## Chapter 2476

Celestial Realm!

David was working hard to run the Concentration Art, absorbing the energy of Phosphorite to cultivate!

Time flies, day and night alternate!

Half a month passed in the blink of an eye, and David absorbed the last trace of energy in the Phosphorite!

The golden phosphorite, which was originally dazzling with golden light, has now turned gray and turned into an ordinary stone!

Seeing David waking up from his practice, Hu Mazi hurriedly asked, "David, what are you doing now? I feel that your aura has changed several times."

David breathed out a foul breath, feeling the sudden surge in his body. Power, a brilliance flashed in his eyes!

"I have already reached the sixth grade of the transformation realm. If I can have one more gold phosphorite, I may be able to reach the peak of the transformation realm, or even break through the transformation realm..."

David said with emotion!

When Hu Mazi heard this, he curled his lips and said, "Your body is too perverted. The energy in this phosphite is like a vast ocean. In your hands, this kind of thing can only raise you to a few small realms. "

"I don't know. If you cultivate to the point where you will ascend to the point of transcending the catastrophe and become a real immortal, what a huge amount of resources you will need. I am afraid that even if the resources of the entire celestial world are given to you, you may not be able to successfully overcome the catastrophe."

Hu Mazi I was very surprised at the huge amount of resources David needed. According to the improvement of David's level, he would need more and more resources in the future. Perhaps the world of heaven and man would not be able to hold a giant Buddha like David!

"I don't know why the resources I need to improve my realm are different from other people's. It may be related to the magic formula I practiced. Now that I have reached the sixth stage of transformation, I don't know if I can retract the dragon bell at will! "

David really wanted to know how far he had controlled the Dragon Pattern Bell!

If he could freely retract and control the dragon pattern clock at will, then this dragon pattern clock would be David's trump card and his life-saving means!

But when David was about to take out the Dragon Pattern Clock to try, Hu Mazi hurriedly stopped him.

"Don't try it here again. If you try it, the breath will spread to the surroundings, and it is very likely to attract people from other sects in the world of heaven and man. How can we leave by then!"

"You are trying when you return to the secular world Well, anyway, you are not suppressed by the laws of heaven and earth..."

Hu Mazi followed David and said!

As soon as David heard that it made sense, he put away the idea of trying the Dragon Pattern Clock!

Then he took out the God King Bow from the storage ring, and David put his right hand on the bowstring, and with a sudden force, he pulled the bowstring to full in an instant!

Between heaven and earth, countless various forces began to gather on David's bowstring!

An arrow feather appeared, shining with golden light!

As David struggled to pull the bowstring, gritted his teeth and persisted, the golden arrow feathers slowly turned into transparent white!

Whoosh...

David let go of his hand, the arrow feather pierced the sky like a meteor, and then penetrated the void, directly shooting the void out of a huge black hole!

There is turbulent flow in the black hole, and there are constant whirlpools of airflow!

"It's done, let's go..."

David saw that the passage to the secular world had been opened by himself, so he happily called Hu Mazi and jumped up!

The sword spirit Zhongli turned into the dragon-slaying sword and directly entered David's body!

After all, it takes a lot of physical strength to cross this kind of passage, and you need to resist the turbulent flow in the black hole passage!

The figures of David and Hu Mazi disappeared, and the black hole channel slowly closed, disappearing without a trace!

But not long after David and the others left, a white-haired old man came to the place where David and the others had just stood with a man and a woman in Taoist robes!

“Master, what did you bring us here for? Aren’t we going to Wujue Temple?”

The female Daoist teacher asked puzzledly.

The white-haired old man looked around, frowned slightly and said, “It’s strange, it’s really strange, just now there seemed to be the aura of the bow of the god king. Could it be that I felt wrong?”

After finishing speaking, the white-haired old man waved his whisk, and the three figures instantly appeared disappeared!
