

The Ex-Husband's Revenge By Dragonsky

Chapter 2085

Chapter 2085

"Finally!" Leon scoffed. Although it was for a split second, he still managed to sense that the ring Rodney was wearing belonged to the Peak Emperor State!

Since he was only at the Intermediate Almighty State, this meant that he was yet to harness the powers necessary to defeat any attacks of the Peak Emperor State!

Just as he was about to use the Mirror of Sovereign to defend himself, however, he recalled the sage techniques that he newly acquired!

With that, Leon changed his mind and decided to put his sage techniques to use!

"Take this!" he yelled as he stepped forward, channeling all his sage energy into his index finger and utilizing the Earthly Plunder, a method that belonged to the Advanced Power class.

A surge of power was unleashed from his index finger and sped straight toward Rodney at breakneck speed!

"Is Mister Wolf trying to counter Rodney's attack with one finger?"

"Has he gone insane?"

Angus and Yuri were all stunned by this sight. They, like Leon, managed to figure out that Rodney employed his secret weapon.

However, not only was Leon daring enough to take Rodney's attack in stride, but he even dared to choose to do so with just one finger!

This was outrageous!

Angus and Yuri's hearts sank at this.

However, they were not the only ones dismayed by this; the audience was equally as gobsmacked by Leon's decision.

Although none of them could tell that Rodney's ring was an Almighty Weapon, they could still figure out that Leon and Rodney's combative abilities were on par with each other.

Now that Rodney chose to go all in, Leon was behaving very cockily and decided to counter Rodney's attack with just one finger!

This was the most foolish act any of them ever saw!

There was no doubt about it; Leon was going to pay the price for his arrogance!

"Very good! Let's take him down once and for all!" the Southern Boss burst into laughter as he cast Leon a look of disdain. He knew full well that Rodney employed his secret weapon, and since Leon was only at the Intermediate Emperor State, there was no way that Leon would be able to counter this, much less with just one finger!

Leon was as good as a piece of dead meat unless a miracle occurred by some chance!

However, what happened next shocked the Southern Boss to the core!

"Thud!"

With a deafening slam, Leon's Earthly Plunder slammed right into Rodney's attack, and, as everyone expected, Leon's entire body was propelled backward from the impact of Rodney's Almighty Weapon.

However, contrary to what all of them thought, Leon did not suffer any injuries from Rodney's attack at all.

"Die, you twat!" Rodney's face split apart into a triumphant grin. Then, without a moment's hesitation, he unleashed another attack in Leon's direction, intending to kill him once and for all!

However, this time, he did not even bother to conceal the ring's powerful energy and instead allowed it to leap right out in the open.

With that, a surge of Peak Emperor State energy gushed out from Rodney's ring and barreled straight toward Leon!

As for attempting to hide the truth from the audience; Rodney decided that it did not matter as much as killing Leon right on the spot!
