

The Ex-Husband's Revenge By Dragonsky

Chapter 2327

Chapter 2327

"You'll find out who I am later!" Leon scoffed and ignored them to turn his attention to Arthur and the Thompsons.

"Elder Thompson, I'll deal with this. You and the Thompsons need to stop the Southern Boss and the Hiltons. Leave the Four Apostles to me! Once I take care of the Four Apostles, I'll help you deal with the Southern Boss!" Leon decided.

Since the Southern Boss was in the Advanced Almighty State, Leon did not have the power to confront him at the moment and only Arthur could do so.

Since the Four Apostles were all in the Intermediate Almighty State, Leon was confident that he could take care of all four of them using the Mirror of Sovereign.

The Four Apostles were the Southern Boss's strongest subordinates and the heads of the Spears, so the other Spears would not pose as a threat once the Four Apostles were out of the way.

With the power the Thompsons held, Angus and the elders were more than capable of defeating the rest of the Spears and Hiltons.

"What?"

Arthur and Angus were shocked by Leon's words.

They knew just how powerful the Four Apostles were, and that they were all in the Intermediate Almighty State. Under normal circumstances, even a martial artist in the Advanced Almighty State could only handle two to three enemies in the Intermediate Almighty State at the same time.

Even Arthur would struggle to defeat all of the Four Apostles, yet Leon, a young man, claimed that he could handle all Four Apostles on his own.

Instantly, everyone was stunned.

Naturally, they were unaware that the Mirror of Sovereign was fully capable of fending off any attack in the Intermediate Almighty State under the effect of the Dragon Pill; adding all the tricks Leon had into the equation, Leon was truly capable of defeating the Four Apostles.

However, martial artists in the Advanced Almighty State were capable of breaking through the defense of the Mirror of Sovereign, which was why Leon refrained from confrontation with the Southern Boss.

"Mister Wolf, stop messing around! The Four Apostles are powerful. You can't possibly defeat them! The Thompsons will buy time, and you need to run. Once you get away, we will be able to retreat!" Arthur said and rejected Leon's plan without hesitation.

He knew that the Thompsons were outnumbered and could not defeat the alliance formed by the Southern Boss and the Hiltons. At the moment, the best plan was to retreat in time and look for a better opportunity to avenge Yonas.

The Southern Boss and Hiltons' main goal was to eliminate Leon, and Arthur felt guilty about mistaking Leon as the person who killed Leon. Now that he learned the truth, the misunderstanding was clarified and the Thompsons could not possibly leave Leon behind. Hence, he intended to ensure that Leon get away safely, before ordering the Thompsons to retreat. 2
