

Chapter 1113 Shayla's Physical Condition

To Liam's surprise, Shayla suddenly collapsed. Liam rushed to her aid, lifting her from the ground.

As he checked her condition, his expression darkened.

Shayla's physical state was grim.

Having suffered prolonged torture and abuse under the Glyn family, her health had severely deteriorated, yet the worst was her recent severe head injury.

Remarkably, despite the extended abuse, she had maintained her mental resilience, a rare feat.

However, the trauma had caused the primogem energy within her to destabilize alarmingly.

Liam's brow furrowed in concern. He recalled what Carlden had once mentioned. For a Primogem Warrior, spiritual power was paramount.

This power didn't just influence their strength but also their ability to control their special power.

In other words, spiritual power was crucial for managing Primogem Warrior's own strength. A lapse in this power was severe!

Yet, Shayla was now facing such a crisis.

If the situation persisted, her primogem energy would gradually diminish, making her an ordinary person.

In the worst-case scenario, she might lose control over her internal primogem energy, potentially causing catastrophic damage to her internal organs.

Liam sighed. He knew that to save Shayla, he needed to restore her spiritual power.

"Universe Crystal Dew!" Liam murmured.

The primary purpose of Universe Crystal Dew found in Lotus Lake was to boost the spiritual power of a Primogem Warrior. Additionally, it had the ability to cure all illnesses.

Because it could enhance a Primogem Warrior's spiritual power, the three groups had fought for it, even at the risk of their lives.

A shadow fell across Liam's face as he thought about the Universe Crystal Dew. The Zephyr Ape now controlled Lotus Lake, and returning meant confronting this formidable enemy.

Liam was tempted to return to Lotus Lake and reclaim some Universe Crystal Dew from the Zephyr Ape.

But he wasn't reckless.

He knew how perilous this decision could be.

Failing might mean even he wouldn't survive.

Reflecting on this, a look of resignation appeared on Liam's face.

Ultimately, he felt hindered by his own lack of strength.

However, he didn't allow himself to be overwhelmed by despair. He asked Laura to ensure Shayla was well looked

after as he closed his eyes to focus intently on the special power of the light element he had mastered.

Among all the special powers, the special power of the light element was the most rare. Regrettably, Liam was yet to discover how to wield this special power.

He muttered to himself, "If only I knew how to use this special power, my strength would soar to unprecedented heights! This might be the only way I can stand a chance against the Zephyr Ape."

Meanwhile, Laura, who had been tending to the unconscious Shayla, paused and said after a moment of hesitation, "Liam, it's far too risky to return to Lotus Lake for the Universe Crystal Dew. Perhaps there's another way?"

This caught Liam off guard. He opened his eyes, revealing a newfound intensity in his gaze.

This reminded him of the time he had made up his mind to head to Invone to rescue Asher. Shayla had also persuaded him in the same way!

Back then, he had ignored Shayla's advice, resulting in even worse outcomes.

Yet, despite the past, Liam still disregarded Laura's words.

This time, though, he maintained his composure and did not let anger towards Laura surface.
