him from feeling happy and excited. After he put everything away, he spent a couple of minutes to calm himself down. Once he was calm, he quickly took the chance to attempt one more time. However, his success rate was still very low. He only managed to make one alchemical pill among the five attempts.

"Yes! I can finally rest now that I have two third-grade low-rank alchemical pills!"

Severin smiled and decided to take a rest for the night. After he put his cauldron away, he looked for his pajamas and went to take his shower. Once he finished his shower, he thought about it before he decided to go to Sheila's room. He knocked on the door softly. Sheila heard it and came to the door.

"Severin, are you looking for me?"

Sheila's heart raced rapidly when she saw Severin standing at the door. She got nervous. Although she had been anticipating this day, she did not think Severin would come to look for her at this late hour.

Severin smiled, walked inside, and locked the door.

"Silly girl. I want to sleep and cuddle with you tonight, is that alright?"

Looking at how shy and helpless Sheila was, Severin started to grow more fond of her. Sheila had a cute face but she had a sexy body. Her sleeping gown was not long enough to cover her long and fair legs. Severin saw her leg and was mesmerized by them. Severin thought he was a determined man.

However, he felt a fire burning in his body the moment he saw how sexy Sheila was and when he smelled the fragrance of her body.

"O-Okay!"

Despite the nervousness and excitement feeling, Sheila was feeling shy too. She bit her red lip, walked to her bed, and laid down. Severin also walked to the bed, lied beside Sheila, and hugged her with one arm. When Severin kissed Sheila's body, she could not help and moan. Her body trembled.

“Please be gentle with me. I’ve never done it before and I’m scared.” Sheila said worryingly with her fist clenched tightly.

“Don’t worry. I promise I’ll be gentle.”

Severin smiled and kissed her again.

The moonlight shined in through the window. This was the night Sheila truly became Severin’s woman. When the sun rose in the morning, Sheila looked at Severin who was sleeping next to him. She had a sweet and loving smile on her face.

[Chapter 1080](#)

Although Severin tormented Sheila like a beast last night, she had finally become his woman.

“Yes!”

The thought of that got her so excited that she clenched her fist tightly and yelled out happily.

“Yes, what?”

Nevertheless, Severin actually heard that.

She felt so embarrassed that she wanted to dig a hole to hide herself like an ostrich. She smiled embarrassingly. “Nothing. It just feels good that I’m finally your woman.”

Suddenly, she thought of something and felt scared. “Oh, shit! We didn’t use any protection last night. Am I going to be pregnant? What if I do? I’m not ready to have a kid now!”

Severin smiled and rubbed her head to ease her tension. “Don’t worry. How can it be so coincidental? We just did it once and it’s not that easy to be pregnant. Just remember it the next time.”

Sheila pouted and said, “But you never know. Didn’t Diane get pregnant the first time you two slept together? What if that’s what happened to me too? Ah! This is so annoying! I don’t want to have a kid yet. I’m scared of pain. I’m not ready!”

Severin smiled. “It doesn’t matter. Sooner or later we will want to have a kid. It’s not bad if we have one now. Selene would like to have a younger sibling to play with her.”

Sheila rolled her eyes. “It’s easy for you to say that. I can feel the pain just by thinking about it.”

Severin said, “Too bad you are not a profound master yet. It’s easy if you don’t want kids when you are a profound master.”

Sheila frowned and looked at Severin curiously. “What do you mean by that? Are you saying if I’m a profound master, I can control my pregnancy?”

Severin explained, “Of course. Many people with attainment are not in a hurry to have kids. They think having kids are a burden to them. So those women who do not want to be pregnant will use their spiritual energies to expel it out of their bodies every time they did it.”

Sheila opened her mouth wide after hearing such shocking information. She did not know a profound master was capable of doing that. It was definitely something new to her.

"I don't care. If I'm not a profound master or when I'm ovulating, you can't touch me!" Sheila told Severin. after thinking about it.

Severin was speechless because he did not know Sheila was really that scared of having a kid.

"Oh. Then when it's safe, you need to tell me." Severin smiled and continued to cuddle and kiss Sheila.

"You're so annoying!" Sheila felt shy and turned around so she did not need to look at Severin.

"Severin, Severin, someone is looking for you!"

Unexpectedly, he overheard Megan calling him from downstairs. He quickly got up, put on his clothes, and went downstairs.

When he was outside, he realized Yidel and the others had arrived.

"Supreme Leader! We're here!" Yidel said excitedly when he saw Severin.

"Haha! Good! Good" Severin laughed. "Take a seat. I'll call Larry and the others to come over here."
