

The Ex Husbands Revenge Chapter 2528

The Ex Husbands Revenge Chapter 2528-“Hugh, this isn’t time for you to play the hero! Felton is in the Intermediate Emperor State! Even if we fight him together, we won’t beat him. We should leave from the back and catch a taxi to go home before he notices us! We will just leave our car here and come back for it tomorrow,” Renee said.

Like Ariel la, Renee knew that Felton’s power was practically unrivaled.

She did not think that a nobody like Leon could fight Felton as it would be unrealistic to think so.

At the moment, their best solution was to avoid Felton and leave in secret.

“Yeah, Renee is right! Mister Wolf, you can’t beat Felton. You and Renee should leave from the back. If Felton finds you, things would be troublesome!” Ariella said.

Just then, something shocking happened.

“You want to leave? Not so soon!” Just then, someone sneered.

Felton strode over with two bodyguards with an arrogant expression.

Leon and the others were too loud and alerted Felton, who was not far away.

To prevent Leon from running away, he immediately hurried over with his bodyguards to stop the group from leaving.

“It’s over. We can’t leave now!”

Ariella and Renee’s heart sank when they saw Felton.

“This is about to be good,” Contrary to their concern, Jacob backed away and crossed his arms with amusement.

If Leon reacted in time and left from the back with Renee when he and Ariella came to warn them, they might have been able to avoid Felton.

On the other hand, Leon chose not to run and claimed he would teach Felton a lesson. In the end, all the noises attracted Felton's attention and they were now ambushed.

He did not have a good impression of Leon and since both Ariella and Renee were protective of Leon, Jacob was quite displeased with him.

From his perspective, Leon got what he deserved for getting caught by Felton and he was itching to see how Felton was going to beat Leon.

"Felton, you again! You don't know when to call it quit, do you?" Leon's expression darkened and he glared at Felton.

Felton relentlessly picked on him and even tried to get others to target him. At the time, Leon was focused on proving the effect of the alchemical pills and letting Cynthion Group's name known, so he ignored Felton the entire time.

However, this seemed to have only encouraged Felton to the point of waiting outside and looking for trouble.

This was far out of line and even Leon, who was generally good-tempered, was enraged.

The Ex Husbands Revenge Chapter 2529-"Don't get smug! You challenged me repeatedly during the bouquet just because you have Renee and Jensen backing you! It's about time we settle the scores!"

Felton sneered maliciously.

During the bouquet, Jensen and the others all supported Leon and Felton did not have an appropriate reason to harm Leon.

Since Jensen and the others all left and Renee was the only one left by Leon's side, he no longer had any concern and could do as he pleased with Leon.

"Like you can do anything to me. What a joke!" Leon laughed and looked at him in contempt.

Almighty State, even the Western Boss himself would not be able to harm him, not to mention Felton.

Hence, he did not see Felton as a threat at all.

“How dare you run your mouth when you are about to meet your demise? You asked for this! Since you have a death wish, I’ll make it come true!” Felton was completely enraged by Leon’s contemptuous attitude.

He raised his arm and ordered his bodyguards, “Teach this kid a lesson. Take his tongue and break his legs! Show him what it means to cross me!”

“Yes!” The two bodyguards stepped forward and started walking toward Leon.

“Don’t you dare!” Startled, Renee immediately stepped before Leon and opened her arms to stop them.

“...” The two guards immediately stopped.

They both knew that Renee was the eldest daughter of the Morrisons and not someone they could afford to cross. With Renee standing in front of Leon, they dared not to harm Leon out of fear that Renee might get caught in the crossfire.

They could only stop and turn to look at Felton to seek further instructions.

“Renee, what are you doing? Is this brat your boyfriend? Are you being to oppose me for his sake?” Felton said with a dark expression.

During the bouquet, he was told that Leon was Renee’s boyfriend. However, because Leon was merely a vice president of a small company and Renee herself denied it, he had doubts about this.

For someone with such a high status as Renee, she could not possibly be interested in Leon.

However, Renee repeatedly protected Leon and even faced Felton down for Leon’s sake. This caused Felton to wonder if Leon was indeed Renee’s boyfriend.

But how’s that possible?’ he thought.

“Felton, Hugh hasn’t done anything to you, yet you kept targeting and undermining him! You are way out of line here!” Renee shouted.

The Ex Husbands Revenge Chapter 2530-“So what if I’m out of line? This brat kept offending me and I’m going to teach him a lesson. Get out of the way, Renee, or I won’t show you mercy!” Felton threatened.

Renee's answer convinced him further that Leon might truly be her boyfriend.

He pursued Renee for a while, yet Leon managed to date her in the end.

Instantly, his resentment toward Leon intensified and he desperately wished he could tear Leon apart.

"No way! I'm not getting out of the way. If you want to hurt Hugh, you'll need to get past me first!" Renee said with determination.

Though Leon was not her boyfriend, he was a guest of the Morrisons.

On top of that, Leon helped her get to the Emperor State using the Pure Energy Pill and Motherwort Pill. She was grateful for what he did and could not possibly stand idly by while Felton attempted to hurt Leon.

"Like you can stop me! What a joke! You know my strength, Renee. Do you think you have what it takes to stop me from teaching this brat a lesson?" Felton laughed angrily.

The more Renee tried to protect Leon, the more determined he was to teach Leon a lesson. No one could stop him, not even Renee.

"I-" Renee was rendered speechless because she knew Felton was right.

Though Leon helped her get to the Emperor State using the Pure Energy Pill and Motherwort Pill, Felton was one of the Thirteen Greats and long reached the Intermediate Emperor State.

This meant that he was far stronger than her and there was no way she could stop Felton.

Her heart sank. However, the tables were turned the next moment.

"Mister Fermer, Miss Morrison may not be able to stop you alone, but what if I help? I wonder if that's enough!" Just then, Jensen approached two bodyguards.

"Jensen, you again!" Felton's expression darkened as he did not expect Jensen to be around.

"Mister Daglesh, I thought you left. Why are you back?" Renee was overjoyed.

Leon helped Jensen and Jensen protected Leon throughout the bouquet because of that. Jensen's appearance at the moment would only benefit Leon.

"Oh, I saw that Mister Fermer was still lingering around when I headed to my car, so I decided to stay," Jensen explained.

He was worried that Felton might harm Felton and as he was about to leave, he happened to see Felton waiting at the parking lot. Instantly, he realized Felton was waiting for Leon.

Hence, Jensen stayed behind instead of leaving so that he could hurry to Leon's rescue.
