The Ex-Husband's Revenge chapter 2481

"Mister Wolf, don't mess with us! These herbs should add up to at least 287 million. A vice president like you can't possibly afford it." Josua was the first to snap out of it. He sneered and glanced at Leon in contempt.

Apart from Renee, he and Ariel la were the first people to know Leon and they knew about Leon's background.

According to what he knew, Leon was just a vice president from a small business in the southern region and was not even a descendant of influential families.

With that in mind, he assumed that Leon might not even possess 3 million, let alone hundreds of millions.

Yet, Leon claimed that he wanted to purchase all fifteen herbs.

This was practically impossible and he refused to believe Leon could accomplish it.

"That's right!"

"Kid, I'm warning you. Suppose you can't afford the herbs, scram. Don't cause trouble here! If you keep this up, we will show you no mercy."

Realization dawned on the others and they all turned to glare at Leon.

They knew Leon was just a vice president who likely had a net worth of a few million at best.

However, even the cheapest herbs that only grew for three hundred years cost up to 4 million.

They assumed that Leon might not be able to afford even the cheapest herb and that he was just seeking attention, as they could not think of any other explanation for his behavior.

“He’s just a clown. Renee, send this clown out of here. Aren’t you worried that he’s going to embarrass you?” Felton mocked and stared at Leon with disgust.

Leon repeatedly opposed him and he harbored resentment toward Leon because of that.

Since Leon was offending the others, he refused to let this opportunity go and took the chance to mock Leon along with Renee.

“I-” Renee’s expression darkened.

Though she knew that Cynthion Group was not as insignificant as others imagined it to be, Hugh was merely a vice president and not the chairman.

Moreover, 287 million was hardly a small amount.

Even, she could only move funds worth 70 million at a time without her grandfather’s permission. Hence, there was no way Leon could do such a thing.

She could not determine if Leon was truly trying to make the purchase or if he was causing trouble on purpose as others accused him of.

“Mister Wolf, these herbs are too expensive and, normally, you can’t afford them. Please think this through,” Ariel la said.

She agreed with the others and did not think Leon could afford so many herbs.

Hence, she tried to talk him out of it to save him from embarrassment.

“Yeah! Mister Wolf, don’t just run your mouth if you can’t afford it. You may not mind losing face, but don’t drag Miss Morrison down into your mess,” Joshua mocked.

Though he was jealous of Leon and desperately wished he would embarrass himself in public, both he and Ariella came along with Renee and Leon. ’ With Leon being seen as a fool, he was worried that he might be seen the same way as well, i

The Ex-Husband's Revenge chapter 2482-"Who says I can't afford them?" Leon scoffed and was about to continue when Jaxon came down from the stage.

Mister Wolf, you might not be an expert in herbs. There are different types of herbs with different effects. Even if you buy all fifteen of them, they won't all be useful to you. These herbs that have grown for three hundred years work great.

If you like them, you can buy one and try how it works on you first," Jaxon said.

Though he did not think someone of Leon's status could afford the herbs, he could not insult Leon like the others as he was the host. Moreover, Leon was hundred-year-old herb even if he could not afford the other ones that cost tens of millions.

Hence, he recommended the cheaper herbs to Leon and gave him an excuse to give up. So long as Leon accepted it, he would not embarrass himself and Renee.

"It's fine. Mister Feaks, I'm interested in them all. Please pack them and calculate the total amount!" Leon said calmly.

Cynthion Group needed a large supply of herbs to produce alchemical pills, especially herbs that grew for over three hundred years.

He was lucky to encounter this many rare herbs, so he needed to purchase them all.

"But-" Jaxon did not expect Leon to be so insistent despite being given a way out.

This caught him by surprise and he was stunned.

"That's enough! Don't worry, Mister Feaks. 287 million doesn't mean much to me. If you are worried that I can't afford it, run my card!" Leon saw through Jaxon's thoughts and placed his card on the cabinet before Jaxon.

“Well,” Jaxon was utterly dazed by the sight of the card and could not figure out what Leon was planning.

Was he going to purchase all fifteen herbs?

‘But, given his status, how could he?’ he thought.

“Kid, why are you bluffing? 287 million isn’t a small amount. Even Renee would struggle to afford it. Who do you think you are? Is there that much money on your card?” Unable to stand it any longer, Felton mocked.

He refused to believe Leon had that much money because it was unrealistic.

However, Leon was Renee’s boyfriend and he assumed Leon was relying on Renee’s support.

If that were truly what Leon thought, it would be laughable.

Though Renee was the eldest daughter of the Morrisons, it would be challenging for her to move such a large amount of money.

Moreover, the effects of these herbs were different and most were not suitable for the method the Morrisons trained with. Hence, there was no point for Renee to purchase all the herbs.

Caleb and the other elders would never allow her to spend 287 million on herbs that were useless to them.

The Ex-Husband’s Revenge chapter 2483

“Yeah, Mister Fermer is right!”

“These herbs are really expensive and add up to about 287 million. Not many people here can afford them!”

“Kid, if you keep causing trouble, we won’t spare you!”

The others agreed with Felton's view.

Though they were all from wealthy families with a net worth of thousands of millions, their fortune were mainly in the form of properties.

Even higher-status elites like Felton and Renee would struggle to gather such a big fund, not to mention a vice president like Leon.

They all assumed Leon was trying to cause trouble because that seemed to be the only possibility.

"Just because you can't afford it, doesn't mean I can't! Mister Feaks, just run the card!" Leon scoffed.

He saw no point in arguing about a fact. All they needed was to run his card to find out if he had enough funds, so he did not bother to argue with the others.

"Why you! How stubborn!"

The others were all enraged by Leon's arrogance and glared at him, thinking that he was looking for trouble.

"Mister Feaks, since he insists, just run the card! I want to see if he has the money to buy all these herbs!" Seeing as others were upset with Leon, Felton realized that this was his chance to target Leon. He turned to scan Mister Daglesh and the others. "Mister Daglesh, you can see how this kid is causing trouble on purpose right? If we find out that he doesn't have enough money, you can't stop me from teaching him a lesson!"

"Mister Fermer, don't worry! If he is causing trouble on purpose, I won't stop you!" Mister Daglesh said.

He only protected Leon because Felton was far too arrogant and he did not want the bouquet to be ruined. However, Leon's action already provoked all the guests.

Mister Daglesh was appalled by Leon as well. If there were no money in Leon's card, this would prove that he was intentionally causing trouble.

If that were the case, he would have no reason to stop Felton from harming Leon.

"Mister Daglesh is right!"

“If this kid can’t pay up, you can do with him as you please, Mister Fermer,”

The others agreed along. No one supported Leon, nor did they believe that Leon could afford the herb.

However, what happened next shocked them.

“Ding!”

Jaxon told one of the guards to bring over a card reader.

Though he did not believe Leon was capable of pulling out 287 million, Leon insisted on using his card and enraged others with his action. At this point, Jaxon had no other option.

He double-confirmed the prices of the herbs and started running the transaction.

The money needed for the herbs was transferred out of Leon’s account smoothly, leading to roughly 287 million, i

The Ex-Husband’s Revenge chapter 2484

“What!” Jaxon’s jaw dropped when he received the money.

He did not expect Leon to pay 287 million in his wildest dream and this caught him by surprise.

He froze in place, unable to react.

“Mister Feaks, what’s going on? This kid doesn’t have money, does he? I knew that he was just bluffing. Now that his cover has been blown, let’s see what he has to say for himself!” Felton sneered and narrowed his eyes maliciously.

He already reached an agreement with Mister Daglesh and the others.

If Leon failed to pay, they would not stop him from dealing with Leon any longer.

Seeing as Jaxon was stunned, Felton assumed that it was because Leon did not have enough money in the card.

Not showing mercy, he waved his arm, ready to order his guards to capture Leon.

However, the reality was cruel.

Before he could place the order, what happened next shook him to his core.

“No, Mister Farmers! I’ve received 287 million and there is more than enough funds in Mister Wolfs card!” Jaxon snapped out of it and said.

His words caused a stir.

“What? Are you saying that he has 287 million? How can that be possible?”

Felton was stunned and could not believe what he was hearing.

Naturally, he was not the only one. The others gaped at Leon in disbelief.

They all knew that Leon was merely a vice president of a small company and with that considered, no one expected him to be capable of purchasing all these expensive herbs.

However, the truth delivered a deafening blow to them all.

To their bewilderment, Leon paid 287 million for all the herbs.

It was practically a miracle and they were all shaken to the core.

“It’s true. If you don’t believe me, I can show you the receipt,” Jaxon nodded and showed everyone the receipt to prevent them from criticizing Leon.

“Well-” When they saw the receipt, they were stunned.

The proof was staring them in the eye, and they could not deny it any longer.

At that moment, they realized that they underestimated Leon.

“Wow! Hugh, I didn’t think you could pay 287 million! You are great!”

Snapping out of the initial shock, both Renee and Ariella were overjoyed.

Renee was quite worried at first. Hugh was just a vice president and not the chairman, so he might need the capability to pull out such a large amount of money. However, he succeeded in doing so and that filled her with shock and admiration.

Ariella, too, was impressed by Hugh and Cynthion Group. Though she never heard about Cynthion Group and Hugh was just a vice president, he managed to gather hundreds of millions, which proved that Cynthion Group had great financial power.

The company was far from what she initially imagined. 2

The Ex-Husband’s Revenge chapter 2485

“How could this happen?”

Contrary to Renee and Ariella’s reaction, Joshua was utterly stunned.

He already learned from Renee that Leon was just the company’s vice president. With such a low status, he could not understand how Leon managed to gather such a large amount of money.

It was unbelievable and he would have never believed it to be real if he did not see it himself.

“Damn it! How did that kid do this?” Felton clenched his fists, his expression darkened.

He was just imagining how he could teach Leon a lesson once he failed to pay 287 million. To his surprise, he was wrong.

Thinking back to how he mocked Leon and discussed with others how they would teach Leon a lesson, he felt like a fool.

Instantly, he was so embarrassed that he wished he could hide. Naturally, he was not the only one.

The others were all ashamed of their arrogance and mockery.

“Mister Fermer, didn’t you question if I can afford these herbs? I’ve already paid.

What else do you have to say?” Leon turned to Felton, his gaze contemptuous.

He did not forget about how Felton continuously mocked him and this was his chance to fight back.

He was curious to see how Felton would react.

“I-” Felton paled, unable to retort.

After all, Leon was simply telling the truth and could only swallow his pride.

This was the consequence of his actions.

“Alright. Mister Wolf, I’ve packed all the herbs up. Please check them.” Just that, Jaxon already ordered the guards to pack all fifteen herbs and handed them to Leon.

“Sure.” Leon accepted the herbs and smiled.

He came to this bouquet mainly to purchase herbs. Since his purpose was accomplished, he was in a great mood.

Felton already embarrassed himself and he could not be bothered to waste more time on him.

“Hang on!”

If this guy buys all fifteen herbs, what will we get?”

Watching Leon and glancing at the empty cabinets, the others were stunned.

Someone muttered and realization dawned on them.

Initially, they thought that someone of Leon's status could not gather 287 million, so they were not alerted about the fact that he was purchasing all the herbs.

However, after Leon paid, they realized something was wrong.

They all came to purchase herbs and if Leon bought them all, this trip would be in vain.
