Chapter 1241

“Compensation? I don’t care about that!” Leon sniffed.

“Then what do you want?” Orvald asked apprehensively.

“It’s very simple. Didn’t you say you would cripple me and take my method and treasures? Then, I’ll do as you want. I’ll cripple your strength and make you feel the consequences of your greed!” Leon sneered.

After that, he started to walk forward toward Torvald and the others. Every step he took was like a heavy blow to Orvald and the others.

“We’re done for.” Orvald and the others paled. Their hearts sank to the depths.

Strength was the foundation of a martial artist. If their strength was taken away by Leon, then they would become a cripple and lose everything.

“No...”

Sean was absolutely terrified when he saw that Leon was coming in his direction.

It was not just him. The guards were terrified as well.

Even though the three of them were stronger than Leon, they were all heavily injured. They also had Sean and Lilith there as burdens.

Lilith was not even a Supreme Master. It drastically slowed them down.

In just a few moments, Leon quickly started to catch up to them.

“Brat, take this!” The three of them clenched their teeth as they charged at Leon.

However, they were still scared from Leon’s attack just now, so their attacks felt incredibly powerless.

Of course, the energy was Leon’s greatest trump card. He only had two left. There was no way he would waste them on those three.

Furthermore, he did not need it when his opponents were heavily injured!

“Just lie down!” Leon shouted as he punched forward, using Double Attack at Solomon and Eric.

Bang! Bang!

With two intense clashes, there was no way Solomon and Eric would be able to break through Leon’s defenses.

Right after that, they were sent flying by Leon just like before.

After crippling Sean's strength, Leon looked over at where Orvald and the others had fled. They were already far away, and it would be impossible for him to catch up.

Even though he was unhappy about it, there was nothing he could do.

Meanwhile, Orvald and the others let out sighs of relief when they saw Leon could not pursue them. They suddenly felt happy about escaping such a dangerous situation.

Before they could properly feel happy about it, something happened.

"What a bunch of hooligans! You're trying to flee after doing whatever you want in Springfield City? Do you think the Dragon Corps here is just for show?!"

An old and stent voice was suddenly heard everywhere.

"Master, why are you here?"

Leon walked over while Mark was capturing all of them.

"I came over to settle the matter for you in case you cause any trouble again," he replied calmly.

The Dragon Corps was responsible for maintaining order in the martial world. Even though The Lapwoods had helped the Fields against the Shears, the matter had not caused that much trouble, so the Dragon Corps did not know about it.

It was only when Orvald suddenly came to Springfield City himself as someone in the Emperor State did the Dragon Corps get alerted!

So, Master Haslewood and the others rushed over immediately.

Of course, he knew that he had given Leon enough to survive. The Lapwoods would not be able to do anything to Leon, but the Lapwoods had still crossed the line in trying to interfere with Springfield City. They had broken the laws of the martial world, so the Dragon Corps needed to punish the Lapwoods!

He was also a little worried that Leon would use his power to kill someone in anger. Since there was no death on the scene, he breathed a sigh of relief.

"How could I? I don't want to visit you guys again." Leon laughed dryly.

After dealing with the Fields, Leon left everything to Benedict, Elder Young, and the others to deal with. He brought Iris and Cynthia with him as he left the place. Ruth invited herself along, getting in the car with them.

"Cynthia, I asked you to prepare the materials I need for the Pure Energy Pills before this. How are your preparations?" Leon asked,

"Yes, everything's already prepared." Cynthia nodded.

"Good, let's go over to refine them right now," Leon said eagerly.

“Leon, are these the Advanced Pure Energy Pills? Can they really get someone from the Semi Overlord State to the Overlord State?” Ruth walked forward and asked curiously.

She knew of the effects of the Basic Pure Energy Pills, and she had one before as well. It had helped her become an advanced Supreme Master while she was still an intermediate Supreme Master.

However, Advanced Pure Energy Pills were much better than the basic ones. It could help a Semi Overlord

State martial artist reach the Overlord State!

She felt like Leon’s alchemy skills were a bit unbelievable!

“Yes, that’s right! The Advanced Pure Energy Pills I made this time are particularly effective. Even Overlord State martial artists will be greatly helped if they have them!” Leon said with a smile.

In Wade’s room.

Wade stared at the monitor, checking it back and forth.

Then I calculated a lot of messy things on paper, and I didn’t know what to count.

Martin opened the door and came in, glanced at his desktop, and said, “Never mind.”

Kellen couldn’t find it, so he couldn’t find it.

Wade put his pen down and fell silent.

Martin sat down beside him and said, "If you want to ask anything, just ask."

Wade immediately turned around and asked, "Dad, how did you give birth to me and my brother with...my mother?"

"Was it born with the light on? Or was it turned off? Why can't you see her face?"

Martin was silent for a moment.

Outside the door, Susie, who had just followed, looked puzzled.

When the two arrived at the door, they found that the atmosphere was not right, so they went in and disturbed the father and son.

At this moment, Susie thought it was amazing when she heard 'turn on the light' and 'turn off the light'.

It turns out that giving birth to a baby can also choose to turn on or turn off the light. Is it better to turn on the light to give birth, or to turn off the light to give birth?

Susie looked at Kellen with bright eyes: So before the father and mother gave birth to her with the lights off, or with the lights on?

She likes a little light, which makes people feel happy and safe.

Kellen seemed to see her confusion, and the corner of his mouth twitched, trying to ignore her twinkling eyes, but he couldn't.

He lowered his voice and said angrily, "Turn off the lamp."

Susie curled her lips immediately, leaned into Kellen's ear, and said in the same breath: "Then next time you give birth to me, can I choose whether to turn on or turn off the light?"

Kellen was speechless.

Leon and Cynthia's appearance calmed the Shears down a bit.

"Leon, there's a difference between man and woman! You're already one of the most notable people in Springfield City right now. I hope you'll pay more attention to your actions. Please distance yourself from my daughter!" Brad said rudely, not bothering to be polite with Leon.

"That..."

Leon felt a bit awkward at Brad's words. He did not know how to answer.

"Dad, what are you doing? We only managed to avoid disaster today thanks to Leon. Even if there are some conflicts between us, there's no need to attack him like that!" Cynthia said unhappily.

"I know! All of us are very thankful that he helped us this time! However, that doesn't mean he can try to have more than one girl at once, seducing my daughter without fear!" Brad said angrily.

Looking at the elders being tempted, Tomas immediately stood up and slammed his hand on the table before Benedict could react.

"What's there to discuss? Are we really going to toss away our reputation for a few pills?!" Tomas said angrily.

Cynthia was

the treasured daughter of the Shears. If she continued to be with Leon and Iris, willingly becoming Leon's mistress, it would completely destroy the reputation of the Shears when word got out!

Even he would not agree to that, let alone Brad and Benedict!

“Uncle is right! There’s no room for negotiation with regard to this!” Brad stood up and said with resolve as well.
