I am a quadrillionaire chapter 2542-Lu an was trying to control his terrifying power.

Otherwise, wherever he went, it would be a doomsday scene.

Soon, the spilled energy began to gradually return to Lu an's body.

He could slowly control the power belonging to a Heavenly Overlord.

A smile appeared on Lu an's face.

The smile gradually widened and then came a burst of maniacal laughter that resounded throughout the void.

"Hahaha!"

After laughing for a few minutes, Lu an stopped and started mumbling to himself.

"Is this the Heavenly Overlord Rank that all Overlords dream of?"

"Sure enough, it's ridiculously strong.

"It's not comparable to Supreme Overlord Rank and Ancient Overlord Rank at all.

"It is even miles apart from partial Heavenly Overlord Rank!

"I, Emperor Lu an, have finally become a Heavenly Overlord.

I can do what I want without being restricted by anyone!

"Not even Sylvio!

"Elora, wait for me. I will find you soon and take you to seek revenge from the Soul Devourers and the Robotias.

"I will let them know that they will die a terrible death for hurting my woman."

As soon as the word 'death' left his lips, another terrifying energy overflowed.

The surrounding void began to buzz as if it was scared.

At this time, Lu an stood up. As he was standing upright in the void, he was exuding an air of supremacy from his body which made the surrounding void tremble.

The previous Lu an was very low-key and he had always kept himself well hidden.

No one knew except for Sylvio who learned about this through Zwei Arithmetics.

Lu an's previous personality was somewhat similar to David's.

He preferred to hide himself carefully and he was not willing to expose everything.

He would not use his trump cards, but he needed to have some.

However, after the successful fusion of the personalities of the dual souls, Lu an had undergone some changes.

He no longer wanted to hide himself, but instead, he wanted to expose his strength to everyone and make them feel terror.

He liked that feeling, but he liked to see the fearful eyes of others more.

Although Lu an's original personality was still dominant after the fusion of the two personalities, the second personality still had a considerable influence on him.

In fact, the dual personality was originally born in one body and they would share one body and one soul.

After the fusion, they would form dual souls.

Few physiques in the universe could rival it.

Lu an stood in the void and raised his hands slowly.

Looking down at Leila through the infinite distance, he whispered, "From today, Leila will be guarded by me, Emperor Lu an.

"Sylvio's era has passed, and the future era will belong to me.

"This Heavenly Emperor is the patron saint of all living beings in Leila.

"Leila's creatures will obey me if they want to live.

"Those who obey me will prosper and those who oppose me will perish!"

If it weren't for the fear that the Soul Devourers and the Robotias might escape upon learning of Lu an's breakthrough to the Heavenly Overlord, his voice wouldn't have been so subdued.

Instead, he would loudly announce this to the entire Leila.

"Elora, here I come!

"I will return the harm you received ten times, a hundred times even, to the enemy.

"I want to tell the whole world that you are the woman of a Heavenly Overlord!"
