### The Ex-Husband's Revenge Chapter 591

None of them expected Leon to dodge the three moves from a Supreme Master like Ruth without any injuries. They finally understood that he was not arrogant or foolish in allowing Ruth to attack, but that he could withstand it.

"Leon managed to evade all of Miss Collins's attacks. Just what's his power level?"

"Is he in the Realm of a Supreme Master as well?"

The crowd recovered from the initial shock from witnessing Leon's true strength and muttered to one another.

They all thought that Leon merely got lucky and the fact that he tried to call the match off only reinforced their beliefs.

"Leon's being smart about it!" Cynthia and the other Sheers all sighed a breath of relief.

Though Leon seemed to have the upper hand and managed to defend his pride, it was the best time for him. to withdraw from the fight. While he might be mocked for doing so, Leon only had to ignore the others.

"Why, are you scared?" Ruth lifted an eyebrow in contempt. She, too, dismissed Leon's success as luck and she was certain that he would not be able to continue dodging all of her attacks no matter how skilled he was in combat; eventually, Leon was surely going to be defeated.

"Scared? You're reading too much into it! I just don't think that defeating a young woman like you is something to be proud of!" Leon scoffed.

“Who do you think you are? So what if I’m a woman? I’ll show you what a woman can do! Take this!” Enraged, Ruth did not give Leon any chance to say anything else and darted toward him.

“Mister Lowe and Mister Fields both swore by their names that Leon was only at the Peak Innate State!”

“If Leon can defeat Miss Collins with a single move, it means that he’s probably at the Realm of a Supreme Master. How can he be at the Peak Innate State?”

“Yeah, Mister Lowe and Mister Fields were skeptical about the effect of the Pure Energy Pills and Harvey Sheers managed to reach a breakthrough with the help of the Pure Energy Pill. Now they’re claiming that Leon’s at the Peak Innate State, when he’s clearly in the Realm of a Supreme Master!”

“What are those two trying to do? Are they toying with us?”

The crowd soon realized that they underestimated Leon and started to glance at Jacob and Theodore angrily.

The other Shears were all extremely excited as well and were all praising Leon's strength. After all, Leon was close with the Sheers and his victory against Ruth was something that the Shears took pride in as well.

"You're all too kind. I just got lucky," Leon said with a humble smile.

"Leon, correct me if I'm wrong, but have you reached the Realm of a Supreme Master after taking the Pure Energy Pill?" Benedict asked while running his fingers through his long beard.

"Pretty much," Leon said. He took the Foundation Pill instead of the Pure Energy Pill, but the two were not all that different.

Leon displayed his strength in front of everyone and since he already reached the Realm of a Supreme Master, Theodore would never be able to defeat him as a martial artist at the Peak Innate State.

“Benedict, this is between Leon and us. This is none of your business. Are you sure you want to get involved?” Walter said coldly.

“So what if we do?” Benedict retorted.

“If you insist, the Fields will step down for now, but you can’t protect him forever! After today, we will not stop until he dies!” Walter declared.

“Why you!”

The looks on Benedict, Vincent, and the others darkened. Though they were close with Leon, Leon was not a member of their respective families, and hindered by certain considerations, they could not go to war with the Fields for Leon's sake.

Powerful families often prioritized their reputation and though Walter desperately wished to get rid of Leon, he could not neglect the impact of his actions on the family's name.

"How about this? Leon, I'll send a Field from the second generation to fight you and if you manage to defend yourself under three attacks, we'll forget that anything ever happened! Fail to do so, and you'll have to get out of this city!" Walter decided to compromise.

"Second generation?" Leon's eyes lit

up.

Walter was one of the most formidable martial artists of his age, having reached the Peak Supreme State or higher, so Leon could not withstand three punches from someone at his level. However, he might stand a chance against someone from the second generation. Though Leon was not certain about the strength of the second generation of Fields, he witnessed Gilbert's power.

He thought that Walter would choose someone at the Advanced Supreme State, but to his bewilderment, Walter was too arrogant and chose a martial artist at the Intermediate Supreme State.

Leon was at the Foundation Phase and could easily fend off three attacks from someone of that level, so he could not possibly reject such an offer.

"Um, I'll take it!" He made a point to hesitate for a moment before agreeing reluctantly, being extremely careful not to let his joy show out of fear that Walter might send someone more powerful to represent the

“I bet that not only will he not survive, but he’s also going to end up badly injured!”

“Isn’t

that obvious? If he fails to take three strikes, he is going to be injured in the process. Haroon should destroy him for good. Serves him right!”

In everyone’s eyes, Leon was merely at the Initial Supreme State and was set to die.

Haroon focused every last bit of his strength into his fist with the determination to destroy Leon’s arm.

The crowd stirred at Leon’s reaction.

“Has he gone mad?”

“He might have been able to dodge Haroon’s attacks by utilizing his skills in combat, yet he’s trying to counter? Does he want his arm destroyed?”
