

A Man Like None Other Novel

Chapter 2881

Under the ice and snow cover, countless corpses were submerged. This should be the people who entered the canyon that Wa Gang said. These people did not go out, and all of them turned into bones in this death canyon!

After David explored the canyon with his spiritual sense, he seemed to have thought of something, so he led everyone back from the canyon entrance!

"David, aren't you going to get the ice soul fragment?"

Liu Ruyan asked in puzzlement when she saw that David had retreated from the Taniguchi!

"Of course I have to take it, but I have to attract some of the monsters in the canyon first. The fewer monsters in the canyon, the higher the chance of getting the ice soul fragments."

David said, his hands began to pinch the formula, and a formation slowly appeared in the void, and finally fell directly on the snow!

This formation looks extremely complicated, and the graphics it depicts are all kinds of strange things!

But looking at the complexity of this formation, you can tell that this must be an advanced formation!

"Mr. Chen, are you planning to use this formation to trap those monsters?"

Wa Gang asked puzzled!

Although this formation is huge, it is almost impossible to trap hundreds of monsters!

"This formation is not used to trap monsters, but to attract monsters."

After David finished speaking, he tapped his finger lightly, and a golden light instantly disappeared into the formation, and the formation began to emit light. Then a thick aura floated into the canyon!

Afterwards, David cast his spell again, imprinting spells on Waguan and Liu Ruyan and the others!

"A large number of monsters will definitely be attracted in a while, you just need to stand in the formation and kill those monsters, but remember, don't get out of this formation!

" Back, you have marks on your body, and the formation will move with you, attracting those monsters."

"When the monsters are attracted far enough, I will enter the canyon to get the ice soul fragments." "

Three Heroes of the Phantom Thieves will follow me into the canyon. When the time comes, you brothers will use your space shuttle skills to get the ice soul fragments as soon as possible." Soul fragments will do."

David arranged everything carefully!

David knew that after he entered the canyon, he would definitely not be able to avoid fighting, and the ice bear monster at the peak of the fit state would target him immediately!

What David needs is to attract the attention of those monsters, and then use the space shuttle technique of the Three Heroes of the Phantom Thieves to quickly approach the fragments of the ice soul and escape immediately!

Speaking of which, Liu Ruyan and Waguan attracted some monsters, David entered the canyon and was attracting some monsters, and the ones who really took the ice soul fragments were the three masters of the phantom thieves, after all, stealing is their forte!

Hearing this, the three heroes of the strange thief hurriedly said, "Mr. Chen, don't worry, stealing is my brother's strong point, and no one can compare to us!"

David smiled and nodded. The three masters are here, and the space shuttle skills of the three of them can be unexpected!

"Ruyan, Waguan, you two should pay attention to safety, you just need to lure the monsters away, the farther the better, with the protection of the formation, those monsters should not be able to hurt you.

" The attracted monsters are all relatively weak, so don't be nervous."

David comforted Liu Ruyan and Waguan!

The two nodded, and then Liu Ruyan looked at David and said, "David, you have to be careful. If you really can't get it, then we won't take it. Life is the most important thing, I can't live without you..." Liu

Ruyan Her smokey eyes were full of worries, she couldn't do without David now, especially at night...

"Don't worry, I'll be fine!"

David smiled slightly!

But just as David finished speaking, the earth began to tremble with roars, and countless monsters began to rush out from the canyon!

These monsters came straight to the formation. In the eyes of these monsters, this formation is like a treasure, which can give them the resources to practice!

Chapter 2882

David glanced at the Three Heroes of the Phantom Thieves, and the three understood, jumped up and hid themselves!

And Liu Ruyan and Waguan held weapons, stood in the formation, and watched countless monsters rushing, feeling extremely nervous!

"Kill..."

Just as the monster approached in front of him, Liu Ruyan yelled loudly, and then he waved a strong wind with his palms. Countless wind blades were wrapped in the strong wind, and the monster rushing in front was instantly thrown away. Kill all the beasts! ❖m.* *lins☆hu*ge.com

Wagang also made a move at this time, his fists swung forward suddenly, and two fist winds visible to the naked eye whizzed out, like two shells, hitting hard. On the bodies of those monsters, two monsters were directly sent flying!

Although the strength of these monsters is not high, there are a lot of them. Even if Liu Ruyan and Wa Gu kill several heads in an instant, it is just a drizzle for a huge number of monsters!

These monsters are still roaring and rushing forward!

"Go..."

Liu Ruyan said something, jumped up and fled to the distance!

Wagang also followed up immediately, and around them, with the movement of the two people, the spells printed on them began to emit light, and the formation followed the two of them, moving together!

Those monsters were chasing closely behind, and the calm canyon, like a flood, kept gushing out!

David, who was hiding, and the three heroes of the strange thief, watched the monsters pouring out of the canyon, and felt their scalps tingling!

After more than ten minutes, the monsters in the canyon gradually became rare, and finally no monsters came out of the canyon anymore!

Seeing this scene, David knew that the opportunity had come, so he took the three heroes of the strange thieves directly into the canyon!

At this moment, the canyon is extremely quiet, as if all the monsters have left!

But David knew that there must be monsters in this canyon, and they were all powerful monsters!

"You three, be careful, take the Ice Soul fragments in relay, remember, once you get them, run out immediately, don't care about anyone!"

David said to the Three Heroes of the Phantom Thieves!

The three of them nodded, and then their bodies gradually became transparent, and they began to hide themselves!

David took out the dragon-slaying sword, activated the indestructible golden body, the power of the three clans in his body, and the dragon crystal all shone with light!

David knew that he must not be careless this time, or he might be buried here!

Just as David and the others continued to go deeper into the canyon, there was a roar, and then the ice bear monster at the peak of the fit state roared and came towards David!

And behind this ice bear monster, there are hundreds of monsters following, each of these monsters has a strong aura, and at least has the strength of the fifth rank of the Composite Realm!

Facing so many powerful monsters, David's scalp instantly went numb!

But things have come to this, David will not give up easily!

"Burning..."

David pointed his fingers at the dragon-slaying sword, and a flame began to burn on the dragon-slaying sword!

David knew that these monsters were generally afraid of flames, and the fire in his hand was the best way to suppress them.

Sure enough, seeing the blazing Dragon Slaying Sword in David's hand, the Ice Bear Monster's eyes revealed a touch of panic!

It seemed to feel the power of the fire on David's dragon-slaying sword!

However, the Ice Bear Monster did not retreat, but roared, and the canyon was shaken, and ice cones fell from the sky, smashing towards David one after another!

Just when these ice cones were hitting David, the Ice Bear Monster commanded hundreds of monsters, and rushed towards David together!

And the ice bear monster was sitting in the back to command, as if he wanted to see David's strength!

David looked at the ice cones that kept falling above his head, swung the Dragon Slaying Sword upwards, and a blazing flame flew all over the sky.

When those ice cones touched the fire, they were instantly melted and evaporated.
