

The Ex-Husband's Revenge By Dragonsky

Chapter 2203

Chapter 2203

"Yeah, it's true! I've killed the Scarlet Thief. I can assure you that it's true!

Leon nodded seriously.

"Good! Leon, you're awesome!" Overjoyed, Alfred burst into laughter.

Ever since Leon reported to the southern region of Dragon Corps, Alfred spent enough time with Leon to know what kind of a man he was.

Since Leon assured him that the Scarlet Thief was killed, Alfred did not doubt it.

The Scarlet Thief wreaked havoc in the southern region and was seen as the common enemy of all Dragon Guards in the southern region. However, the Scarlet Thief was far too powerful and skilled at hiding his track, so they could not capture him despite their effort.

Somehow, Leon managed to kill the Scarlet Thief on his own and eliminated one of the biggest threats toward the Dragon Corps.

Instantly, Alfred's heart was filled with excitement.

"Mister Glasbey, what's going on?"

The Dragon Guards from both the eastern and southern regions were confused as to why Alfred burst out laughing.

'Does he truly believe that this kid killed the Scarlet Thief? But, that's not possible!' They thought.

"Everyone, let me introduce Leon Wolf, a fifth-level Platinum Dragon Guard here. Leon, this is Zack from the Dragon Corps in the eastern region,' Alfred proceeded to introduce Leon to the others.

"What? He's a Platinum Dragon Guard?'

Zack and the others were stunned, and so were a lot of the Dragon Guards from the southern region.

None of them imagined that Leon would be a Platinum Dragon Guard at his age.

"Mister Glasbey, are you messing with us? How can someone this young be a Platinum Dragon Guard? Is there a mistake?' Zack asked in disbelief.

The system in Dragon Corps had strict requirements and members were required to reach the Almighty State and offer five-thousand contribution points to be promoted to a Platinum Dragon Guard.

For Leon to become a Platinum Dragon Guard at his age, he would have to be insanely talented.

On top of that, it was always challenging for any member of the Dragon Corps to contain a large sum of contribution points. Apart from killing criminals on the criminal list, it would take at least ten years of hard work for ordinary Dragon Guards to be promoted to Platinum Dragon Guards.

From Zack's perspective, Leon was far too young and inexperienced. Even if Leon indeed reached the Almighty State, it would be impossible for him to possess five-thousand contribution points.

"I'm not mistaken! Zack, Leon might be young, but he's quite a man! Don't underestimate him." Alfred could tell that Zack was looking down on Leon and smiled in response
