Married at First Sight Chapter 2179-Liberty smiled and accepted Grandma's words: "Grandma, once you are old, you should stop flying around and stay at home so that juniors can see you often and feel more at ease. It is said that there is an old woman in every family. If you have a treasure, you are the treasure of all of us."

Grandma May smiled: "Even if you drive me away now, I won't leave. I will just stay at home and take care of Serenity's basic necessities. I'm afraid that my oldest grandson won't understand anything."

Zachary blushed, and said: "Grandma, I have no experience now, but I will learn. I will go to the bookstore to buy a few more books later, and read slowly. People say that the first-born photos book support."

The second child is raised as a pig.

He and Serenity finally had their first child together, so they didn't think about the second child.

He hoped that Serenity would have a good life like Jane, that she would give birth to twin babies and have both children, so that his wife would only have to bear the pain of pregnancy once.

He just didn't know if the couple had that good fortune.

"Sister, you chat with grandma, I'm going to prepare breakfast, you bought us so many ingredients, I will make more styles, Seren has a good appetite, and will be hungry again soon after eating. We have been eating for a long time I don't live here, and I don't have any snacks at home, I'll go to the supermarket to buy some favorite snacks and come back."

Zachary went back to the kitchen while talking, and yelled inside: "Grandma, I'll tell my younger brother Callum that I won't be going back to work today. If he needs to talk to me about something important, he can call me or take care of it himself."

Usually he didn't go back to the company, and Josh supported him.

But now Josh put his wife first, commuted to and from get off work on time every day, and was unwilling to work overtime.

Zachary could only enslave his younger brother Callum.

Grandma May said: “The husband and wife ran too fast. I knew that Callum went to FC Manor. He is not in Wiltspoon. Dr. Carden promised Callum. This time, she will come with Callum to treat Camryn’s eye disease.”

Grandma May went on to say: “It’s really time for me to come back. Not only the oldest granddaughter-in-law is happy, but the second granddaughter-in-law’s eyes can also be healed. The baby in Seren’s belly is a lucky star.

Zack, you don’t have to worry about the company’s affairs. You stay with Seren these two days, and let the younger ones experience it. After practicing in your own company, you will have the confidence to fly solo in the future.”

Grandma May thought that it was enough for the family business to be succeeded by someone, and she would not insist that all her grandchildren work in the family business.

If they wanted to fly solo, she would also strongly support them.

Serenity originally wanted to lie down for a while, but when she heard the voices of Grandma and her own sister, she stopped falling asleep.

She left the room after getting up, washing her hands and changing her clothes.

“grandma.” Serenity came out and called her first.

She asked her sister again: “Sister, how do you know we are here?”

“Seren, come here, let grandma see you, grandma misses you.”

When Grandma May saw her favorite granddaughter-in-law, she immediately smiled and beckoned Serenity to pass.

Serenity smiled as she walked towards Grandma May: “Grandma, you just said that you miss me, and you ran far away by yourself, and you didn’t come back for such a long time. I’m just busy with work, otherwise I would fly around with you, grandma.”

Grandma May and Serenity separated before the summer vacation.

It’s almost October now.

Well, they hadn't seen each other for a month.

Serenity also missed Grandma May.

With Grandma May around, Serenity always felt that if the sky falls, she don't have to worry about crushing her.

"Didn't grandma come back now? After receiving a call from Zack, grandma came back in a hurry."

Grandma May pulled Serenity to sit beside her.
