Chapter 63

When Wade arrived on the highway, he discovered Allison sobbing and the doors of the car were locked. The situation with Ethan was serious. Allison and Ethan were both taken out by the pack warriors, who smashed their way through the car doors.

They went to the pack hospital hurriedly.

Linus had arrived early and was already waiting outside of the pack hospital. They transported Ethan to the operating room on a stretcher bed.

Allison was instructed by a nurse to apply a dressing to her wound. At that point, she realized that she was also injured. Her hand needed to get bandaged. The shattered spectacles gave her a few scratches on the top of her head which also needed dressing.

"How is he?" She asked the nurse. She was sitting on the bed in another cabin.

"His condition is very critical. But he is a very strong Alpha. So don't worry. He will fight back."

Allison nodded her head and left the cabin after dressing.

When she headed to the operating room, she found Alpha Neil and Luna Ella there. They looked

at her and asked, "Are you okay?"

Allison nodded her head. Luna Ella was crying as she stared at the door.

"How did this happen?" Alpha Neil asked her.

Allison lowered her head. "We were going back to the pack house, but some people attacked the car. Ethan tried his best to drive steadily and let them go first. But they pushed behind the car again and again. Lastly, it almost crashed. Wade came to save us in time."

"Neil, he will be fine, right?"

Alpha Neil patted Luna Ella's shoulder and pulled her to his chest.

"Our son will be okay. He is a fighter."

After some time had passed, Allison's parents arrived. Her mother was already crying. She made sure her daughter was okay and then hugged her.

"Mom, I'm okay."

Her father caressed her hair. "It's a relief that you are fine."

"He saved me, Dad." She mumbled as she still could not forget how Ethan tried to save her.

"I know." Her father said as he looked at the door. She could see the confidence in his eyes. He always liked Ethan, and Ethan again proved to him that he was capable and a deserving Alpha.

Wade was nowhere to be seen. After half an hour, Wade came back with a few men.

"Alpha, I searched everything. But I could not find any traces of Alpha Easton."

"How did you know it was him?"

"I got to know that the East flow pack's men are here. They were after Ethan."

"But Alpha Easton has never come to our pack before. Ethan has nothing to do with his pack either. So what bothered him was that he had to attack the future Alpha of this pack?"

"Who knows? I tried to find his men. But no one can tell who was there. The road is blurry in every CCTV footage of it that I've seen. We are unable to view the license plate numbers either."

"So everything was pre-planned. They observed that he usually went with that road, or they had been waiting to attack for a few days." Beta Glen let out.

Wade nodded at him. "Maybe. What should we do now?"

Beta Glen looked at Alpha Neil to know the answer. This accident had already broken Alpha Nei. It almost took his son's life. He could not think about other things now.

"Let us see what the doctor says. We will take action later."

The operation was taking hours. Everyone sat down on the tools out of the operation room. They were praying in their hearts.

They saw Ryan come there with Max.

When his parents saw him, his mother ran to him and hugged him.

"See what happened to your brother. He is in the operation room, Ryan."

Ryan hugged her back. He comforted her by rubbing her back and then asked,

"How did this happen?"

"He and Allison were coming to the pack house while..." Luna Ella paused and sobbed.

She was totally shattered. She had a deep affection for Ethan. From the time he was a child, he was never apart from her. If anything happened to her, her this son used to run to her and ask her what happened to her. He was now undergoing an operation, fighting between life and death.

Ryan's gaze was drawn to Allison. Her gaze was fixed on the floor.

He frowned when he saw her wounds.

"It was not an accident but an attack." Wade spoke out.

Ryan's eyes turned grim. "Who did this?"

Before Wade could reply, Alpha Neil said,

"You don't know that man. He is a well-known powerful Alpha from another pack. We don't have to mess with him. I will call for a pack meeting and close the border for him and his pack members."

Ryan turned his head towards Wade. "Who did this?"

He repeated his question as if he did not care what his father had said to him.

"Alpha of the East Flow pack, Alpha Easton." Wade replied.

"Easton you said?" He muttered and tightened his fists.

Max glanced at Ryan and grabbed his arm. "I think we had something to do. Let's go."

Alpha Neil frowned at Max. "Where are you taking him? His brother is in such a critical condition."

Ryan looked at him. "He is capable of any deadly situation. You made him your future Alpha for a reason. He will be fine."

Everyone gaped at Ryan when they heard him. They had only seen the two brothers fighting with each other. For the first time, they heard Ryan praising Ethan.

Allison gazed at Ryan. She knew he cared for his brother. He just did not want to show others.

He caught her looking at her. She averted her eyes from him immediately.

"I'm leaving." Ryan declared and turned around.

"Where are you going?" Alpha Neil asked him.

He turned his head slightly and replied,

"A very old friend of mine came to visit this pack. I intend to greet him personally and show him my hospitality."
