Chapter 2431

Chapter 2431

"Alright, Chandler, take the pill and start circulating your energy in the center of the circle," Leon said.

"Alright!" Chandler responded.

Though he still found it hard to believe that he could get to the next power level with the help of the Sun Pill, he followed Leon's order and sat down at the center of the circle, before taking the Sun Pill.

The Sun Pill melted in his mouth and instantly transformed into waves of pure energy that coursed through his body.

In the meantime, Leon placed the clear jadeites at the center to activate the Energy Convergence Circle and the Light Convergence Circle.

As the circles were activated, the Energy Convergence Circle started gathering the spiritual energy from the air and sent it directly toward Chandler.

The Light Convergence Circle, on the other hand, gathered the light energy in the atmosphere and sent it toward Chandler from a different direction.

With streams of energy flying toward Chandler, it formed a breathtaking sight.

"How powerful!" Chandler was shocked as he sensed the energy coming from the Sun Pill, the Energy Convergence Circle, and the Light Convergence Circle.

Not daring to delay, he fired up his energy and began to absorb the energy that was sent toward him.

Some time later, Chandler absorbed all the energy and his strength rose to the peak state of the Initial Almighty State.

"Can it be that I can get to the Intermediate Almighty State right now?" Excited, Chandler was moved and instantly decided to attempt a breakthrough.

"Chandler, steady yourself! I'll help you out!" Leon said.

Remembering how it was helping Arthur with his training, Leon immediately retrieved the Spiritual Pearl and activated it.

The Spiritual Pearl darted upward and stopped, hovering above Chandler's head.

It shone brightly and a powerful stream of energy rained down on Chandler.

Leon then executed the Eternity Compression Method and pressed the pressure points around Chandler's chest and back to balance his energy.

With Leon's help, Chandler slowly began to calm down and entered a meditated state.

The tremendous energy from the Spiritual Pearl swarmed him and he started seeing his surroundings with a new perspective.

In the next instant, he jolted and broke past the barrier in his training, successfully reaching the Intermediate Almighty State.

"He did it!"

Henry, Mason, and the others cheered.

Though they all knew the power of the Sun Pills and assumed that Chandler would succeed, they were still excited for Chandler when their assumption was proven right.

Naturally, Leon was equally pleased and smiled, before withdrawing his arms.
