

Chapter 5245

When Charlie drove the car to the front of the Academic Affairs Building of the University, Issac was already waiting there.

Seeing Charlie stop the car, he quickly stepped forward to help him open the car door,

And said respectfully: "Master, I have made arrangements for the school."

"Claudia only needs to fill out an application form and submit the materials. Then she can choose a major directly."

Charlie nodded, remembering the banners he saw outside, and asked him:

"Have you heard of Larry Qiu? I think this person sounds familiar."

"Larry Qiu..." Issac said quickly: "Master Qiu, Mr. Qiu is the richest man in Southeast Asia in the true sense."

"It's just that he deliberately split up the family's business a few years ago,"

"So he was dropped from the major rankings. However,"

"The strength of the Qiu family in Southeast Asia is still very strong."

After that, Issac asked: "Did you see them hanging banners at the gate?"

"When I came, they were dismantling them, and I asked about it,"

"And then I realized that it was Larry Qiu who was coming to visit Aurous Hill University "

Charlie suddenly remembered something, and said, "When I was studying at Aurous Hill University,"

“I seemed to have heard of this person. It is said that he donated a lot of money to the University?”

Issac nodded and said, “That’s right, he is an economist.”

“After the opening up, the first batch of overseas Chinese who returned to China for construction,”

“Donated 500 million to Aurous Hill University in the 1990s, which was a huge sum back then.”

“I see.” Charlie tapped lightly. Nodding,

He just thought that maybe the old man was planning to come back to Aurous Hill University, so he didn’t take it too seriously.

At the same time.

A private jet transformed from an Airbus A330 landed smoothly at Aurous Hill Airport.

Maria and Larry were on this plane.

Since Malaysia is also in the East, there is no time difference with Aurous Hill,

So Maria originally planned to fly from Penang to China at eight o’clock this morning.

In this case, she will arrive in Aurous Hill around two o’clock in the afternoon, and there will be no delay in enrolling things.

But after she lay down last night, for some reason,

She tossed and turned in bed, and it was difficult to fall asleep until the early hours of the morning.

She tried to calm down her mind, but no matter what methods she tried,

Her heart always felt flustered, as if there were faint signs of palpitations.

In desperation, she could only comfort herself, telling herself that she would leave for Aurous Hill tomorrow morning,

To the place where Charlie disappeared in the first place, maybe she could really get her wish and meet him in Aurous Hill.

Thinking of this, Maria's heart felt much better,

But instead, there was a sense of urgency that counted every second.

Agitated, she could only ask Larry to prepare for the flight overnight,

And arrive in Aurous Hill several hours ahead of schedule.

In order not to delay the admission process for Maria,

Larry asked someone to greet the principal of the University in advance,

But he did not let his subordinates reveal the purpose of his visit to the University this time,

But only told him that he wanted to go back to the University for a one-time visit.

Naturally, the school attaches great importance to this distinguished guest.

They made banners overnight, and even the principal prepared to greet and accompany him in person.

The other vice principals, as well as several sub-principals,

Immediately suspended their vacation and rushed back to the school to prepare for it.

Issac took Charlie and Claudia into the Academic Affairs Building and came to the Admissions Office.

At this time, the director of the admissions office is already waiting here.

Seeing Issac coming, the director said very politely:

“Oh Mr. Chen, long time no see, you still look so handsome!”

Issac smiled slightly and said, “Director Liu, I will trouble you this time.”
