

Read I Am A Quadrillionaire Chapter 1891

I am a quadrillionaire chapter 1891-After David and Tai, the True Saints, left to fight in the void, Cosmo left too.

As David's clone was about to chase after him, Cedar yelled from behind him, "David... Two! Don't go yet. Cosmo is a sly and devious rat. He will surely set a trap for you! With your... Um... You can't handle him alone. So, you better wait until David comes back."

To him, David Two, with his low intelligence, would be deceived by Cosmo.

When the strength between the two sides was almost similar, one would often need to rely on other means to decide the outcome.

Obviously, David Two was not strong enough to crush Cosmo.

Therefore, the outcome of this battle would be hard to predict.

Cedar figured that even if David Two was slightly stronger than Cosmo, the possibility of him being killed on the counter was very high.

He wondered, 'How did someone like David Two become a True Saint?

'There are too many secrets hidden in this David person.'

"Thank you for the reminder! But... it's too early to tell who's

the one setting the trap for whom." David's clone turned his head and showed a reassuring smile. Then, he sped off in the direction in which Cosmo had left, i

Along the way, his God of Thunder Hammer emitted a strong electric current.

David's clone seemed to have transformed into a flash of lightning and he disappeared in the blink of an eye.

A stunned crowd was left speechless on the ground.

Cedar's original idea was if David Two refused to listen to his advice and insisted on chasing Cosmo, then he would follow after him.

He was worried that Cosmo would succeed.

However, after hearing what David Two said and seeing his smile, Cedar had a change of heart.

He did not chase after David Two in the end.

This kid did not have a worrying IQ, he was clearly playing dumb to take advantage of Cosmo.

After thinking about it, Cedar felt that this made sense.

How could an idiot become a True Saint?

Cedar did not expect David to be a True Saint.

This was already shocking and incredible enough.

Now that there was another David. Not only did he look the same as David, but he was also a True Saint.

Cedar was very confused.

Not only him, but other people from the Fellowes family, including the audience below, were itching to find out the truth.

“Alba, you have the most interaction with David and you have known him the longest. Didn’t you know he has a brother that looked exactly like him?” Cedar turned to Alba and asked.

“Grandmaster, I’ve never seen his brother and I’ve never heard him talk about him. But...”

Alba stopped.

She did not know if she should voice her opinion.

Since she cared about David too much, she could not accept the existence of someone who looked the same and had the same strength as David.

Ever since David Two showed up, she had been paying attention to him.

In the end, Alba noticed the difference between the two.

David Two and David were the same.

There were even no changes when it came to some of the special characteristics of their bodies.

This was strange.

One had to know that even twins were separate entities after they left their mother’s womb. As more time passed, the difference between them would grow.

Therefore, it was impossible for them to remain the same even after hundreds or thousands of years.

Read I Am A Quadrillionaire Chapter 1892

I am a quadrillionaire chapter 1892-With that, an idea popped up in Alba's mind.

'Could it be that David Two is actually David?'

As for why there were two Davids, Alba had no clue.

"But what?"

"I have a feeling."

"What is it?"

"Grandmaster, I think David Two is the same person as Master David," Alba voiced what was in her heart.

'The same person?'

Cedar said silently in his heart.

Then he asked, "You think they are the same person, but what evidence do you have?"

"I have had more contact with Master David and we have been together for a long time. During this period, I discovered some special characteristics about Master David's body. I just observed David Two and saw that he also has them. These two people are exactly the same even down to these unique physical traits. It's like I'm looking in the mirror," Alba explained.

'Exactly the same?'

'Even certain unique characteristics on their bodies are exactly the same?'

Cedar was in deep thought.

There were two Davids, and this had never happened in Star Kingdom before. 1

However, even if it never happened before did not mean it did not exist.

For example, there had never been a young True Saint like David in Star Kingdom, but he still existed.

If he could create one miracle, why couldn't he create a second or even a third?

As a True Saint, Cedar had more experience and could accept new things better than ordinary people.

Hence, he quickly figured out the key to this matter.

He also temporarily accepted Alba's statement.

As for the truth, he would have to ask David to find out.

"Don't spread this. No matter what the truth is, David must have his reasons for doing this. We just need to keep it a secret for him," Cedar said solemnly.

"Yes, Grandmaster, we understand!"

Alba, Roald, and Valerio replied at the same time.

At this moment, there was a loud noise in the sky.

Cedar and everyone looked up at the sky.

Then, there was movement from the other side, accompanied by thunder and lightning. They must have come from David Two's Hammer of Thunder.

Both sides were fighting. i

Since the void was too far away, no one could see what was going on except Cedar the True Saint.

Even so, Cedar could only get a rough idea of the fight with the help of his mind power.

"Grandmaster, is Master David in danger?" Alba blurted out.

"Don't worry! David is very strong and he's not weaker than Tai at all. With the help of that long red sword, he can still gain a certain upper hand. Heroes come from the youth indeed," Cedar exclaimed.

Thanks to the long red sword, David was able to take advantage of the sneak attack on Tai just now.

The fact that he was in full-frontal combat but could still gain the upper hand was proof of his actual strength.

Upon hearing this, Alba felt a sense of pride while simultaneously feeling relaxed.

This was the man that she, Alba, was looking for.

David was countless times stronger than the Star Kingdom Six.

The onlookers on the ground were all waiting eagerly.

They really wanted to go to the void and see this once-every- million-year True Saint battle with their own eyes. However, they were scared.

The four True Saints could still restrain themselves here to avoid hurting the innocent.

When they were in the void, they surely would not hold back.

Hence, if one got close and were caught in the crossfire, they would not even know how they died.

The battle of True Saints was certainly exciting, and everyone wanted to see it.

However, their lives were more important.

Thinking of the possibility of losing their lives for this, everyone gave up the idea of going to the void to watch and quietly waited for the result.

Read I Am A Quadrillionaire Chapter 1893

I am a quadrillionaire chapter 1893-Anders in the distance also raised his head. As he stared blankly at the sky, his eyes were full of confusion.

At this moment, he no longer had the arrogance and pride of one of the Star Kingdom Six and the first-in-line heir of the Palmore family.

In the past, he was full of confidence, and he would make others feel like he was looking down on the world while showing off his abilities.

It was as if he was second only to God.

Anders' life was one of complete decadence.

His self-confidence and arrogance were shattered the moment David revealed that he was a True Saint.

Everything he was once proud of was nothing in front of David.

Anders also thought about regaining his confidence and catching up with David, hoping to overtake him one day and trample him under his feet.

However, he knew this was impossible.

It was also unrealistic.

The gap between the two sides was too great.

One was a partial Saint while the other one was a Saint Realm True Saint.

The gap between the two was like heaven and earth.

No matter how high the mountain on the ground was, it still could never touch the sky.

Anders felt that there was no hope, and he also gave up.

He did not know where his next path was.

Maybe he would live in David's shadow for the rest of his life without making any progress.

When someone has had high self-esteem since childhood, a lot of them would be devastated the moment their selfconfidence was completely shattered, and there would be no possibility of them making a comeback.

This was unless they could overcome their demons. Only then could they regain their confidence.

However, it was not so easy to overcome inner demons.

Like Anders right now.

There was only one way to overcome his demons, and that was to watch David die in front of him.

However, it would not be easy for a partial Saint to watch a True Saint die.

Now, there was only one possibility.

He needed the Palmore family's Sacred Saint beat David half to death and throw him in front of Anders. Then, Anders could deal David the final blow.

Anders could then regain his confidence after getting rid of his inner demons like this. Perhaps, he might even achieve something higher in the future.

The sound of battle in the sky could still be heard.

Everyone was waiting for the result, so no one left.

Not long after, a voice came from afar.

“Affiliates of the Lightfoot family, retreat!”

This voice meant the battle between David Two and Cosmo was over.

Cosmo was likely to have been defeated.

Soon, a bolt of lightning flashed across the sky and David Two was back with the God of Thunder Hammer.

Although he looked a bit battered on the outside at this time, he was not injured, and his mental state was very good.

He could even go for another round.

The arrival of David’s clone immediately blew up the audience.

The discussion sounded again.

“Even Master David’s younger brother, Master David Two, is so awesome. If he can defeat the True Saint grandmaster of the Lightfoot family, wouldn’t Master David be even stronger?”

“Right? Master David will definitely win.”

“That’s not necessarily true! Master David is indeed powerful, but after all, he is still young and lacks combat experience. The Palmore family’s grandmaster became famous a hundred thousand years ago. This is a collision between the old and new generations. So we have to wait for the results to come out to find out who will win and who will lose.”

“The rise of Master David represents the advent of a new era of Star Kingdom. It is time for the older generation to withdraw from the spotlight and leave the opportunity to the young. I support Master David.”

“I also support Master David. Master David must win!”

“I support the Palmore family’s grandmaster! How can a young man compare to a person who has lived for hundreds of thousands of years?”

“In that case, how about we make a bet?”

“Okay! What are you betting?”

“All my net worth, 30 million Star Dollars. Do you dare?”

“Alright, I’m not scared of you!”

“I am raising 10 million for Master David to win!”

“I will raise it to 50 million for the Palmore family’s grandmaster to win!”

More and more people began participating.
