

A Man Like None Other Novel

Chapter 2826

After David heard this rule, he finally understood why this pharmacist would be the lowest grade pharmacist in the competition!

With the sound of a bell, nearly a hundred pharmacists in the arena began to refine the elixir!

The medicinal materials and pill furnace are exactly the same, which means that everyone is on the same starting line!

The speed of refining pills also depends on their alchemy skills!

Soon, one after another flames rose into the sky, and the strong medicinal fragrance spread to the surroundings!

Meng He was not in a hurry, but kept observing David's movements!

After all, if you can enter the top 20, you can advance, and you don't have to be the first.

Meng He observed David, he wanted to see if David's alchemy was affected after being poisoned!

David also found out that Meng He had been secretly observing him, so he unhurriedly threw the medicinal materials into the alchemy furnace and began to refine them!

When David was refining, he deliberately pretended to be struggling, his forehead was covered with cold sweat!

Meng He sneered when he saw this scene!

He knew that his poison had exploded, and David's sea of consciousness was damaged. Now even refining the third-grade high-grade elixir is difficult, and he will definitely be eliminated in the subsequent assessment!

Maybe this first assessment can eliminate David!

After more than twenty minutes!

Boom!

Accompanied by a muffled sound, the medicinal fragrance overflowed, and someone had already finished refining the elixir!

Immediately afterwards, there were continuous noises, and the refining of the elixir was completed!

Meng He no longer intentionally painted the ink, but speeded up the speed of alchemy, and quickly refined the third-grade high-quality elixir!

When he looked at David, he found that David had not successfully refined it, which made Meng He very excited!

Soon, the alchemy furnace in front of David also made a bang, and a third-grade high-quality elixir flew out of the alchemy furnace!

And David succeeded in refining the elixir, which happened to be the twentieth place. If it was a little later, he might be eliminated in the first round!

After everyone finished refining, the top 20 refined pills were selected and sent to the referee's seat!

Although the refining speed is fast, it must be completed with quality and quantity guaranteed. If the refined product is a semi-finished product, it needs to be voided and the ranking will be postponed!

However, several referees ruled that all the pills refined by the top 20 were qualified. After all, they were only third-grade top-grade pills, so it was not difficult for these pharmacists!

If the refining fails in the first level, then there is no need to compare later!

“What’s going on with David today? It took so long for the third-grade top-grade pill? It was almost eliminated.”

Liu Ruyan looked at David’s effort to refine the third-grade top-grade pill, and couldn’t help but wondered. !

“I feel that there is something wrong with Mr. Chen. It stands to reason that Mr. Chen shouldn’t take so long to refine the third-grade high-grade elixir?”
The

third elder was also full of doubts!

“Could it be because Mr. Chen is too tired?”

Yihe remembered the time when David’s face was not very good yesterday!

Hearing Yihe’s words, Liu Ruyan blushed unexpectedly. She thought that what Yihe said about David being too tired was because of being lingering with her at night!

The third elder looked at Liu Ruyan who was blushing, and just smiled, but didn’t say anything!

Yihe also felt that he seemed to have said the wrong thing, and he also seemed a little embarrassed!

"The top 20 have been selected, and the others can leave..."

The old referee stood up and said loudly!

Many people were so frustrated that they had no choice but to leave the ring, and soon there were only 20 people left in the crowded ring!

"Next, we will conduct the second competition. This time we need to refine the fifth-grade first-class elixir. The more perfect the fifth-rank first-class elixir is, the easier it is for whoever refines the fifth-rank first-class elixir to succeed!"

"This

time We will select the top five contestants to stay, and the furnace will still be the same, and the medicinal materials will still be the same!"

After announcing the rules, the twenty pharmacists started the competition again!

Chapter 2827

With the time of a stick of incense, with the current abilities of these pharmacists, there is no way to refine a perfect fifth-grade high-quality elixir, but the closer to perfection, the easier it is for anyone to win!

So these people tried their best to start alchemy. Meng He didn't dare to be careless this time, and started alchemy with all his concentration, but he would sneak a glance at David from time to time!

However, David ignored Meng He and concentrated on practicing the pill.

Not all pharmacists can refine fifth-grade high-grade elixir, so there will be explosions from the furnace from time to time!

The time for a stick of incense passed quickly, and everyone took out the elixir they had refined!

Because someone failed to fry the furnace halfway, only ten top-grade fifth-grade pills were sent to the referee's seat this time!

It's just that they are all semi-finished products, and none of them are finished by refining!

Seeing this scene, Meng He raised a smug smile at the corner of his mouth!

During the assessment, David used the incense burner to concoct a perfect fifth-grade top-grade elixir within a stick of incense, but now he can't concoct it. It is obvious that his own poison has played a role!

When the ten fifth-grade high-grade pills were delivered to the referee's seat, Suo Xingyue and the others picked up the pills and began to hold their breaths, investigating the refining situation of each pill!

But just as she was concentrating, Suo Xingyue felt her head in a trance for a while. She couldn't detect the breath inside the pill, so she couldn't tell which pill was refined more perfectly!

"Master, are you alright?" Seeing this, Zhuzhu asked Suo Xingyue with concern!

"It's okay, just a little dizzy!"

Suo Xingyue said, picked up the elixir, and started to check carefully again!

This time the referee took a lot of time to judge, but fortunately, the closest to perfect medicine was selected!

Among them are Meng He and David!

The old referee in the middle seemed to have noticed the changes in Suo Xingyue and the others, so he asked, "A few elders? Are you feeling unwell? Do you want to suspend the competition?" "No, it's the last round

. It may be a little tired, it's fine."

Suo Xingyue hurriedly followed the old man and said!

"Okay then, let's start the next level of competition, but the next level of competition is the most mental test, you can take a break between the competitions!" After the old man finished speaking, he announced the start of the

third level of competition!

The third test is to refine the Concentration Pill, although this Concentration Pill is just an ordinary fifth-grade elixir!

However, refining the Concentration Pill requires a vast amount of spiritual power. Only the stronger the mental power, the more perfect the refined Concentration Pill will be!

If Meng He wanted to win, it depended on this last level, so he would drug David to damage David's sea of consciousness. At that time, David might not even be able to refine the Concentration Pill. Refined, refined with the damaged Sea of Consciousness, there must be flaws in the Concentration Pill!

The remaining five pharmacists stood in a row one by one and removed the pill furnace, and then all five of them erupted with the power of their spiritual consciousness, and then began to condense the power of their spiritual consciousness!

In mid-air, five shining Concentration Pills appeared, while the five pharmacists continued to emit their consciousness, wrapping the Concentration Pill they refined, and using the Concentration Pill to continuously absorb the power of their consciousness!

Meng He was by David's side. When Meng He was refining the Concentration Pill with confidence, he suddenly discovered that David, who was beside him, also burst out with terrifying power of consciousness!

The Concentration Pill refined by David began to expand continuously, and the light became more and more intense!

"This..."

Seeing this, Meng He frowned involuntarily. He couldn't figure out how David, whose sea of consciousness was damaged, could exude such a huge consciousness?

Chapter 2828

Seeing David's Concentration Pill becoming more and more radiant, Meng He panicked completely!

He tried his best to radiate his consciousness and let his Concentration Pill absorb the power of his consciousness, but even if he tried his best, the speed of the Concentration Pill still couldn't catch up with David!

Meng He's eyes suddenly became sharp, and he saw his fingers twitching, and a vague aura spread towards the surroundings!

David was the closest to Meng He, and immediately noticed this aura!

In this breath, there is actually a suction force, which continuously begins to absorb the power of David's spiritual consciousness!

David smiled coldly, a golden light flashed in the sea of consciousness instantly, and Meng He's aura disappeared instantly like a mouse seeing a cat!

Although David was not afraid of Meng He's trick, other pharmacists were not so lucky!

I saw the faces of the other pharmacists becoming panicked. They could sense that the power of their consciousness was constantly losing, but they couldn't stop it at all!

After absorbing the power of other people's consciousness, Meng He's Concentration Pill also began to shine brightly!

Bang bang bang...

Suddenly, the other three pharmacists among the five pharmacists, all the Concentration Pills in front of them burst, and a large amount of their spiritual consciousness dissipated instantly!

Only David and Meng He's Concentration Pills were shining!

With the end of time, both David and Meng He held the Concentration Pills they refined in their hands!

Judging from the appearance and luster alone, the two are evenly matched, and can only be compared through the power of divine consciousness condensed by the Concentration Pill!

"Even if you use despicable means, it's impossible to win..."

David looked at Meng He and said!

"Really, let's wait and see..."

Meng He smiled coldly!

Although he didn't know why David's power of consciousness was still so strong when his sea of consciousness was damaged, but luckily he still has a backup!

Now several elder referees of Danyang Gate have been poisoned, and they will soon lose their minds and become blurred!

At that time, Zhuzhu will use her own convenience to judge Meng He's Concentration Pill to win. This is Meng He's backhand!

The two Concentration Pills were sent to the referee's seat, and several referees began to judge the fineness of the two Concentration Pills.

Suo Xingyue looked at the two Concentration Pills in front of her, and a huge mental force enveloped the two Concentration Pills!

But at this moment, Suo Xingyue's body shook suddenly, and her whole head became dizzy! Seeing this, Zhuzhu hurriedly stepped forward to support Suo Xingyue and said, "Master, which of these two

concentration pills is stronger?"

Concentrating on the height of the pill!

However, she still slowly raised her hand. Seeing this, Zhu Zhu quickly supported Suo Xingyue's hand and pointed at Meng He's Concentration Pill!

Then someone recorded it, and then handed it over to other referees for judgment!

Zhu Zhu stood behind a few masters and did the same thing, so that the elders of the Danyang Gate all chose Meng He's Concentration Pill to win!

After doing all this, Zhuzhu secretly winked at Meng He!

Seeing this, Meng He laughed knowingly!

However, the moment Zhuzhu and Meng He made eye contact was captured by David!

Seeing the exchange of eyes between the two, David frowned slightly, knowing that there must be something ulterior about the two of them!

In the end, the old referee looked at the Concentration Pill in front of him, and after covering it with his own mental power, he was instantly stunned!

In David's Concentration Pill, even he has never felt the vast power of consciousness!

Although the appearance and luster of Meng He's Concentration Pill looks similar to David's, it really has to be compared with the power of divine consciousness contained in it!

Meng He's Concentration Pill is rubbish, it can't be compared with David's at all!
