

The Ex-Husband's Revenge By Dragonsky

Chapter 2348

Chapter 2348

"It's over!" The Thompsons' hearts sank.

Since Leon was in the Intermediate Almighty State and had a powerful defensive tool, Leon had a great chance to escape when the Four Beasts Formation was not activated. However, now that the Four Beasts Formation was launched again, they all assumed Leon missed his last chance to run.

"How arrogant!" Contrary to their despair, the Southern Boss and Devon sneered and stared at Leon as though they were looking at a fool.

They all knew that the Thompsons and Leon were at a disadvantage, but since there were a lot of formidable martial artists among the Thompsons, Leon might have been able to escape if he listened to Yuri and Arthur and ran earlier.

However, despite knowing that he could not win against the Four Apostles, Leon insisted on staying and if they were right, the Four Apostles would kill Leon on the spot.

Before they could celebrate their victory, what happened next shocked them to their cores.

"Bring it on!" Leon stepped forward and executed the Phantom steps to reach the North-east position of the formation.

Ancient divination like the Four Beasts Formation often had a Live Spot and Death Spot; Death Spot was often located in the South-west direction, whereas the Live Spot was located in the North-east direction.

Though the Grand Apostle obtained the Four Beasts Formation from an ancient site, ancient divinations shared similarities all the same and once they started the formation, Leon instantly located the Live Spot concerning the information he inherited from his ancestor.

He swiftly stepped into the Live Spot and successfully evaded the attacks from the Grand and Second Apostles.

When Leon was forced into the Death Spot earlier, he was vulnerable to attacks from all four directions, but since he found the weak point of the formation, the Four Apostles all found themselves rendered powerless.

"What?! How's this possible?!"

The Four Apostles were all stunned.

As the wielders of the Four Beasts Formation, they naturally knew where the Live Spot and Death Spot were located. However, the formation was ever-changing and the Live Spot was hard to identify.

Even experts in ancient divinations would struggle to find it within a short period, so they did not expect Leon to achieve the impossible.

Caught by surprise, they were all stricken.

"He probably got lucky! Change the formation and show him what the Four Beasts Formation can do!" The Grand Apostle snapped out of it and commanded decisively.

Leon was just injured by the Four Beasts Formation earlier, so the Grand Apostle did not think that Leon had the true capability to find the Live Spot and assumed that he merely ended up at the weak point of the formation by luck.
