I am a quadrillionaire chapter 2508-It turned out that it was not because he had not accumulated enough, but that his mental state was wrong.

From the very beginning, Lufian tried to make a breakthrough with hatred for the Robotias and the Soul Devourers.

In this way, he had suffered a disadvantage.

His mind was filled with how he would first find Elora after he successfully broke through and avenged her.

He wanted to let the Robotias and the Soul Devourers know how stupid it was for them to anger him.

Lufian did not even think about the damage and consequences to Leila's creatures after the Robotias and the Soul Devourers invaded Leila.

He only had Elora in his mind.

If the two races did not hurt Elora so seriously, perhaps Lufian would not have so much hatred for the Robotias and the Soul Devourers.

He might not fight to the death after Leila was breached, but he would instead take Elora away from Leila and find a foreign place to live with her.

If he did not have the right mentality, he could not break through to Heavenly Overlord Rank even if he had accumulated enough.

It was a pity that Lufian had understood this too late.

If he had realized from the beginning, everything might have been different. Maybe he would be a Heavenly Overlord now.

Lufian showed a hint of helplessness. Then, he could not help but lift his head to the sky and sighed, "Alas! One mistake triggers the next. I guess this is my fate. How sad, lamentable, and hateful... I refuse to accept this!"

Just when he was about to give up, a voice suddenly sounded in Lufian's mind.

'You refuse to accept this, huh? Then, don't you want to complete the breakthrough and reach Heavenly Overlord Rank just so you can look down on everyone and dominate the heavens?'

"Who's there? Who's talking?" Lufian looked around and asked vigilantly.

"Haha! Who am I? Are you seriously asking who I am? I am you, you are me, and we are one." The strange voice laughed maniacally.

Lufian calmed down quickly when he heard the laughter. He had guessed the identity of the voice, but continued to ask, "Are you the other personality in my body?"

"Exactly! We are originally two souls in the same body and we are one of the rarest physiques in the universe, dual souls. Otherwise, why do you think you can reach partial Heavenly Overlord Rank in such a short time? You're only one step away from being an Overlord who can truly rule the heavens and it's all thanks to the talent of your dual souls. If not, you will just be an ordinary person now."

"Since you're coming out at this time, is it because you have a way to solve my current predicament?"

"Of course! As long as we merge into one body, we can immediately exert the full power of dual souls! It will also be very easy to get over the obstacle and reach Heavenly Overlord Rank then, let alone solve the predicament. When the time comes, you can do whatever you want in this vast universe," Lufian's other personality tempted.

"Merge into one?" Lufian frowned.

'Yes! Merge into one. If we merge two souls, the advantages of dual souls will be fully displayed. At that time, we will be unstoppable in the universe. What do you think? Isn't it so powerful and awesome? Hurry up and become one with me! There's no time so let us take over the heavens together. Those who obey us will prosper, and those who oppose us will perish. Hahaha!' Lufian's other personality said excitedly.

Lufian was silent.

By now, he had already calmed down.

He knew that the other party did not just come out to help him with his obstacle this time.

The temptation of getting into Heavenly Overlord Rank was indeed very great.

He was very moved.

However, Lufian also firmly believed that there was no free lunch in the world.

And he would not have such a great benefit for no reason.

If what the other party said was true, he would not only show up when he failed to have a breakthrough.

Lufian believed in dual souls and this whole time, he knew there was another personality living in him.

However, he had never talked to him like this before.

However, uniting both of them?

Who would be the leader after they united?

Would the other party let him be the leader?

Clearly not.

Would Lufian still be the same Lufian after he lost leadership?

If this was the old Lufian, he would accept the offer without hesitation.

Yet, the current Lufian had transcended to another level.

He would not let his anger go to his head. Therefore he would contemplate the outcome.
