

Read I Am A Quadrillionaire Chapter 1915

I am a quadrillionaire chapter 1915-Boom boom boom!

The battle in the void continued.

The people on the Simmons Continent only felt the pressure getting heavier and heavier, making it difficult for them to breathe.

The red and white colors in the sky had long been intertwined. They seemed to be evenly matched.

If the mainland did not have a protective layer that could withstand most of the shockwaves of the battle, their fate would be no better than the cores of the Simmons family.

The reason the cores of the Simmons family died so easily was that they already rushed out of the protective layer of the continent and went to the edge of the void.

There was no protective layer to resist most of the attacks there. Almost no one under Saint Realm could face the shockwaves from the two late True Saints.

In Star Kingdom, every continent and every planet had a protective layer. It was not man-made but produced by the continents and planets themselves as a means of self-defense.

These protective layers could resist various natural disasters in the void, allowing its inhabitants to survive.

The bigger the planet, the stronger the defense.

The thing stronger than the protective layer of the planet was the protective layer of the continent.

Because of this, the continents in Star Kingdom were almost always occupied by major forces.

Not only because the resources on the continent were more abundant, but also because the protective layer of the continent was very strong, so it would be safer to live on it.

If there was no protective layer above a continent or a planet, it would mean that it had reached the brink of destruction.

Any common natural disaster in the void could destroy everything on an unprotected continent or planet.

The two exchanged hundreds of blows, but none of them caused any damage to the other.

Sahar became more and more frightened.

'Where did this kid come from?'

Although he had been in seclusion to recuperate from his injuries, he would occasionally come out to learn about the structure of Star Kingdom.

He had never heard of David.

A late True Saint's combat power could be regarded as the top in the entire Star Kingdom.

So why had David never showed up before?

Plus, that red long sword could cause damage to his executioner's sword.

Hence, it must be the best among the first-rate Soulbound Weapons.

Sahar also felt troubled facing such an opponent.

He knew that if he did not come up with some tricks, he would suffer.

The longer the time dragged on, the worse it would be for him.

After all, the opponent was young, and his combat power was at its peak.

Furthermore, Sahar was still injured.

After making up his mind, Sahar began to secretly accumulate strength, preparing to use one of his trump cards and win with one single blow.

Using a trump card would place a certain burden on his body.

He could withstand it when he was not injured, but now that he was still injured, it would only worsen his condition.

This was why Sahar had been reluctant to use it for so long.

Now, he had no choice but to use it.

David's combat power far exceeded his imagination.

Ordinary attacks could not hurt him at all.

“David, you asked for this. Today I will tell you what it means when they say there is always someone better than you. In the future, you should keep a low profile.”

After Sahar finished speaking, he secretly finished accumulating energy.

He held his executioner’s sword and waved it with all his might.

A shocking white glow far surpassing the past appeared, illuminating the entire void. Then, the sword light instantly crossed the endless void and approached David.

David was also taken aback.

He did not expect the opponent’s attack to suddenly become so fast.

It was too late to use the Evil-Splitting Sword Technique now.

He could only quickly put the Evil-Splitting Sword in front of him. If the Eternal Golden Body was damaged, David would also be hurt.

The white sword light collided with the Evil-Splitting Sword.

The tremendous force made David’s arms go numb, and at the same time, it forced him to step back quickly.

After a moment, David stopped backing away.

He managed to resist Sahar’s shocking blow.

David shook his numb and swollen arm.

These old monsters that had lived for hundreds of thousands of years were indeed powerful.

If he was not holding the Evil-Splitting Sword in his hand when he received the blow, his Eternal Golden Body might not be able to resist.

If his Eternal Golden Body was damaged, he would also be hurt.
