Chapter 2229

## Chapter 2229

"You have a point, but this concerns the reputation and honor of Roanne and our family! If we allow Roanne to stay with Mister Wolf, the scandals will escalate!" Arthur scowled.

"Rumors and scandals are nothing but words! Uncle Arthur, you know that our family has been rivals with the Southern Boss. We'll eventually cross paths! Mister Wolf's existence can hinder the Southern Boss, but if Mister Wolf is out of the picture and the Southern Boss manages to get his hands on Cynthion Group, the Thompsons will be the Southern Boss's next target! For the sake of the greater good, we need to do our best to protect Leon instead of letting the Southern Boss hurt him over some scandals," Angus analyzed.

He knew that the Southern Boss's target was always the Cynthion Group all along, and considering the potential of the company, the Spears' power would be greatly enhanced if they obtained Cynthion Group.

As the head of all families in the southern region, the Thompsons were an obstacle to the Southern Boss's way of conquering the region.

Once the Southern Boss gained enough power, he would do his best to weaken, or even eradicate the Thompsons.

Angus was trying his best to protect Leon because Leon helped his family in the past, but also because Leon's survival benefited the Thompsons in the long run.

"Um," Arthur fell into silence.

The Southern Boss did not possess the strength to overthrow the Thompsons at the moment, but he was a talented martial artist who already reached the Advanced Almighty State.

The Southern Boss was a second-generation martial artist in his prime years, and within a few years, he might be able to reach the Peak Almighty State; Arthur, on the other hand, was old and his body was already deteriorating, so it was unlikely that he could have another breakthrough.

As time went by, the Southern Boss would be capable of overpowering the Thompsons.

On top of that, the alchemical pills produced by Cynthion Group became crucial to all martial artists. If the Southern Boss managed to eliminate Leon and steal the Cynthion Group, he would be able to conquer the southern region with ease.

For as long as Leon was standing, the Southern Boss would not be a threat to the Thompsons. Hence, Leon's life had a tremendous impact on the Thompsons' fate, and Arthur could easily tell that Leon's survival was far more crucial than correcting rumors.

"Angus, you're right! We can't just let the Southern Boss do whatever he pleases with Mister Wolf! I have to remind you, though. The Southern Boss is ambitious and he won't give up on Cynthion Group simply because Roanne is living with Mister Wolf! If Roanne continues to live with them, the

Southern Boss might just attack regardless of everything! Roanne might get smacked in the middle of a storm," Arthur said.
