Chapter 2443

Meanwhile, outside the gates of the Morrisons' Mansion, it was in the afternoon.

Hugo waited outside the gate with two bodyguards for Leon's arrival.

Next to him was an extremely beautiful young woman in her mid-twenties. She was none other than Hugo's younger sister, Renee Morrison.

When Hugo went to Cynthion Group's sales drive, he returned with three Supreme Pure Energy Pills, two hundred Energy Nurturing Pills, and an agreement of collaboration with Leon.

He reported his accomplishment to his grandfather, Caleb Morrison, as soon as he returned.

At first, Caleb and the other elders did not think much of the collaboration, but after witnessing the power of the alchemical pills, they instantly realized the potential of this business partnership.

They were all impressed by Hugo's decision and all praised Leon for being a young, accomplished entrepreneur.

Renee was raised to be proud and was curious when Caleb and the others constantly praised Leon, especially when Hugo had high regard for Leon as well.

Upon learning that Leon was coming to the western region,

she happened to be free and came to wait with Hugo, wanting to see what the famous young entrepreneur looked like.

"Hugo, it's way past the agreed time. Where's Leon Wolf?" Seeing as Leon was late to show up, Renee's patience worn thin.

As the lady of the Morrisons, she held a high status and was spoiled. She was met with respect wherever she went, so she never waited for anyone in her life.

After waiting for just a few minutes, she grew impatient, and her curiosity toward Leon worn out.

"Renee, don't rush! Mister Wolf called and said that he's on the way." Hugo smiled.

The next instant, a black, luxurious car raced toward them and stopped before them.

The car door opened and Leon stepped outside.

"Mister Wolf, it's been so long!" Hugo greeted him with Renee and two of his bodyguards.

"Yeah. It's been a while, indeed." Leon smiled and turned his attention to Renee, who was breathtakingly beautiful.

"Mister Morrison, who's this?" Leon asked in confusion, feeling enticed by Renee's beauty.

Ever since he obtained the inheritance from his ancestors, his life took a dramatic turn and he found himself surrounded by beautiful women all the time.

Iris, Cynthia, Roanne, and the others were all great beauties, so after spending time with them, he began to grow numb toward beautiful women.

However, Renee's looks rivaled that of Snow and Ruth, and came a close second to Iris, Cynthia, and Roanne.

They all had a different type of beauty and despite having gotten used to beauties, Leon couldn't help but look at Renee.
