Chapter 2342

In response to his order, the rest of the Apostles stood in three different directions, surrounding Leon. "What's a Four Beasts Formation?" Leon scowled in confusion, but instinctively realized that it was something formidable.

"You'll find out soon enough! Prepare to die!" The Grand Apostle sneered, before launching an attack on Leon.

"Don't make me laugh! Let's see what you four can do!" Leon scoffed.

Though he did not know what the Four Apostles were trying to do, he did not fear anything because he had countless tricks up his sleeves.

Instead of backing away, he charged forward to meet the Grand Apostle's attack.

"Know your place!" The Grand Apostle sneered in contempt.

The Four Beasts Formation was a powerful formation that required four people at different positions that were referred to as the

Dragon, Tiger, Phoenix, and Kraken.

Once the formation was employed, the people involved would have to collaborate in close relation to one another.

The Grand Apostle stood at the Dragon position, the Second Apostle stood in the Tiger position, the Third Apostle stood in the Phoenix position, and the Fourth Apostle stood in the Kraken position.

As the Grand Apostle launched his attack, the Second Apostle followed closely behind and flung a powerful attack directed at Leon's back.

"What?!" Leon was startled by the attack coming from behind him.

He planned to use his agility and the Mirror of Sovereign to his advantage to get rid of the Grand Apostle, before moving on to the next Apostle. However, the position where the Second Apostle stood was so tricky that it aligned perfectly with the Grand Apostle's location in opposite directions.

Instantly, Leon found himself restricted and if he tried to go up against the Grand Apostle, he might not be able to defeat him and even suffer extreme damage from both the Grand and Second Apostles.

"This Four Beasts Formation thingy is rather impressive!" Leon narrowed his eyes sharply and immediately executed the Phantom Steps to evade their attacks.

"What an incredible speed!" The Second Apostle gasped.

He already witnessed how swift Leon was earlier when he injured the Grand Apostle; however, he realized that Leon was even faster than he initially imagined when he fought Leon himself.

It surprised him that Leon escaped unscathed from even the Four Beasts Formation, but both he and the Grand Apostle remained confident and did not go after Leon. 2
