## Novel

### Chapter 2522

In the depths of the clan of demon wolves, Ali and others are fighting bloody battles with the demon wolves. Several demon wolves have died in front of them, but there are more demon wolves staring at them.

Ali and the others were also injured all over their bodies, retreating while fighting, but facing so many demon wolves, it was only a matter of time before they were buried in the mouths of demon wolves!

But the wolf leader didn't seem to be in a hurry to kill Ali and the others, he just surrounded Ali and the others with a pack of wolves and kept pushing Ali and the others into the depths of the mountains!

If these demon wolves want to kill Ali and the others, they only need to swarm up, but the leader of the demon wolves didn't do that. He just sent one or two demon wolves to attack Ali and the others!

"I'm sorry to everyone, it was I who harmed everyone, if we don't run in here, maybe we still have the possibility of surviving..."

Seeing everyone exhausted and covered in blood, Ali was suddenly very sad!

If he hadn't brought everyone into the clan of the demon wolf to avoid being hunted down by the people of Daqing Village, he wouldn't have become what he is now!

Even if the people of Daqing Village kill them, it is impossible to kill them all, but now these demon wolves will not let any of them go!

"Ali brother, we don't blame you, since we are so lucky, let's fight with these monster wolves!"

said a villager of Dashi Village!

"Ali, you did a great job. You did it for our own good. No one will blame you. It's a pity that after we die, life in Dashi Village will be even more difficult!"

said an elderly Dashi villager!

"I'm not afraid of death, it's just that I'm dead. What about grandma? Her eyes haven't healed yet..."

Yun'er looked down. She wasn't afraid of death, but just worried that the old lady would be left alone!

"Zhuzi ran back to the village, maybe he will bring the old village chief and the others to rescue us!"

Someone said optimistically!

"Impossible, this place is too far away from Dashi Village, and even if the old village head brings everyone to rescue, I'm afraid they are not the opponents of these monster wolves. It's better not to let them come to save them than to die at the mouth of monster wolves! "

said the elder Dashi villager!

For a moment, pessimistic emotions filled the hearts of all the villagers in Dashi Village!

"All of us spelled it out, we can't go to the depths anymore, these monster wolves deliberately drove us to the depths, maybe it's their wolf den, we can't retreat any longer, fight out desperately!"

Ali Holding the weapon, he said in a deep voice!

Everyone nodded their heads, tightly clutching the weapons in their hands, they had already discovered the plan of the wolves!

"Kill..."

Ali roared, and rushed towards the pack of wolves first!

"Kill..."

Everyone in Dashi Village rushed forward, and people can only explode with full strength when they are in despair!

"Oh..."

Seeing this, a demon wolf rushed towards Ali who was in the front!

Whoosh...

But just as the wolf was rushing in front of Ali, an arrow feather shot from the side suddenly, piercing through the neck of the wolf in an instant, and then with huge force, it directly smashed the whole wolf. The demon wolf flew out, and then nailed it fiercely to the tree!

This sudden change made Ali and the others stunned for a moment, and even those monster wolves turned their heads one after another, as if they felt the danger!

"Brother David, you...you are amazing..."

Zhu Zi looked at the wolf nailed to the tree, and suddenly said excitedly!

At this time, David was holding the bow and arrow of the pillar in his hand, and he shot that arrow just now!

Zhuzi's bow and arrow are just mortal things. If David regains his strength and takes out the God King Bow, at least half of these demon wolves will die with one arrow!

"Brother David..."

"David..."

Ali and Yun'er shouted in shock after seeing David and Zhuzi!
