

Chapter 1185 Responsibility

The leaders from numerous families were gathered outside the maritime secret realm, eagerly anticipating the return of those inside.

Within the Demon Forest, Liam, who had killed Townsend and Garrett, was beginning to regain his senses.

The intense night of passion from the previous evening had left him fatigued.

Indeed, due to the potent pollen's influence last night, Laura and Shayla had exhibited remarkable passion, exhausting Liam.

Liam woke up and took a brief moment to gather his thoughts before surveying his surroundings.

He discovered himself intertwined with two unclothed individuals, Laura and Shayla.

Due to their contentment, both women sported a rosy tint on their cheeks.

In reality, Laura and Shayla had awakened before Liam. Although they had only vague recollections of the previous night, they were pleased with the outcome.

They even entertained the hope that Liam had initiated the matter.

Not sure how to deal with the situation, they feigned sleep, anticipating Liam's awakening, each devising their own strategies.

This also allowed them to remain embraced by Liam for a while longer.

Upon Liam's awakening, Laura and Shayla acknowledged the inevitable and ceased their pretense. They both opened their eyes.

Liam's expression grew awkward as he grappled with how to address the situation with the two women.

Laura and Shayla also felt a bit awkward.

Both women were unsure about how they had ended up sleeping with Liam the night before. They dressed themselves. Shayla said to Liam, "Liam, we can't simply forget what happened last night. From now on, Laura and I belong to you."

Laura blushed deeply and said, "It... It was my first time last night."

Liam sighed internally, having chosen to rescue them the previous night and accepting accountability for what he had done.

Seeking to dispel any misunderstandings, Liam explained, "The pollen present in the atmosphere of the Demon Forest, which is generated by the vines, possesses aphrodisiac qualities. Due to your extended stay here, these effects have gradually accumulated within your system. Without my intervention to detoxify you, the consequences could have been considerably dire. I trust you comprehend the gravity of the situation and won't hold it against me for taking action."

Laura and Shayla felt a sense of joy as they listened to Liam, realizing that this experience had brought them physically closer to him.

However, they grew concerned once more, pondering if Liam's actions the previous night had solely been motivated by their well-being.

Liam discerned their thoughts from the complex expressions on their faces.

He was not one to shirk responsibility. Knowing he was accountable for his actions, he had no intention of fleeing from his commitments.

With sincere eyes, Liam told Laura and Shayla, "After I've saved Julie and Asher, let's establish a home and future together. Since I've slept with both of you, I promise to be responsible for you two."

Laura and Shayla felt relieved, their expressions brightening with happiness as Liam's words sank in. Overwhelmed with excitement, they enveloped Liam in a tight embrace, each wrapping an arm around him.

Shayla took it a step further, nuzzling her chest against Liam's arm playfully and saying, "I knew you wouldn't let us down!"

Suddenly, Emer interjected, "Master, we're running out of time. The secret realm's exit will close in an hour. You need to leave now to avoid being trapped here indefinitely. Save the sweet talk for later."

Liam detected the playful tone in Emer's voice, understanding that the creature was doing this on purpose. He mentally chided Emer for the timing of the interruption.

But he also knew that Emer was right. It was crucial not to miss the opportunity to depart from the maritime secret realm.
