Chapter 2425

## Chapter 2425

"Great! I did get to the next level!" Arthur stood and burst into laughter.

Like the others, he thought that he was set for failure and was devastated. Yet, Leon managed to turn the tides and helped him get to the Peak Almighty State with ease.

It was unexpected and Arthur was overjoyed.

"Congratulations, Elder Thompson," Leon said with a smile and picked his pendant up from the center of the circle.

"Mister Wolf, thank you so much for getting me past the bottleneck of my training. I don't even know how I can repay this debt." Arthur snapped out of it and thanked Leon earnestly.

"Elder Thompson, you don't have to thank me. We're allies, so it's only normal for us to help each other out," Leon said with a smile, before raising his arm to withdraw the Spiritual Pearl.

"Mister Wolf, is this pearl the treasure Roanne talked about? The one that helps with martial artists' training?" Arthur glanced at the Spiritual Pearl in Leon's hand in realization.

When he and Angus demanded that Roanne move out of Leon's house, Roanne claimed that Leon owned a treasure that could help with her training.

She also mentioned that she was reluctant to leave because

she wanted to keep training with Leon and the others.

Now that Leon used the Spiritual Pearl with Arthur's training, Arthur finally realized that he underestimated the pearl's power.

If Roanne continued to train with Leon, it would only benefit her.

"That's right! This is called the Spiritual Pearl and I stumbled upon it in the past." Leon nodded.

"I see! Mister Wolf, how lucky of you to obtain such a powerful treasure," Arthur said enviously.

He used to be baffled as to how a young man like Leon with no powerful family background managed to reach the Almighty State. It was not until this moment that he realized that it was because Leon was talented and had the help of the Spiritual Pearl.

It seemed understandable that Leon surpassed others his age and Arthur was led to conclude that the Spiritual Pearl played an important role in his accomplishment.

Still, treasures were rare, especially for the ones that held tremendous power.

The fact that Leon managed to obtain the Spiritual Pearl was proof of his capability as well, as it could not be accomplished by sheer luck.

Just as Arthur sank into his thoughts, Angus, Yuri, and the others hurried over.

"Mister Wolf, who would have known that you are not just talented, but also capable of helping others in the Almighty State with their training? Your abilities never cease to amaze us!" Angus said sincerely.

The other elders and Yuri were all looking at Leon with respect as well.

After the battle with the Southern Boss, they all thought that they saw the full extent of Leon's capability, only to realize that they underestimated Leon.

It was unheard of for someone to be capable of helping martial artists in the Almighty State with their training, and their hearts were all filled with admiration toward Leon at this moment.
