Chapter 2195

Chapter 2195

"Wow! Who would've thought that someone as young as Mister Wolf would defeat the Scarlet Thief, who ranks fourth place on the criminal list?"

"Unbelievable!"

Both Henry and Chandler were overjoyed and excited beyond words.

Leon had mentioned that he would eliminate the Scarlet Thief repeatedly, but they had all thought that Leon only said such a thing because he had yet to see what the Scarlet Thief was capable of.

It was at this moment that Henry and Chandler finally realized that Leon meant every word he said.

It was a miracle that Leon, a young man in his mid-twenties, managed to defeat the Scarlet Thief, who was in the Intermediate Almighty State, repeatedly.

Had they not witnessed the fight with their own eyes, they would never believe this to be possible.

"How is this possible..." The Scarlet Thief struggled to get up. The smugness on his face disappeared without a trace as pain coursed through his body.

He could not wrap his mind around how Leon managed to fend off his attack even after exhausting the limits of the defensive tool.

"Could it be that... he really is in the Advanced Almighty State?!" The Scarlet Thief mumbled in realization and paled in terror.

After Leon showcased his inhuman speed, the Scarlet Thief wondered if Leon was in the Advanced Almighty State. However, Leon seemed way too young to make such an accomplishment, so he cast the thought aside almost immediately.

To his surprise, not only had Leon remained completely unscathed, but he had managed to destroy the Scarlet Thief's arm before injuring him severely.

Everything pointed to the conclusion that Leon had surpassed the Scarlet Thief in overall strength and could very well be at a higher power level than the Scarlet Thief.

The Scarlet Thief came to realize that Leon might actually be in the Advanced Almighty State and had merely been acting weak to toy with him. Otherwise, he would never lose so completely.

"Take this, Scarlet Thief!" Leon did not stop and launched yet another powerful strike at the Scarlet Thief.

"I'll remember this, brat! Just you wait! I'll make you pay for this someday!" The Scarlet Thief roared viciously.

The Scarlet Thief knew better than to stubbornly remain in a situation where he had no chance of winning.

He had mistaken that Leon was in the Advanced Almighty State. Since he was deeply injured, he dared not fight Leon any longer as he knew he would die if he stayed.

The Scarlet Thief valued his life more than anything else. Hence, he leaped into the woods behind him without hesitation to escape, using the trees and steep landscape as his cover.

"You won't get away so easily!" Leon sneered and darted forward with the Phantom Steps, catching up to the Scarlet Thief with such incredible speed that his figure turned into a blur.
