

## Revenge 221

### The Ex-Husband's Revenge Chapter 221

Ashwin took a deep breath, trying his best to compose himself.

"You mean our plan to sabotage the production..." Michael quickly understood what Ashwin meant.

The last time, both of them discussed working together to deal with Leon, but it was delayed due to the sudden incident with the development of products and increasing the efficiency of their raw materials.

With the matter already resolved, it was time for them to continue with their plan!

"That's right! I've already figured out a foolproof plan. Nothing will go wrong with it..." Ashwin sneered as he asked Michael to lend an ear before he told Michael the plan in detail.

"Good, that's a brilliant idea! As long as the plan goes well, we'll be able to kick Leon out of the company!" Michael had a glint in his eyes as he started to laugh.

"Of course! Now, just follow my plan and take action. This time, I want his reputation completely ruined. He won't be able to come back from this!" Ashwin had a sinister glint in his eyes.

"I hope you'll use him well in the future! Oh, is that so? Is he that capable?" Iris was surprised.

"Incredibly so! If you don't believe me, you can ask Ariel," Leon pointed at Ariel next to him.

"Yes, Leon's right. Mister Wallace is quite capable," Ariel nodded.

She was with Leon at the factory for the past few days and saw Stanley's abilities for herself. He was talented.

"It looks like he's capable! Why don't I do this? The second factory's manager, Mister Lennon, is about to retire in a month. Once he retires, I'll send Mister Wallace over as his replacement," Iris said.

Since Leon and Ariel were both recommending him, Iris regarded Stanley a lot higher than she did.

"Alright," Leon was happy. After that, he seemed to think about something as he added, "Iris, there's something else."

take it all by myself. I feel like half of it should be given to Mister

### **The Ex-Husband's Revenge Chapter 223**

"Leon, I gave you the ten percent dividends not just because you increased the efficiency of the raw materials and because you developed new products, but also because you managed to secure the cooperation of

the Wick Group for the company! You deserve these rewards, you don't have to split them with anyone!

As for Mister Wallace, all of the higher-ups in the company have their dividends based on their position and

contributions.

“Once he assumes the position of the manager of the second factory, he’ll be a company executive. Then, we’ll naturally get some as well. You don’t have to worry about him!” Iris said firmly.

Most of the executives in the company only had one or two percent. Even Ashwin and Ariel only had eight percent and six percent respectively.

Most of those people have been with Iris for over two years. All of them contributed to the company.

If Stanley got five percent of the dividends simply for helping Leon a little, she would not know how to explain it to the other executives!

It was not realistic at all!

“Oh, alright then.”

After listening to Iris’s explanations, Leon felt like he thought of things too simply. He decided to dispel his earlier thoughts.

He had a complicated feeling in his heart when he saw the resources.

He was not the main person behind both of those matters, but to increase the efficiency of raw materials, he worked hard on this for two years.

His success easily partially thanks to his efforts, which was not mentioned at all in the report. It was obvious how

Ring ring ring!

Stanley picked up the phone to see that it was a call from Guido, the factory manager. Guido wanted to see Stanley for a moment. Stanley stood in front of Guido’s

#### **The Ex-Husband’s Revenge Chapter 224**

“Don’t question things that don’t concern you! Just do as you’re told!” Guido said unhappily.

“I...” Stanley looked incredibly distraught. After that, he clenched his teeth and said, “Mister Boyd, I’m sorry, but I can’t do something like that!”

Guido had a cold look in his eyes, “You’re not doing it?”

“Fine, then tidy up your things and get lost! You don’t have to come to work anymore!”

“What? How could you do that?! Mister Boyd, I’ve been at the company for almost ten years, I...” Stanley was shocked. He wanted to say something but was interrupted by Guido before he could finish.

“Do what you’re told or get lost! You can make the choice yourself!” Guido said coldly.

“But...”

“There are no buts!”

“You should’ve seen the announcement from human resources, right? You’ve been helping Mister Wolf out the past few days. No matter what, you’ve put in a lot of work, yet you haven’t gotten any rewards at all! Why would you lose your job for a shameless and petty man like that?!” Guido said with a mocking smile.

high-end cosmetics, and it was the first time

### **The Ex-Husband’s Revenge Chapter 225**

“Alright,” Leon nodded.

He trusted Stanley quite a bit, so he directly signed his name on the document.

After that, the products were put into various trucks to be sent to the Wick Group.

At the Wick Group, Jenson took out a few samples from the products after they received them and handed them to the company's r-and-d department for testing.

Business was business, separate from personal relationships.

Even though Jenson got along with Leon, it was still the first time the Elegante Group worked with the Wick Group. He needed to perform some testing to prevent anything from happening.

Not too long later, the head of the r-and-d department brought a test report over with a look of disbelief on his face.

are the results? There shouldn't be any

ruined the whole

### **The Ex-Husband's Revenge Chapter 226**

From that, it was obvious how severe the problem was!

"No, this problem is too serious!

I need to give Mister Wolf a call right now!" Jenson looked severe as he hurriedly took out his phone to give Leon a call.

At the factory, Leon was shocked after he received Jenson's call!

He never would have dreamt that such a serious problem would have happened to the products!

Not only that, the matter made huge waves within the company. Iris and the other executives were quickly mobilized.

The Elegante Group's total assets only amounted to a few hundred thousand. Not only did seven million worth of product go to waste, but the Wick Group might even ask them for seventy million in compensation!

It was the first time the company ever encountered such a serious problem!

### **The Ex-Husband's Revenge Chapter 228**

"Miss Young, I know that isobutylparaben is an illegal substance, but since Mister Wolf developed the new cosmetics, he's been completely in charge of the production. Furthermore, everything in the production line was strictly done following his wishes. I had no right to interfere. Furthermore, I gave the document over to Mister Wolf before the products were sent out. He signed off on it," Guido took out the document for everyone to see, and they quickly saw that Leon signed it.

"Mister Wolf, the proof is right there! The workers on the production line were all working under your orders. They added isobutylparaben under your mistaken instructions! What do you have to say about that?!" Ashwin said with a cold smile.

Before Leon could even respond, Ariel stood up and said, "Mister Mercer, before the matter has been investigated, you don't have to be so quick to pin the blame on Leon!"

Saying that Ariel shot a sharp look at Stanley, “Mister Wallace, you’re the workshop manager overseeing the production line! Even if the workers accidentally added isobutylparaben, could you not have known anything?!”

“That...”

Stanley clenched his teeth as he said stubbornly, “Miss Summers, for the last two days, I’ve been looking after the increase in efficiency of the raw materials. Both you and Mister Wolf have been in charge of the production. I don’t know anything.”

Why don’t I believe you at

“Ariel, could you be mistaken?” Leon said with uncertainty.

After working together for a few days, Leon trusted Stanley quite a bit.

However, thinking about how Stanley looked over the documents before Leon signed them, Leon started to be a little unsure.

After all, it was suspicious that Stanley did not notice any problems with his skills.

“Miss Summers, this has nothing to do with me. I’m innocent,” Stanley never expected that Ariel would point right at him. He started to panic a little as his palms started to sweat anxiously.

“You know yourself if you’re innocent! As the manager of the workshop, how could you not notice anything. at all faces such huge problems in production?! Similarly, if anyone wanted to harm Leon, they would need your help. Otherwise, there’s no way it would escape your eyes! In other words, even if you weren’t the one sabotaging Leon, you know the details!” Ariel sneered.

"And what did you do? Did you feed your heart to the dogs?!" Ariel got angrier as she spoke, voicing out the injustice for Leon.

"What? He recommended me, and wanted to share the rewards with me? How is that possible!?" Stanley was shocked. He looked like he was struck by lightning as he stood in place.

"There's nothing impossible about it! If you don't believe me, you can ask Miss Young!" Ariel said coldly.

Iris nodded, "Miss Summers is right! Both she and Leon said that you were quite capable. I considered that at Mister Lennon from the second factory was retiring in a month, and planned on having you take over his

position as the factory manager!

"As for the Leon wanting to give you half the dividends, it's true as well. It's just that the dividends aren't something to be played around with, so I didn't agree to it!"

"That..." Stanley was stunned.

He thought that Leon took all the glory for himself. Yet, he never expected that he misunderstood Leon!

Not only did Leon not do any of that, Leon even recommended him to be the manager of the second factory, and even planned on splitting the rewards with him!

Ariel said, Leon treated
