

Chapter 1284 Liam's Past

Victory!

After his triumph over Chad, Liam was exhausted from harnessing World Power in his attacks.

The Network of Human Sovereign emitted a beep, querying whether Liam intended to proceed to the eighth arena battle.

A bitter smile crossed Liam's face.

How could he possibly join the eighth battle in his current depleted state?

"Decline," Liam replied.

With that, his winning streak remained impressively at seven victories.

Despite his fatigue, his spiritual power was robust enough to stave off any immediate collapse.

Chad stood there, utterly bewildered.

Although death was not a possibility in the arena, severe injuries could indeed reverse one's cultivation progress.

Had Chad not possessed the strength of a Primogem King, Liam's formidable strike might have caused a regression for him!

Upon hearing Liam's refusal to fight in the eighth battle, Chad exhaled a sigh of relief.

He whispered to himself, "This man is truly fearsome."

His respect for Liam deepened, and he envisioned a bright future for Liam.

Meanwhile, in the spectator stands, Caden and Christos displayed expressions of pleasant surprise.

The impression Liam had made on them was profound.

The rest of the audience was rendered speechless.

No one dared to inquire about the origins of Liam's World Power, as such topics were considered private.

Caden looked at Liam with profound admiration, his determination to recommend him to the Citadel Guardian growing stronger.

After completing his arena tasks, Liam's points had reached 7000.

He was now tantalizingly near to unlocking the third-level authority he so desired.

Yet, joy was elusive for him right now. He retreated to a secluded training room to recover properly.

The series of battles, amplified by his use of World Power, had taken a severe toll on him.

Unbeknownst to Liam, Caden, the Lord of Rosefinch, had discreetly disappeared.

Caden had made his way to the Heavenly Dragon College.

Upon seeing Caden, Sheldon initially looked surprised but quickly approached him with a respectful demeanor.

"Lord of Rosefinch, what brings you here?" Sheldon asked.

Caden chuckled and, following a brief exchange of

greetings with Sheldon, presented a gift that he had thoughtfully prepared during his journey. He said, "Sheldon, if I remember it correctly, when Liam came to Cosmic realm, he met you first, right?"

Sheldon nodded, clearly grasping Caden's intention.

Subsequently, Caden began to delve into inquiries about Liam's information.

While Sheldon was not deeply acquainted with the details of Liam's past, he knew someone who was well-informed: Lindy.

Without delay, Sheldon summoned Lindy and said, "Lindy, please share with the Lord of Rosefinch the details of Liam's past."

Acknowledging the request, Lindy nodded and began to recount her knowledge of Liam's past.

Caden listened with keen interest, learning about the encounter between Liam and Lindy and how Liam had come to possess his Malicious Aura Domain.

From Lindy, Caden also discovered that it was she who had personally facilitated Liam's journey to the Rosefinch Galaxy.

Overwhelmed with joy, Caden lavished praise on Lindy. "Well done, Lindy! You truly are an exceptional young talent of our Human Clan! Your guidance has introduced us to a super genius!"

Hearing this, Lindy could barely conceal her joy.

Suddenly, Sheldon added, "By the way, Liam originated from a Celestial Realm known as Blue Star before his arrival in the Cosmic Realm. It's the very same realm that Emperor Hoffman hailed from. Both made their journey here from
