

## Chapter 607 Leaving For The Delta Region

---

Memories of past foes raced through Liam's thoughts. He muttered to himself with determination, "None of them will escape this time!"

Liam then dialed his grandfather's number. He needed to inform him about the impending battle against the Black Spider.

His intention was to keep the Hoffman family uninvolved and to spare them from any entanglement, not to seek their help.

"Grandpa, there's been an incident. Julie was kidnapped and taken to the delta region by the Black Spider. I've decided to head there and wipe out the Black Spider for good!"

Liam's voice carried unwavering resolve. However, Sergio's response was stern and unwavering as well. "Absolutely not! It's far too dangerous. I'll assign

someone to handle it. Wait for my updates."

Despite his grandfather's insistence, Liam couldn't find peace. Julie's safety was at stake. He needed to be there, and he was resolute on personally taking revenge on the Black Spider!

Sergio lapsed into a thoughtful silence. Old, painful memories came to his mind. After careful contemplation, he said softly, "Reflect on this, Liam. Even the Dark Night Organization would be in grave danger there."

Usually compliant before his grandfather, Liam was determined to disobey this time.

With no hesitation, he pressed on, "Grandpa, I must go to the delta region. My mind is made!"

Liam's words were loud and resolute.

Accepting that he couldn't dissuade Liam, Sergio sighed and conceded.

"Very well, if you're set on it, remember to hide your identity. Also remember that the delta region is the Duncan

family's domain."

Then, Sergio, deeply concerned for Liam, delved into the complex dynamics of the delta region.

Invone wasn't only home to four prominent clans, but five, including the Duncan family. But, due to their illicit operations and unruly conduct, the townsfolk grew intolerant. Ultimately, the Hoffman family, with allied support, sent the Duncan family to the delta region.

In essence, the Duncan family held the most resentment against the Hoffmans. But the truth was, Sergio didn't reveal the ultimate reason behind this.

Although all four clans had some power in the delta region, it was the Duncan family's territory. Black Spider's headquarters was also located there and was run by the Duncan family.

Effectively, after years of dominating the area, the Duncan family now had the strength that could rival the Hoffmans', and the Sandovals were

formidable there too.

If Liam's identity came to light there, his fate would be grim.

Listening closely, Liam pondered deeply. Indeed, his plan aligned with his grandfather's counsel.

His primary goal in the delta region was to rescue his lover. Hiding his identity would facilitate his mission.

Liam nodded solemnly and promised, "Alright, Grandpa. I'll exercise caution."

Sergio, slightly relieved, added, "Don't worry, I'll offer my full support. Theo will maintain communication with you to monitor your moves in the delta region. Also, don't worry about Kingland Group. I'll send someone to oversee it!"

After he said this, Sergio ended the call. Theo, who'd been present looked as worried as Sergio.

Theo hesitated, then voiced his worry in a hushed tone. "Mr. Hoffman, shouldn't you tell him that his parents vanished in the delta region?"

Sergio stood with deep gaze and clasped

his hands behind him. With worry, he shared, "I'm left with no option. I wish he wouldn't go, but you and I both know Liam well. Even if he doesn't go to rescue her now, he'll inevitably go there, sooner or later. I'm powerless in this matter. My only hope is for his plan to unfold without a hitch."

Seeing Sergio's demeanor, Theo sought to console him, "Mr. Hoffman, try to put your mind at ease. We're both well aware of his capabilities. His journey will unfold smoothly, and all shall end well."

## Chapter 608 The Only Way He Could Protect...

---

Once he made up his mind to go to the delta region to save Julie, Liam called for a senior executive meeting of Kingland Group.

In the meeting, he asked all departments to sort out the latest data and financial statements, and prepared to hand over Kingland Group at any time.

He also put Riel in charge of Ulises' funeral.

As for Julie's Pearl Company, Liam had an elite team of Kingland Group take charge of it.

He had to take care of everything first to be able to focus solely on saving Julie.

Everything was in place. But before leaving, he had one last thing to do.

Liam walked through Central Hospital and went to Jaxtyn's ward.

The only sound that broke the stillness of the ward was the sound of the electrocardiogram monitor. Lying unconscious on the bed, Jaxtyn looked good.

Annie, on the other hand, was awake, but looked haggard and lifeless.

This was the horrible scene Liam saw every time he came here. And each time he saw those lifeless eyes of Annie's, it felt like a knife was being pierced right into his heart.

Every time, Liam came to Jaxtyn's ward in fear. The guilt and pain he felt was overwhelming. It was his fault that Annie and Jaxtyn were in this situation. Annie hadn't left the ward ever since. She was in her own world in here. She didn't even know that Julie had been attacked. She just sat by Jaxtyn's bed like a zombie.

Feeling a presence in the room, Annie raised her head slightly and saw Liam. Then, she looked back down.

The only person in her world right now

Chapter 608 The Only Way He Could Protect What Was His  
was the unconscious Jaxtyn.

This sight broke Liam's heart. Annie's lover was in a vegetative state, while his own sweetheart had been kidnapped. It was impossible to say who was more miserable than the other.

Looking at Annie's state, Liam preferred to keep Julie's kidnapping to himself.

The best way to protect Annie right now was to spare her from sordid information. If she knew that Julie was kidnapped, her current state would probably get worse.

After a moment of silence, he told Annie, "I'll be away for a while. I'm going to the delta region to deal with the Black Spider. I'll find the doctor from the Black Spider there. I believe there should be a way to put Jaxtyn on his feet again."

Annie didn't respond. Her eyes were still empty.

Liam tried to keep his pain bottled up and said comfortingly, "Annie, think of Jaxtyn and try cheering up. You should

Chapter 608 The Only Way He Could Protect What Was His  
go out and get some fresh air  
sometimes. Jaxtyn won't be happy to  
wake and see you looking like this."

At this, Annie's numb expression finally  
changed a little, as if she suddenly had  
a little glimmer of hope.

She wanted to say something, but she  
hadn't spoken for so long, and her voice  
was hoarse. After trying for a while, she  
finally settled with a nod.

That was more than enough to give Liam  
some hope. This was the biggest  
reaction he had gotten from her in the  
past few days.

However, it wasn't nearly enough.

As long as the people who brought them  
this misery still walked the earth, their  
lives would be forever filled with pain.

Liam's eyes sharpened as his  
determination grew. Just for the sake of  
his family and friends, he was going to  
dispose of all their enemies.

This was the only way he could protect  
what was his.

## Chapter 609 Rape

---

Meanwhile, Cannon's temporary residence was situated in the small city of Tihirang, nestled on the border of the land of Mosaico.

Around the house, a number of guards stood watch. Their task extended beyond merely ensuring Cannon's safety. It also involved preventing him from stirring up any more chaos.

Cannon remained in a state of loud agitation in the room. "What a wretched place! I'll choke in this stifling hole. I'll tear you apart if I go insane! Mark my words. If you want to stay alive, return me to the delta region immediately!"

With Cannon's menacing threats, the guards' expressions hardened. It wasn't hidden that Cannon was unbalanced. Whether he was on the brink of a mental breakdown or not, the guards genuinely feared that Cannon could indeed execute his threats!

Although they were terrified, the guards could only shake their heads helplessly. Rennes had issued his orders, and even if their lives were at stake today, none dared to release him.

Just as Cannon vented his frustration, Black Fiend swiftly appeared at the door along with Julie and Nalani.

When Cannon saw Black Fiend return successfully with two women, his spirits soared.

"Damn it! Black Fiend, my estimation of you was spot-on. You've even brought an extra beauty along. You understand me perfectly. It's been ages since I had a threesome. Take them to my room, will you!"

Cannon burst into laughter. Just before stepping inside, he turned around to berate the guards, "You lot lucked out. I'll settle with you when I'm through here."

In the room, Julie was wounded and her face was pale. She was still unconscious. Nalani regained consciousness first.

Looking around the unfamiliar surroundings, she felt a profound apprehension.

At this time, Cannon entered the room, sporting a lecherous grin. He muttered to himself, "These past few days have truly tried my patience. Finally, I have a chance to enjoy two bodies. This is fucking awesome!"

Then, he started to scrutinize the two women in the room. Gazing upon the still-unconscious Julie, he expressed his dissatisfaction. "Damn it! Why is the other woman unconscious? Boring!"

Following that, Cannon's covetous gaze turned to Nalani. Rubbing his hands together, he smirked, "Thank heavens, one of you is lucid. You can have a go with me first. After all, it's still early."

With those words, he lunged toward Nalani and groped her body.

Nalani's complexion turned ashen and her reflexes propelled her to resist!

Smack!

During their tussle, Cannon was dealt

a resounding slap across the face.

Caught slightly off-guard by the slap, Cannon blinked. Despite his years of experience with women, this marked the first time a woman had slapped him. He was instantly infuriated and retaliated with a slap of his own.

The force of the slap left an immediate red welt on Nalani's face, and nearly caused her to lose consciousness again.

"Damn it! I fucking hate when women struggle when I try to play with them. Cooperate, or I'll sever your damn breasts and toss them to the hounds!" Cannon snarled menacingly.

Nalani's eyes harbored resentment, yet she was already shell-shocked by Cannon's demeanor, rendering her body incapable of resistance. It was clear to her that the man before her was utterly deranged.

Seeing this, Cannon was excited and unreservedly explored Nalani's form!

However, Nalani's eyes became vacant as she feigned obliviousness. Persisting

in her struggle would only exacerbate her predicament, rather than help her escape Cannon's grips.

Nalani, who had stopped struggling, looked at Julie with bitter eyes. She muttered curses under her breath and formulated a plan.

She must survive and kill Julie! Only then could she be with Liam again!

And eventually, these harrowing memories would be expunged.

## Chapter 610 Tragic Resistance

---

Cannon swiftly removed Nalani's clothes and wore an unpleasant grin as he had sex with her violently.

For Nalani, an overwhelming sensation of pressure bore down on her, along with an excruciating pain in her private part.

Through this ordeal, Nalani gradually understood her situation and regained a semblance of composure.

Although she was being raped, Nalani believed that her sense of self remained intact. The crucial matter was how to handle Julie.

She seemed to detach herself from the physical discomfort. She was absorbed in plotting a way to deal with Julie.

About thirty minutes later, Cannon eventually stood up and berated, "Damn it! Not even a moan. This was utterly boring. But mark my words. I'll kill you.

one way or another!

Nalani blinked her eyes and acted like she was in distress. Her eyes welled up with tears as she said, "It was my first time, and I'm so inexperienced."

Cannon's demeanor shifted instantly when he heard this. He laughed lecherously and said, "Oh, so you were a virgin? Well, that explains why it felt so tight. Don't worry, from now on, you'll be with me, and I assure you a comfortable life."

Having successfully executed the initial stage of her plan, Nalani placed her hand on Cannon innocently.

Her actions were guided by the understanding that this simple-minded man was an easy mark for her deception.

This marked the beginning of her strategy. Gradually, as circumstances allowed, Nalani began, "Mr. Duncan, don't you desire to have sex with Julie? But I don't think it would be so easy!"

Cannon smirked confidently and

responded, "Ha! She's under my control now. I'll make her do whatever I want. What's difficult about that?"

Nalani sneered, "Knowing her as I do, she won't yield to you. She'll fight you with all her might. Won't that be a disappointment?"

Cannon eyed her suspiciously. He sensed Nalani's enmity toward Julie and realized she was scheming to make Julie suffer as well.

To the outside world, Cannon was deemed mentally unstable. Little did they know that he had actually been cured long ago.

His feigned idiocy was a calculated ploy. And while Nalani could fool the gullible, she couldn't hoodwink a man who had fully recovered.

Regardless, Cannon carried Julie to the bed and proceeded to strip her clothes away.

The prolonged journey had left Julie in a state between deep unconsciousness and semi-consciousness. In this hazy

state, she felt someone touching her private part. This prompted her to wake up.

Blinking open her eyes, Julie saw something taking off her pants. The culprit was Cannon, who had long harbored a predatory fascination for her.

"No!"

Julie's scream was followed by a valiant struggle.

In a desperate bid to prevent what was about to happen to her, Julie fought with all her might. She even resorted to biting Cannon.

Cannon hadn't expected such strength from the woman before him. Taken aback by Julie's bite, he lashed out and landed a harsh kick to her abdomen.

Driven by instinct, Cannon's forceful kick met its target, causing Julie to faint instantly. The trauma of the kick also aggravated her prior wound in her belly.

Blood immediately soaked the whole bed sheet and clothes and flowed to the floor!

## Chapter 611 Rennes's Instruction

---

Cannon put on an act of surprise and exclaimed, "Oh no! Thankfully, I didn't do it. If I'd started and was stopped halfway by this scene, I'd be so scared as to become impotent, wouldn't I?"

Nalani appeared worried, but secretly she chuckled to herself.

She didn't care if Julie was dead or alive. She had no feelings for her. At this moment, she relished in the success of her plan.

Frustrated, Cannon shouted at the guards outside the window, "This is boring! Guards, take this bitch to a private hospital. Tell the doctor I haven't done anything with her yet. She can't just die!"

As the guards carried the severely injured and unconscious Julie away, Cannon abruptly turned to Nalani. His demeanor transformed into a fierce one,

Chapter 611 Rennes's Instruction  
revealing his true self.

"Did you really think you could manipulate me that easily?"

Startled, Nalani hadn't expected that the fool could see through her scheme. She wanted to explain, but her nerves rendered her speechless.

Cannon grabbed her face firmly and a sneer played on his lips. "I'll let it pass this time, but from now on, you're at my service. I assure you boundless riches. Spare me your tricks. If you have a problem with someone, tell me directly. I fear no one!"

Totally taken aback, Nalani could only timidly nod.

At that moment, Rennes entered the gate with a composed demeanor. The guards carrying Julie showed great deference by setting her stretcher down and bowing.

When Rennes saw Julie on the stretcher, a flicker of surprise crossed his usually calm gaze. He immediately asked, "Who is this woman? Why is she here?"

A guard promptly recounted all he knew to Rennes. Rennes furrowed his brows briefly, but didn't dwell on it. He then proceeded into Cannon's room.

Cannon, who was still naked, was caught off guard by Rennes' entrance. Exasperated, Rennes scolded, "All you do is drown yourself in alcohol and sex. Sooner or later, you'll disable yourself!"

Before his elder brother, Cannon was unusually submissive, so he hastily put on his clothes.

Shooting a cold glance at Nalani, Rennes addressed Cannon, "We're planning to sell a batch of goods. This is a chance for you to return to the delta region. Take your men and oversee the merchandise."

As his older brother, Rennes understood that Cannon had recovered from his mental ailment and was just putting on a reckless act. He wouldn't entrust the task of guarding the goods to him if he wasn't sure.

Elated, Cannon replied, "No worries, Rennes. I'll handle the goods

responsibly!"

Without a doubt, Cannon wouldn't decline such an offer. Having been confined for so long, he wouldn't miss a chance to leave. He didn't even bother to pack up his things and pulled Nalani out.

However, Rennes stopped Nalani in her tracks. He said with a cold voice, "If you're going out, focus on your tasks. When it comes to women, save your dalliances for when you return."

Cannon felt a pang of displeasure as Rennes restrained his woman. Just as he was about to retort, Rennes continued, "I understand your thoughts, but our big brother will arrive soon. Don't stir up anything that might displease him."

This directive quelled Cannon's defiance instantly. Though his expression remained grim, he abstained from further argument and readied himself to leave.

## Chapter 612 The Situation

But Rennes halted Cannon again and said with a cold tone, "Why the rush? I'm not done talking yet."

Cannon's face twisted in frustration. "If you have something else to say, say it all. I'm tired of staying here!"

Ignoring Cannon's impatience, Rennes continued his instructions. "While you are out there, there's another task for you. News has come from the rare-earth mine that the Hoffman family plans to send someone from the mainland to investigate the traitor. Be cooperative with the person. But if things go awry, make a bold move and destroy the Dark Night Organization there. We want them to understand who is in control of the delta region."

Cannon furrowed his brow and voiced his concern. "I'm fine with that, but what if that brat sells us out?"

Rennes' gaze turned icy when he heard

this. "Don't worry about that. Just focus on your task."

At the airport in the northern part of Salem.

On the private plane, Liam finally met Theo.

Theo stretched out a document to him. Liam collected the document and went through it. It contained all the details for his fake identity.

He would be assuming the role of Javen Rivera, a second-rank member of the Dark Night Organization. His mission was to take charge of the rare-earth mine affairs in the delta region."

When Liam was skimming through the document, Theo inquired, "Mr. Hoffman, how do you plan to rescue Miss Fiber?"

Liam's expression turned cold as he said with determination, "It's simple. I'll wipe out the entire Black Spider and then get her back."

Hearing this, Theo shook his head and said with a serious tone, "No, it won't work. You can't destroy the entire Black

Spider, let alone rescue her."

He continued to clarify before Liam could counter him, "You might not be aware, but the core Black Spider members aren't in the delta region. They're scattered across smaller cities in Mosaico and Kuba, closely connected with the Duncan family. They don't have a central base. To save her, you can't confront them directly. This is one reason your grandfather has you assume a false identity this time."

Liam frowned, realizing he had overlooked this fact.

But then, how could he possibly defeat them?

Theo explained further, "Your grandfather has everything planned out. Taking control of the rare-earth mine is crucial. The Dark Night Organization of the Hoffman family and the Black Spider control different parts in the delta region. Owning the rare-earth mine gives us a significant advantage."

Liam continued to ask, "Does it have anything to do with me saving her?"

Theo waved his hand and said, "We've discovered a traitor within the Dark Night Organization connected to the rare-earth mine. This traitor has direct links to the top ranks of the Black Spider. Capturing him will lead us to their hideout. We shouldn't alert them now. We'll deal with the Black Spider once Julie is safe."

With this, Liam finally understood that the delta region was far more complex than he'd thought.

However, Liam was undeterred. He was very confident in his strength.

The Black Spider shouldn't have harmed Julie. Since they'd made this move, no matter how daunting the task, Liam was determined to make them pay!
