

The Ex-Husband's Revenge By Dragonsky

Chapter 2405

Chapter 2405

"Indeed!" Alfred nodded and turned to look at Leon, "Leon, where's the Demon Lord's body? I came to take his body back for a DNA test."

Though he already checked the body and identified the body, he needed to act according to the rules of the Dragon Corps and take the body to the National Security Department for proper verification.

This was the main reason he came to Leon.

On top of that, the Demon Lord came from the central region, so he planned to hand the body over to Zach once the test was completed.

"Oh, I had my men watch over the body," Leon said.

He knew about the required procedures in the Dragon Corps, so when he ordered Chandler, Mason, and the others to clean the area, he arranged for Spencer and Stephen to store the Demon Lord's body elsewhere.

He called Spencer and ordered him to bring the Demon Lord's body over.

Shortly after, footsteps approach, spencer and Stephen arrived carrying a stretcher; on top of the stretcher was the Demon Lord's body, covered by a white cloth.

"Mister Wolf, here's the body of the Demon Lord," Spencer said.

"Alright. That's all. You may leave," Leon said after gesturing to the Sharp brothers to lay the Demon Lord's body before Alfred.

With that, Spencer and Stephen left.

'Is this the Demon Lord's body?'

Zach and the other Dragon Guards from the central region exchanged looks of bewilderment as they studied the body covered by a white cloth.

None of them believed that Leon truly killed the Demon Lord.

'Mister Jubert, if you have doubts, please lift the white cloth and see for yourself,' Alfred said with a smile.

"Very well. Let me see if the Demon Lord's truly dead," Zach said, lifting the cloth.

The Demon Lord's lifeless body was revealed.

'This is the Demon Lord!!!!' Zach and the other Dragon Guards from the central region were all stunned.

Since they all came from the southern region, they knew everything about the Demon Lord, and judging from the chrematistics of the body before them, they were certain that the body belonged to the Demon Lord.

"This is wonderful! So Mister Wolf did kill the Demon Lord! What a heroic young man! Mister Wolf, you're amazing. You have my respect!" Zach recovered from the initial shock and burst into laughter.

The Demon Lord was formidable and extremely skilled at covering his track.

The Dragon Guards from the central region attempted to launch attacks on the Demon Lord multiple times but always failed.

To their bewilderment, Leon, a mere fifth-level Platinum Dragon Guard, managed to kill the Demon Lord.

It was practically a miracle.

Zach underestimated Leon because of his age and realized at this moment that Leon was far more capable than he originally imagined.

The others from the central region felt the same and all turned to Leon with respect.
