

A Man Like None Other Novel

Chapter 2469

"Master Iron Hammer, what are these armor-piercing beasts?"

David asked puzzled when he saw that Master Iron Hammer was crying.

Master Iron Hammer wiped away his tears and said, "These armor-piercing beasts were bred by our Artifact Sect to mine spirit ores, but after the Artifact Sect was wiped out, no one fed them anymore. Still alive!"

"Master Iron Hammer, why don't these armor-piercing beasts run away, why don't they run out to find something to eat?"

Hu Mazi asked!

"You don't understand. Once these armor-piercing beasts accept their owners and raise them in captivity, they will never leave the mine. They would rather die than leave the mine."

"Besides, even if they leave the mine, they can't find food. They are They feed on spirit ores."

Master Hammer shook his head.

"This mine is full of spirit ore, so why don't these armor-piercing beasts eat it? Are they just waiting to starve to death?"

David asked.

"These spirit ores are unrefined. Armored beasts cannot eat them. They must be refined before they can be fed."

"They must have sensed my breath just now, so they roared with all their might
Come out and attract my attention!"

After Master Hammer finished speaking, the aura on his body burst out suddenly, and forging power gushed out from his body, and soon formed a big hammer in the hands of Master Hammer!

Then Master Iron Hammer took a big hammer and smashed down a piece of spiritual ore about one meter in the mine!

The spirit ore was smashed into pieces immediately, and in the center of the spirit ore, a crystal clear core the size of a fingernail was exposed!

Master Hammer threw the spirit ore essence the size of a fingernail to an armor-piercing beast, and the armor-piercing beast swallowed it in one gulp.

It's just that such a little spirit ore essence is just a drop in the bucket for the armor-piercing beast that is about to starve to death!

"Master Iron Hammer, how can such a large piece of spirit ore have such a little essence?"

David asked in confusion.

"The spirit ores here are all garbage, so they are discarded at the entrance of the mine. The spirit ores that really contain a lot of forging power can only be obtained in the depths of the mine!"

"If you want to feed these armor-piercing beasts , to recover, we have to enter the depths of the mine."

Master Hammer said!

"Master Iron Hammer, even if we find the Lingshi Mine, we won't be able to purify it. We don't have your ability to extract the essence of Lingshi Mine!"

Hu Mazi said to Master Iron Hammer!

After all, David and Hu Mazi don't know how to forge, and they don't know how to refine weapons, so they can't purify the spirit stone mine to its essence!

"It's easy to do. The purification of the spirit stone mine is not complicated. I can teach you two. The most urgent thing is to go to the depths of the mine as soon as possible to find a relatively high-purity spirit ore."

Master Iron Hammer finished . , Go straight to the depths of the mine!

David and Hu Mazi followed behind, and the sword spirit Zhongli felt a little scared when he felt the dark mine, so he turned his body and turned into a dragon-slaying sword, and then entered David's body!

Under the leadership of Master Iron Hammer, David and the others continued to go deeper into the mine. After walking for an unknown distance, Master Iron Hammer stopped!

At this moment, around the mine, some light blue and pink spirit ores are scattered on the stone wall and surroundings!

"Master Hammer, why don't we continue to move forward?"

David asked in confusion.

"We can just stop here. My current forging technique can only purify this kind of spirit ore. Like the purple spirit ore in front of me, I can't purify the essence!"

Master Hammer explained!

After hearing this, David said to Master Hammer , "Master Hammer, can you teach us how to purify the spirit ore?" The parchment!

Chapter 2470

"If you put your spiritual consciousness into this parchment, you will naturally master the low-level forging technique, and you can purify the low-level spirit ore."

After Master Hammer finished, he spread the parchment on the ground!

Seeing this, David and Hu Mazi quickly exuded their consciousness and entered the parchment scroll!

In just an instant, the two of them mastered the technique of refining the spirit ore!

“Now that you have mastered the method, you can try it...”

Master Hammer put away the parchment and said!

David and Hu Mazi nodded, and then bursts of aura erupted from the two of them, and soon the aura condensed into a big hammer in front of them!

The sledgehammer exuded bursts of condensed air. David and Hu Mazi held the sledgehammer in their hands, and felt that the sledgehammer condensed with breath was actually held in their hands, without the slightest illusory feeling, just like The real thing is average.

“Now you can condense the forging hammer, but what level of spirit ore can be purified with this forging hammer depends on your understanding and the technology you have mastered.”

Master Hammer finished speaking to David and Hu Mazi. I found a piece of spiritual ore, and began to refine it!

David and Hu Mazi followed suit and smashed down the spirit ore with the big hammer in their hands!

However, after they smashed it down with a hammer, although the spirit ore was shattered, the essence of the core was not revealed, and there were still many impurities mixed with the essence of the spirit ore!

Seeing this, David and Hu Mazi had no choice but to smash it down again with a sledgehammer. They didn't know how many times they smashed it down until they were sweating profusely and out of breath, and finally purified a piece of Lingshi mine!

An essence ore of all sizes appeared in front of David and the others, but at this time Master Hammer had already purified more than a dozen pieces of essence ore!

"This... we are too slow..."

Hu Mazi said with a dejected expression on his face.

"You have just learned how to purify spirit ores. You need to keep pity and increase your proficiency, and your speed will gradually increase..."

Master Iron Hammer comforted David and Hu Mazi!

David and Hu Mazi nodded, and began to refine the spirit ore. Chen calmed down and practiced while thinking about it!

At this moment, there were continuous clanging sounds in the entire mine.

But as Davidling's ore was purified faster and faster, he was surprised to find that there was an extra forging power in his body, and this forging power kept wandering in the dantian, and David's strength was also unknown. Unknowingly growing!

Seeing this, David worked even harder, swinging the big hammer vigorously...

I don't know how long it has passed, and I don't know whether it is night or day. At this moment, in front of David and the others, there are already hundreds of dead The purified essence spirit ore!

Master Hammer was already so tired that he was about to collapse, the forging hammer in his hand also began to become illusory, and finally disappeared slowly!

The hammer master consumed a lot, so in the end the forging hammer could not be solidified, but dissipated!

"With so many purified spirit ores, those armor-piercing beasts should be able to move."

Master Hammer said with a breath!

"Master Iron Hammer, you rest here first, I will send these spirit ores to some armor-piercing beasts..."

David said, put the spirit ores in the storage ring, and then walked towards the entrance of the cave!

When they came to the entrance of the mine, several dying armor-piercing beasts became a little restless after seeing David, and their eyes were full of longing!

David hurriedly took out the purified spirit ores, and several armor-piercing beasts swarmed and began to devour them!

Hundreds of spirit ores were swallowed by a few armor-piercing beasts in the blink of an eye!

After eating these spirit ores, the aura of the armor-piercing beasts improved a lot!

Chapter 2471

"Young man, thank you..."

At this moment, an armor-piercing beast said to David!

David was taken aback, he didn't expect this armor-piercing beast to be able to speak!

"You guys can talk?" David was very surprised!

"Nonsense, we have practiced for thousands of years. If it weren't for the fact that we have been hungry for more than ten years, we might be able to transform into human forms now, so what's the point of speaking.

"Live the same life as you humans!" the

armor-piercing beast said to David!

"Demon King City?" David was taken aback for a moment, not knowing where this Demon King City was, it should belong to the territory of monsters!

"I told you that you don't understand, but judging by the aura on your body, you don't look like a person from the world of heaven and man. Where is Master Hammer? I want to know where all the people from the Artifact Sect have gone to in the past ten years?"

"We worked diligently to mine spirit ores in the mine, but we didn't expect that no one would come to the mine again." The

armor-piercing beast asked David!

"Senior, something happened to the Artifact Refining Sect more than ten years ago. It was destroyed by the Fire Fenzong. The master of the Artifact Refining Sect was also taken away. Master Iron Hammer fled to the secular world to save his life. Come to the mine."

David hurriedly explained!

"Destroyed?" The armor-piercing beast's tone was obviously surprised. "I didn't expect humans to treat their compatriots so viciously."

After finishing speaking, the armor-piercing beast continued, "Is Master Hammer deep in the mine? Take us to find it." He, the essence of those spirit ores just now is only enough for us to maintain our actions temporarily, and this essence ore is not enough if we want to eat enough!"

David nodded, and headed towards the depths of the mine with a few armor-piercing beasts go!

They soon found Master Hammer and Hu Mazi. They were both lying on the ground because of the purification of the spirit ore, and they were too tired to stand up!

Master Hammer saw that several armor-piercing beasts could move, and he was overjoyed!

"You guys have finally recovered. I know that those essence ores can't satisfy you at all, but the three of us are really unable to continue refining the ores. We need to take a break!

" Continue to refine it for you, please wait patiently for a few days..."

Master Hammer said to several armor-piercing beasts very politely!

"No problem, with these essence ores, we can last for a few years."

An armor-piercing beast said!

But David is not willing at this time, he doesn't have time to wait here, to purify the ore for these armor-piercing beasts, the spirit energy recovery array will start soon, David has to rush back as soon as possible.

"Master Iron Hammer, we have to rush back to the secular world as soon as possible, so we can't stay here for long!"

"I can continue to refine now, but the level of these spirit ores is too low. Are there any high-level, high-level purification spirit ores?" , can also make a few senior armor-piercing beasts recover quickly!"

David said to Master Hammer!

Master Iron Hammer glanced at David and said, "You have just learned the forging and purification technique. It would be good if this level of spirit ore can be hammered to purify the essence. Do you still want to purify high-level spirit ore?"

David did not speak, but chose He smashed a large piece of spirit ore, and then smashed it down with a hammer. The hard spirit ore burst instantly, and a large amount of impurities turned into powder!

An ore essence that was bigger than a fist was left behind. The crystal clear ore essence exudes aura and light, making people feel this aura and feel extremely comfortable!

Master Iron Hammer looked at the ore essence purified by David, and he was stunned. Even if he made a move, this kind of spirit ore could not be purified with a hammer, and the ore essence purified by David was obviously pure Incomparable, without the slightest impurity!
