

Chapter 114 Public Opinion Attack

Several days had passed since the rumor of Sabrina intervening in the relationship between Tyrone and Galilea started to circulate, and yet it remained the town's favorite topic. No matter the news about Galilea, Sabrina's name would inevitably surface in the comments. ⓘ

Galilea's birthday party had been a few days ago, and predictably, her followers once again took the opportunity to verbally lash out at Sabrina online.

Yet some individuals, swayed by her father's influence, defended Sabrina, attributing the entire scandal to a media farce, pointing out Sabrina's calm demeanor during a recent press conference as evidence.

Nevertheless, most of Galilea's fans remained unconvinced, and the truth of the matter remained unresolved.

Kylan called, alerted by the media's insistence on reviving the old story.

Tyrone and Sabrina had once again become the topic of discussion.

But this time, the news was armed with supposed proof. Several videos surfaced showing Tyrone and Sabrina departing together. Some even captured snapshots of them in a jewelry store, while others produced images

of them emerging from the same car in Blakely Group's underground garage.

The abundance of such evidence made it difficult to simply pass off their relationship as platonic sibling love.

The news first surfaced through a blogger's post.

Along with providing evidence, the blogger shared a picture of written content, describing their observations and experiences from the perspective of someone familiar with Sabrina, Tyrone, and Galilea.

"I never imagined it would end like this. Tyrone and Galilea, once the picture-perfect couple during their university days, now torn apart. I think Tyrone still harbors feelings for Galilea, but...

I've had a few encounters with Sabrina. She struck me as quite presumptuous. Not long ago, a director of Blakely Group crossed paths with her and was consequently transferred. I wonder if this gives you a clearer picture.

The relationship between Tyrone and Sabrina were an open secret. That's why the media have their sights set on them. Sabrina is no fool. She likely planned to win Tyrone over first and then use that to her advantage. I've heard that during a party, Sabrina encouraged several friends to ply Tyrone with drinks. When he was sufficiently drunk and retired to his room, she followed.

After everything that's happened, how could Tyrone's grandfather not back her? Sabrina is quite resourceful.

Leveraging her father's donated liver, she's managed to stay within the Blakely family for many years. Couldn't Tyrone's grandfather have sourced the liver from elsewhere? Maybe he was forced to use Sabrina's father's liver."

Tyrone scanned all the statements. His brow furrowed and eyes narrowed.

The post incorporated some factual details, lending an air of credibility to the story, enough to fool anyone unaware of the true circumstances.

However, Tyrone knew that most of the post's content was speculative or outright fictitious.

For instance, three years ago, he was drugged, not drunk, and he entered Sabrina's room accidentally.

Nonetheless, these fabrications were the perfect fodder for the eager outsiders, matching their imagined truth.

A discerning eye would notice the inaccuracies upon careful reading.

At first glance, the post seemed plausible, but upon reevaluation, it was evident that the post was designed to target Sabrina. It appeared to critique Tyrone for his unfaithfulness to Galilea, while subtly including details that absolved him, redirecting the blame onto Sabrina.

Once the post caught the public's attention, high-profile bloggers amplified the scandal, causing it to escalate even further.

Under normal circumstances, Sabrina, an ordinary

individual, and Tyrone, a public figure but not a celebrity, wouldn't have attracted such widespread scrutiny.

However, the involvement of Galilea, a star, made the story go viral. In the eyes of the public, Galilea was portrayed as the victim.

As the fans were more likely to side with the familiar star than an unknown capitalist, those defending Sabrina and Tyrone were accused of attempting to whitewash her image.

Both of them swiftly became the internet's main targets of criticism.

Even Blakely Group's stock price started plummeting.

Unfazed, Tyrone dialed a number on his phone.

A few seconds later, his call was answered..

A man asked, "Mr. Blakely, what seems to be the problem?"

"I need you to unmask these bloggers within a day."

Tyrone's patience with the media had clearly been exhausted, their repeated provocations wearing thin on his tolerance.

"Rest easy. By tomorrow, you'll have your answer."

Once the call ended, Tyrone returned to the website.

Kylan had already instructed technicians to scrub the posts.

Switching off his phone, Tyrone retreated to the master bedroom, carefully shutting the door behind him.

"Aren't you leaving?"

Sabrina stirred, awoken by the sound. Her voice was still raspy with sleep as she squinted at Tyrone.

Seeing that Sabrina was awake, Tyrone approached the bedside, his brows furrowing. "Leave? To where?"

In the dim light, Sabrina merely gazed at Tyrone, staying silent.

He suddenly realized that she must have assumed he was on the phone with Galilea.

She probably thought he had been summoned away by Galilea since he had been away for so long.

When the idea crossed her mind, Sabrina didn't feel an overwhelming sadness.

She was either numb to it, or perhaps she just didn't care anymore.

She was well aware that the apparent harmony between her and Tyrone was merely to appease Cesar.

To her surprise, Tyrone had returned.

Tyrone slid under the covers, saying, "I was just on the phone with Kylan."

"Was there trouble at work?"

"It's nothing serious. Go back to sleep." Tyrone soothed her, pulling her into his arms.

Accepting his silence, Sabrina closed her eyes, surrendering to sleep once more.

The following morning, many people awoke to find the scandalous posts had vanished.

A few had even witnessed the posts being systematically

deleted.

Even hashtags concerning Sabrina and Tyrone had been scrubbed clean.

Despite the whispers, the controversy failed to reclaim the headlines.

This straightforward strategy was the most effective.

By stunting the spread of the controversy, time would handle the rest. Soon enough, the matter would be forgotten, and Sabrina's life could regain its tranquility.

However, the online gossips weren't ready to drop the subject just yet.

At eight in the morning, a blogger shared a screenshot with the caption: "Money flexing its power."

The image was a snapshot of a direct message. "Hi, I'm Tyrone Blakely's secretary. Your actions have infringed upon his privacy. We need to discuss the deletion of your post."

Once the screenshot went public, the haters renewed their attacks on Sabrina.

But since the hashtags had been erased, the post was only visible to a limited audience and couldn't gain significant traction online.

Nevertheless, Sabrina stumbled upon it.
