

An Understated Dominance By Marina Vittori

Chapter 1889

Chapter 1889

King Kong and Albert maintained the same posture, facing Ji Yuan with heavy pressure of respect.

In front of the giant King Kong, Ji Yuanzun's figure was as small as an ant, as if he could be crushed into mud with just a light touch.

"Seven kills!"

At the same time as Albert attacked, Dustin also moved.

His eyes were wide open with anger, his whole body's energy was concentrated in the Sky Sword, and he followed with a sharp step.

"Whoosh!"

Dustin's swords merged into one, turning into a black light, and suddenly stabbed Ji Yuanzun's heart.

"Haoran is righteous!"

Seeing that Dustin and Albert were already fighting for their lives, Ji Yuanzun did not dare to be too bold and immediately used his own defensive skills.

His body was shaken, and a large amount of white breath spurted out, forming a circular light mask around it.

The light mask is covered with dense runes, which are looming, mysterious and strange.

"Boom!"

There was a loud noise.

Albert's Vajra Prajna Palm struck firmly on the white light mask above Ji Yuanzun's head.

The light shield vibrated for a while, like water, splashing out ripples, and the mysterious runes on it suddenly brightened.

"Boom!"

There was another loud noise.

Dustin's fatal sword also stabbed hard on the white light shield.

The same as Albert's situation, the Sky Sword did not directly pierce the mask, but spattered a large number of ripples on the surface of the mask.

Albert's Vajra Prajna Palm stopped on the surface of the mask and kept pressing down.

Dustin's Sky Sword thrust forward desperately.

The two of them moved forward and upward, applying pressure from two directions.

This is their strongest blow so far. If they cannot break the light shield and severely injure Ji Yuanzun, all their efforts will be in vain.

"Boom!" Wave

after wave of powerful energy erupted from Dustin and Albert's bodies.

At this moment, neither of them held back at all, frantically attacking the light shield, squeezing out the last bit of their own potential.

"Kaka...kaka..."

Under the desperate impact of Dustin and the other two, cracks finally appeared in Ji Yuanzun's protective light shield.

And these cracks are still spreading rapidly.

"Huh? How could this happen?"

Ji Yuanzun's expression changed and he was frightened.

His awe-inspiring righteousness and extremely strong defense can't be broken by anyone at the same level.

He really didn't expect that Dustin's strength after fighting Albert would be so strong that even he felt threatened.

The Rhys Family's secret method cannot be underestimated.

"What are you doing standing still? Come here and help!"

At this moment, Ji Yuanzun finally couldn't help it anymore and began to ask for help from the people behind him.

He thought he could win easily with one against two, but he never thought that he underestimated his opponent, which led to the current situation.

Of course, he also knew that this was the strongest attack between the two of them, and if they had to withstand it, they could easily win.

"Lord Pavilion Master! I'm here to help you!"

Seeing that the time had come, Dustin Kate took a step forward and turned into an afterimage, running towards the center of the battlefield.

"Well done!"

Ji Yuanzun looked happy and said quickly: "Dustin and Albert have been implicated by me. They have no ability to resist at all. You can deal with Dustin first, and leave Albert to me!"

"No problem!"

After getting closer, Dustin Kate's eyes flashed with coldness, and he suddenly took out a hidden weapon and stabbed Ji Yuanzun in the back.

"Whoops!"

A poison needle shot out from the hidden weapon, passed through the crack in the light shield, and shot directly into Ji Yuanzun's body.

This is clearly the God-Destroying Poison!
