

Read Married at First Sight Chapter 2508

Married at First Sight Chapter 2508-Camryn liked her husband's family very much.

Her mother-in-law was really kind to her. Her own mother was not nice to her at all, but her mother-in-law was many times better than her own mother.

She couldn't see her mother-in-law before, and her mother-in-law never disliked her.

Two aunts came to York's house to meet her mother-in-law, saying that she was not suitable for Callum and wanted to use her mother-in-law to break up her and Callum. As a result, her mother-in-law said a very domineering sentence. After she heard what her mother-in-law said, she was very touched.

She started to treat her mother-in-law like her mother.

Rosella happily agreed. She looked into her daughter-in-law's eyes and asked, "Camryn, is your vision better? How far can you see?"

"Auntie, it's not too late to take Camryn back to the house first and then ask questions." Serenity smiled and said to Camryn, "Auntie knew you were coming back in the afternoon, so she made appointments with friends and stayed at home waiting for you. Grandma also said she would come back for dinner."

After Serenity and Zachary visited the Stone family, they returned to the Wildridge manor to rest. Camryn came over just in time to chat with her.

Serenity and Zachary spent their honeymoon on a self-driving trip in Wiltspoon. It was not far away, and it was very convenient to go home.

They thought about the world between two people, so they went out to play and lived in another house under Zachary's name.

Although Zachary looked serious and indifferent, he was a very enjoyable person. The villas under his name were all bought in good locations that were convenient for fun and had a lot of delicious food.

Camryn said, "Now that I can see a little farther, I'm actually very satisfied with it. It's countless times better than the total darkness in front of me."

Seren, you didn't visit your cousin-in-law? That baby is so adorable. Yichen and I came back right after we got out of the hospital."

Serenity smiled and said, "I went to see her, but she didn't let me stay there for too long. She said I was pregnant too and was afraid that I would be tired. When my cousin-in-law is discharged from the hospital, we will go and have a look. The baby is so cute. It makes my heart melt just looking at it."

She took Camryn's arm affectionately. Rosella was holding Camryn's other hand as the three of them made their way slowly towards the main house.

Three women left Zachary and Callum behind as they were just getting out of the car.

"Brother."

Callum opened the door of the back seat of the car and shouted to Zachary, "Brother, come here and help me get something. Camryn insists on buying gifts. Everyone has a share. My car is packed to the top. Everyone has a share. It became a truck."

"The family was so polite that she didn't have to buy gifts in the future. It wasn't her first visit."

Zachary came over and helped Callum get things. After looking at the car, he said, "Why did you buy so many things?"

"Everyone has a share; can there be less? Call the butler and ask him to come over and help."

Callum's car was parked in an open-air parking lot, a few hundred meters away from the main building of the center.

Zachary stuffed the things back into the car and said to him, "It would be much more convenient if you just drive over and park at the door of the house. Why park here? It doesn't matter if you walk so far. It doesn't matter if you carry so many things."

When he came back, he always drove directly to the door of the house before stopping.

They were not guests. When guests came to visit, their cars were parked in the open-air parking lot.

Callum said, "Didn't I stop the car when I saw you guys?"

He looked at the three women walking away and said, "Let's drive there; where are they?"

Zachary also looked at the three women and said, "They just like to chat while walking; let them alone. The one in your family can only see things clearly now, and she also wants to walk around and enjoy the scenery."

Feeling that what his elder brother said was reasonable, Callum returned to the car and asked his elder brother, "Brother, do you want to come with us?"
