

# The Ex-Husband's Revenge Chapter 2501

The Ex-Husband's Revenge chapter 2501

"You just won't give up! Remember what you said! If the Pure Energy Pill doesn't get Miss Oxford to the Overlord State, I won't spare you!" Felton scoffed, his eyes shimmering with a malicious glint.

Since the Premium Energy Nurturing Pill worked perfectly, everyone else sided with Leon and Felton had no other excuse to pick on him.

This frustrated him. However, Leon seemed to have gotten cocky and started bragging about the Pure Energy Pill. On top of that, he even planned to test it on Ariella.

From Felton's perspective, Leon was asking for humiliation and he was not going to let this chance go.

"As if you can do anything to me. What a joke!" Leon scoffed and glanced at him in contempt.

"Don't get cocky, kid! You keep bragging about the effect of the Pure Energy Pill and treating us like fools. If the Pure Energy Pill doesn't get Miss Oxford through the bottleneck of her training, I'll make sure you suffer for this!"

Felton could not bear Leon's contemptuous tone and his expression darkened further.

Still, the test had not even started yet, so he suppressed his anger and produced an excuse to pick on Leon later on.

Once Ariella failed, he could take the opportunity to teach Leon a lesson. With an excuse to do so, the others would not be able to stop him.

"Forget it! Mister Wolf, since you don't have the Supreme Pure Energy Pill with you, let's test this another time!" Jensen saw through Felton's plan and suggested.

He was grateful that Leon offered him the premium Energy Nurturing Pill that got him to the Emperor State. Hence, he did not want Leon to be armed.

With that in mind, he tried to convince Leon to give up on the test. Otherwise, Felton would cause trouble once Ariella failed and this would not benefit Leon in any way.

“Mister Daglesh, what are you doing? He gave us his words and promised to let Miss Oxford try the pill in front of us all. Are you trying to make him break his promise?” Felton said, clearly displeased by Jensen’s repeated attempt to protect Leon.

“I-” Jensen opened his mouth and found himself rendered speechless.

“Mister Daglesh, thank you! Don’t worry. I know what I’m doing. Since everyone wants to witness the effect of the Pure Energy Pill, I’ll have Miss Oxford try it!”

Leon said calmly.

He knew that Jensen was worried about failing and wanted to give him an excuse to give up. However, Leon was confident in the Pure Energy Pill. On top of that, he already made a promise in public and could not go back on his words.

“But, alright, then.” Seeing as Leon insisted, Jensen could only give up.

However, he decided that he would try to protect Leon from Felton even if Ariella failed to get through the bottleneck of her training. This would serve as his way to show gratitude.

The Ex-Husband’s Revenge chapter 2502

handed Ariella the pill.

“Um, sure.” She accepted the pill hesitantly.

her to the next power level, but she had no option at the moment.

Leon insisted that she test it and Felton did not give Leon any chance to back down, so Ariella could only test the pill.

It melted in her mouth and transformed into a stream of pure energy that coursed through her body.

Not daring to delay, she sat on the ground and started absorbing the energy.

Sometime later, Ariella completed absorbing the energy, and her energy started to waver.

“Huh? What’s going on? Is Miss Oxford going to have a breakthrough?”

The others were stunned when they sensed Ariella’s energy wavering.

After what happened to Jensen, they realized that this was a sign of a breakthrough.

“No, no way! This can’t be real. Maybe Miss Oxford’s losing control,” Felton was stunned as well.

He could tell that the wavering of Ariella’s energy represented a breakthrough, he already assumed that there could not be any pill that guaranteed a breakthrough.

Cynthion Group was just a firm in the southern region that had no fame. Even if there were truly such powerful pills, Cynthion Group could not possibly have the ability to produce them.

The wavering of Ariella’s energy did not necessarily represent a breakthrough.

Felton assumed that Ariella might have failed and lost control of her energy, as this was a likely explanation as well.

However, reality soon proved him wrong.

Ariella jolted and her energy rose as she ascended to the Overlord State.

“Great! I succeeded!” Standing up, Ariella was thrilled.

Initially, she felt the same as the others and dared not to get her hopes up.

State.

This was so surreal that she was overwhelmed by excitement.

“How can this be possible?” The others were all shaken to the core.

With Felton’s constant provocation and the fact that Leon could not present a Supreme Pure Energy Pill, they all assumed that Leon was bluffing.

Yet, it turned out that what Leon and Renee said was true.

This was practically a miracle and none of them would have believed it if they did not witness it.

The Ex-Husband’s Revenge chapter 2503

“How can this happen?” Contrary to Ariel la’s joy, Felton was utterly stunned.

He was going to hurt Leon using the failure of the Pure Energy Pill as an excuse. On top of that, he even wished that Ariel la would lose control of her energy. That would give him the perfect reason to harm Leon.

However, the reality proved him wrong.

He could not figure out why Cynthion Group could produce such magical pills and this completely altered his understanding of martial arts.

For a moment, he stood frozen, unable to speak.

“Mister Wolf, the Pure Energy Pill is brilliant!”

“We’re all convinced now!”

“Sorry for offending you earlier. We just didn’t hear about Cynthion Group in the past.”

Energy Pill.

Though Ariella did not test the Supreme Pure Energy Pill, the two worked similarly.

the Supreme Pure Energy Pill.

Instantly, all doubts in their mind were cleared.

They were not aware of what the alchemical pills could do and kept questioning Leon.

Upon witnessing the true power of the Energy Nurturing Pills and Pure Energy Pills, they were all ashamed and hurriedly apologized to Leon.

“You’re all too kind! This isn’t that big a deal,” Leon smiled.

Evidence was crucial when one presented a claim. He knew that the others never heard of Cynthion Group. The alchemical pills’ effects were far too wonderous that it was normal for them to be doubtful.

He did not mind what the others did earlier, but the same could not be said about Felton.

Felton bore ill intentions and repeatedly undermined him. Since the effect of the “Mister Fermer, didn’t you say that I was bluffing? Now that you’ve witnessed the Leon turned to Felton with a contemptuous look in his eyes.

“I-” Felton’s expression darkened and he was rendered speechless.

Leon spoke to him with no respect and the effect of the alchemical pills made him a complete fool. Because of that, he resented Leon and could not bear to admit defeat.

“Don’t get smug just yet! The Overlord State and the Emperor State are different Energy Pill can indeed help martial artists in the Semi-Overlord State, it doesn’t mean that the Supreme Pure Energy Pill can help martial artists in the Semi Emperor State the same way. If you want to convince me, take a Supreme Pure Energy Pill out right now for testing, or I’ll let you have it!” Felton scoffed.

He was already told that Leon did not have any Supreme Pure Energy Pill with him and there was no way that Leon could run a test with it at the moment.

So long as Leon failed to fulfill his request, Felton would win in the end.

The Ex-Husband's Revenge chapter 2504-"Why you!" Leon laughed angrily.

He saw shameless people before, but never one like Felton.

"Mister Fermer, I'm afraid I don't agree with you! Mister Wolf clearly stated that he didn't have the Supreme Pure Energy Pill on him! Don't you think it's unreasonable for you to demand that he present one for testing now?" Jensen stepped forward and attempted to protect Leon.

"Yeah, Mister Daglesh's right!"

"Mister Fermer, you're out of line here!" The others agreed along and all sided with Leon.

Though the Fermers were powerful and none of them dared to cross Felton without reason, Felton's actions were far too despicable.

Pill could guarantee a breakthrough. With that logic, the Supreme Pure Energy Pill would likely deliver a similar effect as well.

However, Felton insisted that Leon offer a Supreme Pure Energy Pill for testing when he knew that Leon did not have one at the moment.

This was simply out of line and even the other guests were displeased by it.

"Jensen, this is between me and this kid. It's none of your concern! I warn you all to stay out of it!" Felton's expression darkened further when others sided with Leon.

Ignoring the others, he turned to Leon once again. "You have one last chance! If you can present a Supreme Pure Energy Pill and prove that it can guarantee a breakthrough from the Semi-Emperor State to the Emperor State, I'll settle down! However, if you fail to do so, I'll make sure you suffer today!" Felton said maliciously.

He knew that Leon did not have any Supreme Pure Energy Pill on him and only said so to create an excuse to teach Leon a lesson. Though it was a horrible excuse, it was better than nothing.

“A breakthrough to the Emperor State, huh? It’s not that big a deal! If you are that desperate to widen your horizon, I’ll show you!” Leon scoffed.

Considering his current strength, he did not see Felton as a threat at all.

However, he traveled to the western region to expand Cynthion Group’s market.

The better the alchemical pills work, the more fame he would gather.

This would only prove to be beneficial for the future.

With that thought in mind, he turned to Renee. ‘Miss Morrison, what power level are you on?’

“Me?” Renee did not expect Leon to suddenly turn to her and was momentarily Overlord State.

and fell into silence thoughtfully.

“Hugh, what’s wrong? Why are you asking my power level?” Renee asked in confusion.

The Ex-Husband’s Revenge chapter 2505

Pill and one Motherwort Pill,” Leon explained and took out one of each pill, before handing them to Renee.

Renee accepted the pills hesitantly.

Semi-Overlord State to the Overlord State.

as to why Leon was giving her the pill.

As for the Motherwort Pill, she never heard of it and did not know how it worked.

“Here’s the thing. Apart from getting martial artists in the Semi-Overlord State to a breakthrough for martial artists in the Overlord State as well. The Motherwort Pill, on the other hand, increases your energy. If you take both at the same time, you may be able to get to the Emperor State,” Leon explained.

The Motherwort Pill worked similarly to the Sun Pill. It served to enhance the energy of martial artiststraining with a dark method or possessed dark energy.

With the Motherwort he obtained, he produced a total of twelve Motherwort Pills at the time. After giving a few to his confidantes, he had seven left.

Meanwhile, martial artists who trained with dark methods were rare, so the demand for the Motherwort Pills could not compare with that of the Sun Pill.

The seven Motherwort Pills he possessed were not of much use to him.

Since Felton unreasonably demanded that he present the Supreme Pure Energy Pill fortesting and he did not possess any on him, he could only present the Motherwort Pill instead for Renee's testing.

Though Renee did not train with a dark method, she was a woman who possessed dark energy by nature. Hence, the Motherwort Pill should work perfectly on her.

Renee repeatedly stopped Felton from picking on him earlier and Leon had a great impression on her. Hence, he decided to offer her a previous Motherwort Pill in the hope that she could get to the Emperor State.

Once she got to the Emperor State, this would silence Felton and boost the image of Cynthion Group, therefore facilitating the establishment of a new branch.

This would kill two birds with one stone.

away from the Emperor State.

Pure Energy Pill into the mix as well.

The two pills would complement one another to ensure that Renee succeeded.

“What? Are you saying that these pills can get me to the Emperor State? Am I hearing you right?” Renee was instantly stunned.

Leon did not have the Supreme Pure Energy Pill on him, yet Felton demanded that he help another martial artist in the Semi-Emperor State to the Emperor State.

This was already unreasonable. To her surprise, instead of denying such an unreasonable request, Leon added on the challenge.

This was so surreal that she was shaken to the core.
