

The Ex Husbands Revenge Chapter 2619

The Ex Husbands Revenge Chapter 2619-“Elder Daglesh, since you are interested in working with Cynthion Group, let’s compete fairly. I’m sure Mister Wolf will make the wise choice!” Caleb said.

Though he did not want to get into a competition with these powerful families, he could not stop others from pursuing their gains and could only accept the situation.

Since the Morrisons were the most powerful family in the Western region, they surpassed other families in terms of influence and power.

As the head of the Morrisons, he did not fear competition and challenge.

“Thankyou for understanding, Elder Morrison! Let the best win!” Elder Daglesh smiled.

Seeing as Caleb did not get upset, the others sighed breaths of relief.

Though they had enough power and did not fear the Morrisons, the Morrisons were not ones they wanted to cross if possible.

Since Caleb understood their positions, this was an ideal situation.

“Grandfather, let’s focus on the important thing! Let’s go and meet Mister Wolf to continue the negotiation!” Hugo changed the subject.

“Sure,” Caleb said.

Suddenly, Jensen spoke up, “That won’t be necessary, Elder Morrison. Mister Wolf isn’t here so there’s no point for you to go in,” he reminded.

“Mister Wolf isn’t here? Where did he go?” Caleb blurted out.

“We don’t know. The hotel staff said he went out early in the morning and no one knew where he went,” Jensen shook his head.

When he and the others arrived, they all asked the hotel staff about Leon.

They were told that Leon was not around and since they did not get Leon's number, none of them could reach him at the moment.

Hence, they could only wait for Leon to return.

"I see!" Caleb finally realized why everyone was waiting outside the door.

"Father, since Mister Wolf isn't in there, let's just go home!" Jayden said.

He regretted coming with Caleb to meet Hugh and upon learning that Hugh was not around, he instantly wanted to leave.

"What's the rush?" Caleb shot him a displeased look and ignored him, turning to Hugo. "Hugo, you should have Mister Wolf's number, right? Call him and ask him about it."

"Oh, okay," Hugo said and took out his phone to call Leon.

Once the call was answered, Hugo asked Leon about the situation, and after a brief conversation, they ended the call.

"Hugo, what did Mister Wolf say?" Caleb urged.

The others were all turning to Hugo, eager to know where Leon went and when he would be back.

□

The Ex Husbands Revenge Chapter 2620-"Grandfather, Mister Wolf said he is dealing with something important and won't be back anytime soon. Concerning the deal between US and Cynthion Group, he asked US to go home and he will contact US once he is back," Hugo explained.

"That's strange. Mister Wolf came alone. He doesn't have any connection in the western region, so what important matter can he possibly be handling?" Caleb frowned in confusion.

Naturally, he did not know that Leon had run into an old friend from the Dragon Corps and wanted to go to the branch. Hence, he could not quite return to negotiate with the Morrisons.

“I don’t know. He didn’t say what it’s about,” Hugo shook his head.

“Father, it doesn’t matter what he is doing, since he won’t be back anytime soon, let’s go home,” Jayden said casually.

“But,” Caleb hesitated. For a moment, he wanted to leave and wait for Leon to return.

However, when he noticed that the others were still waiting, he soon realized something was wrong.

“Elder Daglesh, Mister Wolf said he has something important to handle and can’t get back for the time being. Why don’t we all go home and continue with this once he gets back?” Caleb said to the others.

“Um, since we are already here, I don’t mind waiting a while longer,” Elder Daglesh said.

“Yeah!”

“Elder Morrison, you can go if you want. We’ll wait here.”

The others agreed along.

They all knew that Hugh wanted to prioritize the Morrisons as potential partners and the others did not have such special treatment.

If they left, they might not be able to stand a chance, so they could only wait to show how keen they were.

When Leon returned and saw that they were waiting all day, he might consider working with them and they would stand a fighting chance.

“Father, ignore them. If they want to wait here, let them be! Let’s go!” Jayden said mockingly and glanced at the others in contempt.

Hugo already made it clear that Leon could not return any time soon, yet these people insisted on waiting here.

From Jayden's perspective, they were being foolish and he could not possibly act the fool as well.

"You want to leave? Have you lost your mind?" Caleb's face flushed with rage.

Despite what Leon promised, the deal between Cynthion Group and the Morrisons was not sealed yet. If the Morrisons left and Leon returned to find others, he might just pick others to work with.

That would cause the Morrisons to completely lose the chance to work with Cynthion Group and Caleb was not about to do such a thing.

At first, the deal with Cynthion Group was almost theirs. However, with Jayden's interference, Caleb and the other elders plotted to obtain more profit and caused such a dilemma in the end.

He did this to himself and since he already made one mistake, he was not going to repeat the same mistake.
