

The Ex-Husband's Revenge By Dragonsky

Chapter 2202

Chapter 2202

Just as the Dragon Guards were about to take off, a bright voice echoed in the air and Leon strode in.

"That won't be necessary"

"Leon?" Alfred was surprised to see Leon there.

He gathered several Dragon Guards but did not summon Leon.

"Mister Glasbey." Leon bowed respectfully before Alfred.

"Leon, why are you here?" Alfred asked in confusion.

"Oh, Mister Glasbey, I've killed the Scarlet Thief, so I came to report back to you and save you all from the time and effort of going after him," Leon explained.

He knew that Alfred was planning an attack against the Scarlet Thief along with the Dragon Guards from the eastern region.

As soon as Leon left where Chandler used to live, he ordered Mason to take Chandler back to the mansion where Henry and Sherlyn lived, before driving over to the Dragon Corps with the Scarlet Thief's corpse to report the latest development to Alfred so that the Dragon Guards would not have to waste time going after the Scarlet Thief.

On top of that, Leon owed the Dragon Corps some contribution points when he obtained the Nine Suns Flower, so he rushed over to trade the Scarlet Thiefs body with contribution points and pay his debt.

"What?"

"You killed the Scarlet Thief?"

Jaws dropped around Leon.

"Who's this kid?"

"Did he just say that he killed the Scarlet Thief?"

"Am I hearing this right?"

The Dragon Guards snapped out of it and exchanged confused looks.

The people from the eastern region traveled a long way and never met with Leon before this; as for those from the southern region, no one saw them. Hence, none of them knew who Leon was.

However, there was one thing that they were all certain about, and that was the Scarlet Thief was an influential Almighty martial artist who was both cunning and formidable, whereas Leon was merely a young man who could not possibly rival the Scarlet Thief in terms of strength.

As a conclusion, none of them thought that it would be possible for Loen to defeat the Scarlet Thief on his own.

Contrary to the others' suspicion, Alfred was both shocked and excited." Leon, are you sure that you killed the Scarlet Thief?"

Others might not know what Leon was capable of, but he knew that Leon managed to kill both Asmodeus and the Poisonwielder.

Alfred knew that Leon could kill yet another criminal, but since the Scarlet Thief was good at hiding, no one in the Dragon Corps knew exactly where he was, so that was what baffled Alfred when he first heard that Leon managed to track the Scarlet Thief down.
