Chapter 2437

Chapter 2437

"Yes, sir!" Mason and the others agreed.

They all knew that Leon intended for them to remain in the mountain to focus on their training, as they could only see results within a short period if there was no distraction.

"Also, the Light Convergence Circle can gather light energy from the atmosphere, which matches with the Heavenly Stars Method's requirement. Stay within the Light Convergence Circle and the Energy Convergence Circle to train, and that should increase the effectiveness of your training," Leon added.

He came all the way to plant the Light Convergence Circle here to get Chandler's power level up, but also because he planned to hand the Heavenly Stars Method to the others all along and planned for them to remain here for their training.

Given the power of both circles, his subordinates would make leaps in their training within a short period.

"Mister Wolf, I have a question. If we focus and train with the Heavenly Stars Method, how long will it take for us to reach the Saint State?" Mason asked with anticipation.

Naturally, he was not the only one, as Henry, Spencer, and the others all desperately wished to reach the Saint State.

"You want to get to the Saint State? It's not that easy! The Heavenly Stars Method is a shortcut, but martial arts require hard work. If you want to reach the Saint State, you'll need at

least a few years and you need talent for that as well," Leon explained.

The Heavenly Stars Method was not a shortcut to all, and it was only meant to increase the effectiveness of their efforts. However, it would be unlikely for them to reach Saint State, at least for the time being.

Whether they could achieve it would rely solely on their fortune.

"I see," Mason and the others came to realize that they were being unrealistic.

Indeed, Leon would be invincible if the Heavenly Stars Method could produce martial artists in the Saint State with ease.

"Alright, I'll give you your tasks! Mason, Spencer, and the rest of you will have two months to get to the Almighty State! You may leave the mountain as soon as you achieve that goal," Leon said to Mason, Spencer, and the others.

With the situation of the underground community stabilized at the moment, no issue should arise for at least another few months, so he was in no hurry for Mason to replace the Southern Boss and was willing to wait until Mason reached the Almighty State to do so.

Apart from that, he intended to have Leo and Austin assist Mason in controlling the underground community.

So long as the three of them were in the Almighty State, their safety would be guaranteed.

"Henry, your mission for now is to get yourself to the Intermediate Almighty State. If possible, try your best to get to the Advanced Almighty State. As for Chandler, I want you to get to the Advanced Almighty State. I hope you won't disappoint me," Leon said and turned to glance at Henry and Chandler with anticipation.

Among his subordinates, Henry and Chandler were the most powerful martial artists who reached the Almighty State. Chandler just reached the Intermediate Almighty State with the help of the Sun Pill, and Leon wished that the two could take this opportunity to ascend to the Advanced Almighty State.

He needed them to succeed so that they could be fully capable of protecting the women in case the Southern Boss returned to the Southern region for retaliation.
