Married at First Sight Chapter 2123-Hayden added: "Maybe someone else's child."

Kathryn smiled and said: "I can understand Mr. Queen, my mother is also like this, always saying that someone's daughter is so good, she describes me for being stupid, and calls me a piece of mud that can't support the wall.

My mother always compares me with Shiloh, saying that Shiloh is much better than me, how excellent, if weren't for the iron rules left by Farrell's ancestors, she would not have trained me as a successor, anyway, it is all kinds of dislike Bar."

Kathryn said it in a nonchalant manner, but Hayden could hear the pain in Kathryn's heart.

Even though she didn't grow up with Matriarch Farrell, she was her biological daughter after all, and it's no wonder she didn't feel bad when the mother always beat her.

"Kathryn, you are a very good girl, don't care what your mother says, I believe you will be able to take over the Farrell Group from your mother in the future." Hayden comforted Kathryn.

Hayden also said: "Although Shiloh grew up beside Matriarch Farrell, she also received the education of the heirs since she was a child. In fact, Shiloh's ability is not very strong. When I first met her, I told my brother in private, if the Farrell Group is handed over to Shiloh, it will be over sooner or later."

Might be a genetic issue.

If Matriarch Farrell wasn't really part of the Farrell family, she wouldn't have the genes that make all the Farrell women so great.

Matriarch Farrell didn't know that her daughter was exchanged before, and she always regarded Shiloh as her own. She loved Shiloh extremely, and she also cultivated her carefully. She was trained as an heir since she was a child. The papers that Shiloh handed in were unqualified in Hayden's opinion.

It's just that Matriarch Farrell only had one daughter, and she didn't know that the daughter had been replaced at the time. According to the iron rules of the Farrell family, Shiloh would be the leader in the future. Even if Matriarch Farrell is dissatisfied with Shiloh's ability in her heart, she would not show it.

In order for Shiloh to take over smoothly, Matriarch Farrell arranged for her son to join the company and take up an important position so that she could assist her daughter in the future.

In Hayden's opinion, Shiloh's ability was very good if she could be a master of success, but what she feared most was that she couldn't even defend it well.

Kathryn gave her the impression that this girl was born suitable for shopping malls.

She understood people's hearts too well and was too good at pretending.

People who were too honest and upright in the shopping malls were easy to suffer.

Although it had only been a year since Kathryn returned to the Farrell family to recognize her ancestors, she was arranged by Matriarch Farrell to join the Farrell Group after one month after her return. She did not start from the grassroots level, but was directly airborne to the position of vice president.

Even if the people in the company didn't accept it, everyone couldn't refute the Farrell family's words.

Those who find it difficult to accept that a girl who grew up in the countryside parachutes into the role of the company's vice president naturally make obstacles secretly. On the surface, Kathryn was always criticized by others and appeared incompetent. All obstacles secretly, and let those who made stumbling blocks suffer from being dumb and unable to speak out.

For a year, although Kathryn was still scolded by Matriarch Farrell every day in the company, scolding her for being useless, scolding her for being rotten and unable to play, but already one-third of the old courtiers began to surrender to her.

Of course, many people said that because Kathryn was the daughter of Farrell's family, the elders of the company would be more and more polite to her and even completely submit to her because they knew that the Farrell Group would be handed over to Kathryn sooner or later.

They just accepted this reality helplessly, not because Kathryn was so powerful.

It is said that the authorities were confused, but the bystanders were clear.

The people who could see Kathryn's true face were not the Farrell Group and the Farrell Family, but people from outside.

Kathryn smiled and said: "Mr. Queen, I don't care about those things. No matter how good Shiloh is, she is not the daughter of the Farrell family, and she will never be able to take over the Farrell Group. Not to mention anything else, my mother wants to return to Shiloh now. To work in the group, I have to get my consent."
