Novel Chapter 1736 -It must be Analia!

Zachary's face was gloomy, Analia didn't follow, but she didn't give up, and actually sent flowers and clothes to his residence.

Mr. Dawson invited Zachary to dinner today and decided to cooperate. It was impossible for Analia not to know.

She chose to send flowers and clothes over after he left the house. It was intentional, to make Serenity misunderstand him and make trouble with him.

That woman, Analia was too insidious.

"I had a good chat with Mr. Dawson, and the cooperation was finalized. Now that I think about it. Serenity, I have given up on this project."

Mr. Dawson only had one daughter, Analia. It was said that Mr. Dawson had a physical problem. It took a long time to give birth to this daughter, and the couple loved their daughter very much.

Although Mr. Dawson was reasonable, if he didn't bring Analia here today, he would not support Analia in pursuing Zachary, but Zachary didn't want to gamble.

Parents who doted on their children, no matter how sensible they were, would eventually give in, compromise, and stand on the side of their children.

If he cooperated with Dawson's, it would be convenient for Analia to enter and exit York Corporation.

"Husband, this is a big business. Once it's settled, what are you afraid of in cooperating? You can't slap her. As long as you don't have any interest in her, what she does will be futile." Serenity still believes in Zachary.

Of course, Serenity was very upset when a woman stared at her husband.

But she didn't want to affect the cooperation between the two groups because of personal feelings.

Business to business, private to private.

“Husband, if you’re worried that Mr. Dawson will help his daughter in the future, you can add a few clauses to the contract that say Dawson Group will pay for all losses if the cooperation ends because of personal feelings. Husband, I believe you 100 percent. That woman can’t take my husband away, no matter how strong she is. You guys finish this project first, and then you can make money. It’s not a long-term partnership.”

This project with Dawson Group’s could make Zachary personally came forward to talk about it, which showed that the profits brought to the York Corporation were great.

As the wife of the president of the York Corporation, Serenity certainly hoped that the York Corporation could make money.

Serenity felt it was a pity to let go of a good opportunity to make money.

Zachary didn’t speak. After a while, he asked, “Has Sonny’s fever gone?”

“The fever has completely gone. I took him out to play for a while just now, and he was sweating all over. When I came back, I took his temperature, it was thirty-six degrees nine.”

Zachary: “It’s fine. Serenity bring the bouquet and those clothes to the hotel. I’ll give those things to Mr. Dawson and ask him to take them back and return them to Ms. Dawson.”

Except for Analia, Zachary didn’t expect it to be who gave it to him.

“Don’t you want to investigate first? Have someone investigate to make sure it was sent by Ms. Dawson, and then ask Mr. Dawson to take it back. What if there are other admirers besides Ms. Dawson?”

Zachary: “... ..I really didn’t attract the bees and attract the butterflies.”

“I know you didn’t attract the bees and the butterflies, it was because they smelled your scent.”

Zachary’s face turned dark.

Zachary: “I’ll ask Josh to check it out for me. You first bring the garbage over and put it in the bodyguard car. Don’t touch it, so as not to dirty your hands. Wait until Josh gives me an answer, and then ask Mr. Dawson to take the things back.”

“Okay.” Serenity agreed to him, and would help him send those things to Wiltspoon Hotel later.
