Married at First Sight Chapter 2041—"Kathryn, get out quickly, don't affect Mom's mood here, and see how angry you are with Mom, get out quickly." Shiloh acted as a good person and persuaded Kathryn to go out.

She even went forward, pushing and pulling Kathryn, telling Kathryn to go out quickly.

Kathryn didn't explain anymore, nor resisted, she let Shiloh push her out.

After Shiloh pushed Kathryn out of the office, she slammed the door of the office.

Shiloh's heart blossomed with joy.

It turned out that the small businesses and subsidiaries that her mother had entrusted to Kathryn to take care of were done so well that they seemed to be under Kathryn's complete control, but in fact they relied on the help of others and took the credit from her brothers.

In this way, she was relieved.

As long as Kathryn couldn't satisfy her mother, it didn't matter if she is her mother's biological daughter, she still couldn't take the position of matriarch.

Maybe, her mother still handed over the position of matriarch to Shiloh, after all, she was trained by matriarch since she was a child.

Although Shiloh was not as powerful as her mother, she was much better than Kathryn, a country bumpkin.

Shiloh turned around and walked back, and said as she walked: "Mom, don't worry, Kathryn has only come into contact with business matters, it's normal for her not to be familiar with them, after all, she used to farm at home, at most Working in a small factory and earning three to five thousand dollars a month, I have never been in contact with big business."

Matriarch Farrell said: "The daughter of our Farrell family has always been stronger than the man. Why did it happen to my daughter, but she is like a ball of mud, unable to support the wall, and no matter how understanding, she has been in the company for a year, and she is more or less the same. she needs to understand a little bit."

Shiloh: "As for her, she knows how to take credit from others and create a false impression for me, making me think that she is very capable and capable."

“Mom, give Kathryn a little more time, don’t scold her all the time, she can’t even raise her head.” Shiloh persuaded her with hypocrisy. She hurriedly poured a glass of warm water for Matriarch Farrell, “Mom, drink a glass of water.”

Matriarch Farrell took the glass of water that Shiloh poured, looked up at Shiloh for a moment, then sighed and said: “Shiloh, if you were mother’s biological daughter, mother wouldn’t have to worry about having no successors like now.”

Shiloh: “Mom, I’m your daughter, but not your biological child. In fact, Mom, you’re the head of the family. In this family, you’re the leader. Mom, you have the final say on who is in the top position.”

Shiloh wanted to become the successor of the Farrell family again. “Mom, at least you want me to compete fairly with Kathryn. My surname is still Farrell. Even if I take over the Farrell Group, I’m not serving the Farrell family.”

Matriarch Farrell sighed, “Mom can’t help it. Mom can talk about many things, but when it comes to successors, Mom really can’t talk about it. Your makeup hasn’t been done yet, go and fix it quickly, your sister-in-law will be here soon.”

“Alright.” Shiloh obediently responded.

Nor did she pester her mother to let her support her again.

As long as Kathryn couldn’t stand up, her mother would not let Kathryn take over.

Shiloh was coaxing her adoptive mother in the office. After being pushed out of the office by Shiloh, Kathryn immediately suppressed her cowardly expression and walked into the elevator with the documents that had already been approved and signed by her mother.

Her mother scolded her from the very beginning, which really caught Kathryn a little off guard, and she didn’t realize it until Shiloh appeared.

In terms of acting skills, her mother ranked second, and no one dared to rank first.

Of course, her mother’s acting like that also made many people have ambitions that they shouldn’t have.

Her mother told her that if she wanted to succeed in succeeding, she had to fight her way out and get rid of those who had wolfish ambitions, even her own brothers and sisters-in-law.

The old employees in the company were very happy for Kathryn to take over.

Because they felt that Kathryn was not capable, and if Kathryn took over the Farrell Group, they could easily handle Kathryn.
