

The Ex-Husband's Revenge By Dragonsky

Chapter 2280

Chapter 2280

"Dad, Yonas suffered a horrible death! You have to avenge him!"

Next to the bed. August held Yonas' body tightly. His eyes were red and full of anguish.

"I know! I won't let Yonas die in vain! I'll find Leon right now and make him pay the price!" Arthur said furiously. The killing intent in his eyes was evident.

After that, he pushed back the sadness in his heart as he ordered Norm and Sully, "Norm, Sully, both of you send Yonas' body back! Once I kill Leon, I'll make the final arrangements for Yonas. We'll make sure to appease his soul!"

"Yes!" Norm and Sully answered.

After that, August handed Yonas' body to the two of them. After that, his face was full of vengeful hatred as he walked out with Arthur in a murderous rage, preparing to get revenge on Leon!

"No..."

Roanne's heart sank when it seemed like everything was already set in stone.

She knew very well what happened between Leon and Yonas. Even at that moment, she still could not believe that Leon was the one who killed Yonas!

Right after that, she took out her phone. She planned to inform Leon with a call so that he could be prepared. However, Angus stopped her!

Angus felt the same way as Roanne. He thought about giving Leon a call as well, but Yonas was still a member of their family!

It would be inappropriate for him or Roanne to secretly notify Leon behind Arthur's back with Leon having caused Yonas' death!

"Roanne, let's just go over and see how the situation is!" Angus said with a sigh. After that, both of them left with the others.

The matter was just too complicated. On one hand, Leon had saved Roanne's life numerous times. On the other hand, Yonas was his blood relative!

He found himself in an incredibly difficult position!

It seemed like he would need to take it one step at a time!

In Elegante's chairman's office, Leon, Iris, and Snow gathered together to talk about work, including the future direction and development of the company.

Leon had been busy with Cynthion Group during the recent periods and rarely had the time to visit Elegante.

At that moment, some frantic footsteps could be heard.

Right after that, the office door was pushed open. Mason barged inside with a panicked look on his face.

"Mason, what's wrong? What happened?" Leon was confused when he saw Mason's expression.

He knew that Mason was from the underworld and was already well-versed in all manner of things. It was the first time he saw Mason panicking like that!

"Mister Wolf, it's really bad. Elder Thompson has personally led the Thompsons over," Mason reported in a hurry.

"Elder Thompson? Why did he bring his men over?" Leon was taken aback.

He quickly had a moment of understanding. He had just broken one of Yonas' arms. Arthur's sudden appearance with the others was almost certainly related to Yonas!

"I don't know, but based on what the security said, they don't seem to be here with good intentions. They're forcing their way in. They're even saying they're here for your head..." Mason answered honestly.
