I am a quadrillionaire chapter 2285-“Nova, I didn’t interrupt anything, right?” David did not answer but asked with a smile.

He could not read minds and did not know what Nova was thinking.

If he could, it was not known how he would feel.

Would he expose a little of his strength to Nova?

David’s current strength was indeed frighteningly strong.

He was a partial Overlord.

Even in level 9 civilization Leila, he would have been a hegemon, a level no one dared to provoke.

One must know that in all of Leila, there were only five Overlords.

In other words, those five Overlords were the only ones who could beat David.

However, in addition to being an Overlord, David had the Cloning technique. He could use three drops of blood essence to summon three partial Overlord clones at the same time. 4

He was almost invincible.

Which partial Overlord could beat four powerhouses at the same level?

Among them, three of them were not afraid to die and they could blow themselves up at critical moments.

The self-protection of a partial Overlord was unimaginable.

So David was unrivaled by anyone below Overlord Realm.

It would not be an exaggeration to call him the sixth strongest in Leila.

Within the jurisdiction of Level 9 civilization Leila, there were many races and countless creatures, and David’s strength could be ranked sixth.

Therefore, it was enough for him to do whatever he wanted in Leila.

Except for the five mysterious Overlords, no one could do anything to him.

This was enough for David to be proud of.

Of course, he did not know it.

He just felt that as a partial Overlord, he had enough strength for Leila.

As for how powerful that was, he would have to wait until he went to Leila in person to find out.

“David, I am free. What I’m afraid of is that, when you are in seclusion, you often come out like this and it will affect your cultivation,” Nova said worriedly.

“Nova, you’re worried that I won’t be able to stop the Feather family if they come when I relaxing, right?”

“I’m glad that you know. David, the fate of the entire Star Kingdom is in your hands now, so you have to work hard! You’re a national idol now and countless people adore you. So, don’t let everyone down. Also, don’t put your hopes on Lord Sid and the gang. They have been stuck at Sacred Saint Rank for so long, they can’t get beyond Saint Realm to Divine Realm in even 30 thousand years, nevermind 300 years. Star Kingdom is relying on you.” Nova looked at David in disappointment.

She knew David. She knew he was easy-going and would not get mad over little things.

She was genuinely treating David like a younger brother.

Otherwise, she would not dare to speak like that to a partial Deity, even with all the courage in the world.

When she met Saints like Sid and Zenon, Nova would only lower her posture and answer whatever she was asked.

“I know! But Nova, I can’t do anything now. If I’m stuck in my cultivation, staying in seclusion alone won’t solve my problem. Only by coming out to relax occasionally can I ensure that I am in the best condition and that will help my breakthrough,” David said helplessly.

In the end, he still did not tell Nova that he had broken through already and was no longer afraid of the Feather family.

After all, he spent too little time in seclusion.

It had not even been a year and he's already had another breakthrough. What would happen if word got out?

He would only reveal his Divine Realm strength three hundred years later so that it would not be too sensational.

'Yeah right. Do you think I don't know what's on your mind? I think you're too young and you don't have enough concentration. Plus, you can't bear the loneliness. David, you have to work hard now. Even if you're not concerned about the countless creatures in Star Kingdom, think about your girlfriends! Once you can't fight the Feather family in the future, they will all suffer.'
