

## The Ex Husbands Revenge Chapter 2621

The Ex Husbands Revenge Chapter 2621-“We are staying here as well. We aren’t going anywhere!” Caleb scoffed and made up his mind.

“What? No way!” Jayden was shocked.

“Why not? The others are staying as well, so why can’t we?” Caleb asked in displeasure.

“But, Mister Wolf already said that he won’t be back anytime soon. There’s no point for US to wait here. Besides, he is just the vice president and not the chairman. Why should we all wait here for a mere vice president?” Jayden asked reluctantly.

He already learned that Leon was likely in the Peak Almighty state and dared not to look down on him.

If it was Leon himself visiting the western region, he did not mind waiting here.

However, Hugh was merely the vice president.

It was bad enough that they came for nothing, so Jayden could not possibly accept waiting here for someone with such low status.

“You fool! Shut up!” Caleb’s expression darkened and roared at Jayden.

He knew that Hugh was just the vice president and not the chairman. However, it was precisely Leon that he feared.

At the moment, the deal with Cynthion Group was completely under Hugh’s control and all the other families were staying to wait for him to work with Cynthion Group.

Without a choice, Caleb could only wait alongside them.

However, Jayden did not take Hugh seriously and even mocked him in front of the others.

This could put the Morrisons in a difficult situation as Hugh would never agree to work with them if what Jayden said was relayed to him somehow.

“I,” Jayden dared not to argue and quieted down.

“You are such a disappointment!” Caleb’s expression eased, but there was a distinct look of disappointment in his eyes.

Since Jayden’s talent surpassed that of Josiah, Caleb and the elders had high hopes for Jayden.

There were even times when he considered training Jayden to be his successor.

However, after this event, he realized that Jayden was reckless and could not compare with Hugo or Josiah in terms of perceptiveness.

Feeling disappointed, he realized that he might need to reconsider who would take after him.

“What a shame!”

“It would have been great if the Morrisons left.”

Seeing as Caleb and the others intended to stay, they were all slightly disappointed.

They would have preferred that Caleb took Jayden’s advice and left. Once they were gone, the others would stand a better chance of convincing Leon to work with them.

Unfortunately, Caleb was not as foolish as Jayden and did not take his advice.

It was a shame, but there was not much they could do.

As for the contemptuous words Jayden said about Hugh, Caleb stopped him in time so others simply felt that Jayden was a reckless man and did not think much of it.

With that, Caleb and Hugo all stayed and waited for Leon to return.

The Ex Husbands Revenge Chapter 2622-In the parking lot of the hotel, a black car drove in and stopped.

Then, an old man in his sixties along with two middle-aged men stepped out of the car.

They were all martial artists who worked with the Western Boss.

Unlike the situation with the Southern Boss, the western region had abundant rare herbs and martial artists here were generally stronger than ones in the southern region.

The Six Guardians that worked for the Western Boss were all much stronger, with them being in the Almighty state.

Though the old man, Diego, ranked low amongst the six Guardians, he also reached the Initial Almighty state.

The other two men were Milo and Enzo, two of the Semi-Almighty martial artists that the Western Boss trained himself.

After the fight between Felton and Leon, Felton was severely injured and he could not accept it.

Hence, he demanded that the Western Boss send capable martial artists to deal with Leon and steal Cynthion Group from him.

These three men were here to capture Leon under the Western Boss's order.

"Sir, I've already had my men look into it and that Hugh kid is staying in this hotel," Milo said.

"Sure. I don't know what the Western Boss is thinking. Why would he send all three of US to deal with a brat? He's overestimating this kid!" Diego frowned and said in contempt.

Though he did not know the extent of Leon's strength, he already learned from the Western Boss that Leon was just a young man. Considering his age, there was no way that he could be that strong.

Yet, the Western Boss sent a martial artist in the Almighty state and two others in the Semi-Almighty state to deal with Leon.

It seemed excessive.

“Yeah. It’s just a brat. He’s nobody. Sir, you and Enzo don’t have to do anything.

I can deal with him alone!” Milo said contemptuously.

As a martial artist in the Semi-Almighty state, he did not think that Leon had what it took to beat him.

He alone would be enough and the other two could just watch.

“Well, let’s see what happens! In any case, let’s capture him and hand him over to the Western Boss! He told me that this kid is useful to us so we must capture him alive,” Diego spoke with confidence.

“Yes, sir!” Milo and Enzo said.

The three left the parking lot and walked into the hotel, before heading into the elevator to go to the floor where Leon’s room was.

However, as soon as they stepped out of the elevator, they were all stunned by the sight before them.
