

Married At First Sight Chapter 2967

Married At First Sight Chapter 2967-Tania and Serenity chatted for a while, and then Tania's mood improved.

Tania listened to Serenity.

Serenity advised her that Tatum was grown up and not a three-year-old child, so let them do whatever they wanted.

Tatum went to work seriously again.

Moreover, his business was stable, and if he worked as a home cook for others, it would not affect his own business.

Thinking that Tatum might be cooking for his future wife, Tania had no need to stop him.

"Seren, I have thought about it now, and she is not angry anymore. Let's go downstairs and see Sonny."

Tania stood up.

Serenity smiled and went downstairs with Tania.

Sam was watching cartoons with Sonny, and Sonny was very engaged.

Hearing the footsteps, Sam stood up.

"Auntie."

Sonny saw Serenity coming downstairs and stopped watching TV. She got up and ran to Serenity and Tania.

He called Tania "Grandma Reading" affectionately.

Tania picked him up and asked him if he was happy in kindergarten.

Sonny answered one by one and told Tania a lot of interesting things about the kindergarten, making Tania laugh continuously.

About an hour later, Liam and Tatum arrived.

When Serenity heard that Liam and Tatum were coming, she went out to greet them personally.

Tania held Sonny motionless and said, "He's here as soon as he comes. He's not the emperor, so someone needs to go out to meet him."

However, she was still very satisfied with Serenity's actions.

Serenity walked out of the main house and saw Liam and Tatum getting out of the car and walking over in a hurry.

"dad." Serenity called Liam.

Liam was anxious, but when facing Serenity, he still looked kindly and responded to Serenity gently.

Tatum called sister-in-law.

"Serenity, is your mom in the house?" Liam asked softly.

Serenity nodded. "Mom is in the house, dad; you don't have to worry. Mom is fine."

"She ran over, but I didn't know it. I thought she locked herself in the room. I didn't dare to open the door by force, so I knocked on the door and called her. She didn't respond after calling for a long time. I thought she was angry with me."

Fortunately for Liam, his wife was angry and only came to see her eldest son instead of running back to her parents' home.

Otherwise, if Liam had to go to the Reading family to pick up his wife, he would inevitably disturb his mother-in-law and make her worried.

The main thing was that whenever the couple had any minor conflicts, the mother-in-law always took his side, which made the old wife jealous, saying that her mother favored him as her son-in-law.

In fact, it was better to know a daughter than a mother.

The mother-in-law knew Tania well and her daughter's temperament, and she also knew Liam as her son-in-law.

So as long as the couple had a minor conflict, it wouldn't be his fault.

He had never complained in front of his mother-in-law, but every time, his wife always felt that it was him who was complaining.

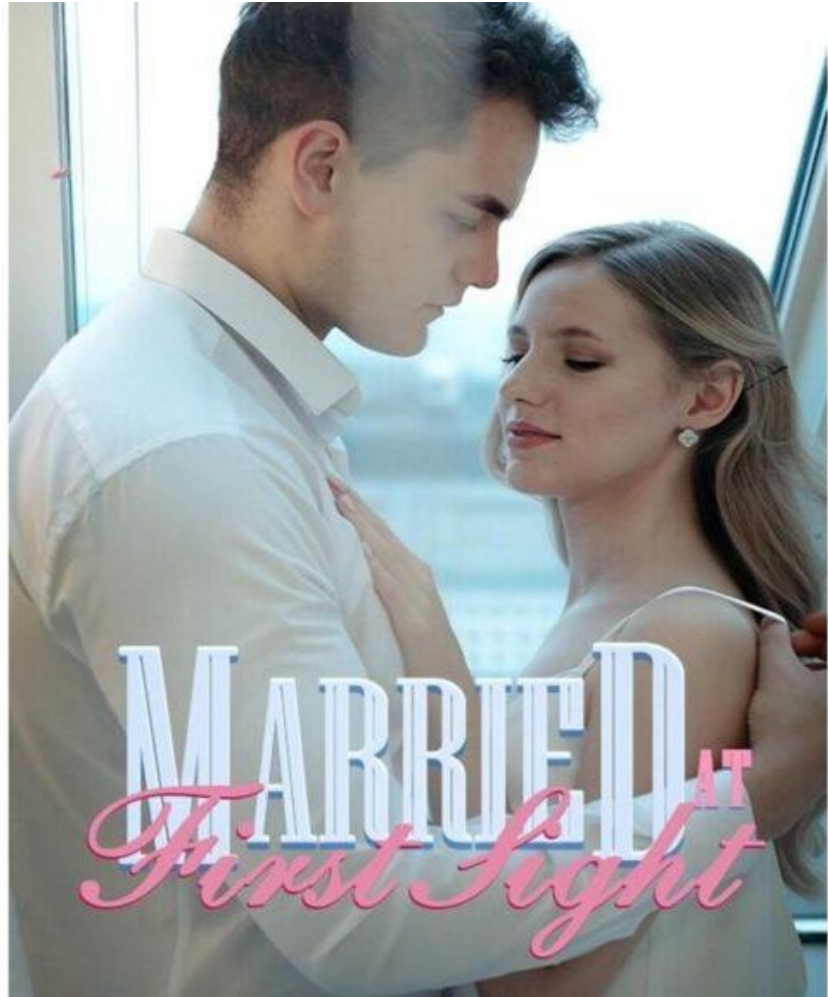

He tried his best not to alarm his mother-in-law.

The mother-in-law was getting older, and Liam didn't want his mother-in-law to worry about them anymore.

"I didn't quarrel with her. I just said that Tatum is an adult. He knows what he wants to do. As parents, we should support our son in doing what he wants to do and what he likes to do. What's wrong?"

After Liam finished speaking, he quickly said to Serenity, "Serenity, dad won't talk to you anymore. Dad will go in and see your mom first."

With that said, Liam hurried into the house.

Married At First Sight Chapter 2968-Serenity and Tatum did not enter the house immediately.

Tatum looked at Serenity and asked tentatively, “Sister-in-law, can we have a few words?”

Serenity smiled: “Of course, if you want to tell your sister-in-law, just say it.”

“My parents are having an unpleasant quarrel this time because of me. I want to be a home cook, but I can take care of my business. But mom doesn’t agree. She thinks that I have my own business; even if I like cooking, I can cook at home; there is no need to be a chef for others.” “Chefing is a profession, but Mom doesn’t like it. Mom thinks I am the sixth young master of the York family. How can I be a chef for others?”

Tatum was a little distressed. It was because of his mom’s opposition that his parents were unhappy.

He was different from Zachary.

Zachary had the best relationship with his grandparents because they raised him. Although his grandparents also taught him, he spent more time with his parents. He cared about their parents' support for him.

Tatum was not the eldest son and did not need to take over the family business, but this year he started to help manage the family business and also had his own business.

He could do what he wanted without too much pressure. He thought that if he told his parents, they would support him.

He never thought that Tania would not support him, but Liam would support him as always, and Tania would quarrel with Liam instead.

After Tania went upstairs, both Liam and Tatum thought that Tania was angry in the room.

Unexpectedly, Tania quietly left the house while they were not paying attention and came to Zachary's place.

Liam and Tatum took turns going upstairs to knock on Tania's door to apologize to her, but there was no one in the room at all.

If Liam and Tatum hadn't received the message from Tania, they would still be waiting stupidly for Tania to calm down and come out of the room.

Serenity said, "Mom also told me about this. I told her that you like cooking, want to be a chef for others, and do what you want. We are your family, and we should support you.

Mom can accept it now. You don't have to blame yourself too much. My parents have such a good relationship that they won't fall out because of a small thing. Any unpleasantness will be over quickly."

Liam had lavished attention on Tania for years.

For the first time, Tania would be angry if Liam did not unite with her.

"Actually, Mom is not angry with you, but angry with Dad, who is angry that Dad did not unite with her."

Tatum pursed his lips and smiled helplessly. "This is true. I'm not worthy of my mom being angry with me. The only one who can make my mother angry is my dad. Sister-in-law, thank you for speaking in front of mom for me."

Tania was actually very open-minded, but occasionally she cared about other people's opinions, thinking that they would disgrace the young master of the York family and make her, the eldest wife of the York family, lose face.

Tatum could understand Tania.

But Tania figured it out quickly.

Just like when Zachary married Serenity, Tania was unwilling in her heart, but she never did anything to damage the relationship between Zachary and Serenity.

Tatum also protects serenity very well. He would break up with anyone who spoke ill of Serenity.

Serenity smiled: "We are all a family, so there is no need to be so polite. Your eldest brother, and I hope you are well."

Tatum thanked Serenity.

"Tatum, I want to ask you something secretly. Please answer me truthfully." Serenity suddenly lowered his voice and said,.

Tatum's black eyes flickered, as if Serenity knew something. But he still said, "Sister-in-law, just ask; I know I will definitely answer you honestly."

"You are going to be a home cook for someone else. Is that someone your grandma has chosen as your wife?"

Tatum was speechless.

How did the sister-in-law know?
