

# The Ex-Husband's Revenge By Dragonsky

Chapter 2143

Chapter 2143

"Mister Wolf, did you cripple the Third Guardian? How did you do it?"

Henry looked at the pathetic state the Third Guardian was in, and he was shocked and filled with disbelief!

He knew how strong the Third Guardian was, the man was already at the Almighty State!

Even after fighting the Third Guardian for so long, he was not able to do anything to the man!

Yet, he never would have dreamed that someone as young as Leon would have been able to stop the fleeing Third Guardian by himself, and even easily cripple the man!

It was just unbelievable.

It was obvious how shocked he was!

"That's right!"

"Leon, are you already at the Almighty State?"

Iris and Cynthia could not help but ask.

They were worried, not sure if Leon was a match for the Third Guardian!

Yet, they finally realized that Leon was much stronger than they thought. Even someone at the Almighty State lost to Leon!

It somewhat exceeded their expectations!

Of course, the fact that Leon managed to defeat the Third Guardian alone was enough to show that Leon's skills should already be at the Almighty State!

"Oh, more or less."

Leon smiled, not denying it.

His situation was a bit more complicated. He was only at the initial Golden Core Phase. It was only the equivalent of the intermediate Emperor State!

If he used the Mirror Of Sovereign, even martial artists at the Semi Almighty State would not be able to break his defenses!

Furthermore, he had the Dragon Pill. Coupled with the Mirror of Sovereign, it could increase his skill to the intermediate Almighty State!

In the end, even though his actual power was not yet at the Almighty State, in actual battle, he would not be defeated by anyone at the intermediate Almighty State and below!

On the other hand, the Dragon Pill was a very valuable pill that was made with the Fairy Fruit!

He only made around thirty of them initially.

After using them for the past few months, he only had around ten left. Everyone he used decreased his stock!

It was because of that, that he did not want to waste the Dragon Pills unless he had to!

Otherwise, if he took a Dragon Pill, the three guardians would not have taken so long for him to deal with!

"Wow, that's great!"

"Leon, I can't believe you're already at the Almighty State. You're just too amazing!"

Seeing as Leon did not deny the matter. Iris, Cynthia, and the others were incredibly happy.

They knew about Leon's background!

When they first met Leon, Leon was not even a Supreme Master!

Yet, in just a little over half a year, Leon managed to get to the Almighty State!

Leon was so young and so talented. Even the one hailed as the strongest in the younger generation in the Southern region, Yuri, would find it hard to compete!

Even many of the older generation were no match for Leon!

It was impossible to not be impressed by that!
